## ANNUAI

 STATISTICAL SUPPIEMENT. 1999to the Social Security Bulletin

Social Security Administration

The Annual Statistical Supplement to the Social Security Bulletin (ISSN 00377910) is published by the Social Security Administration, 500 E Street, SW., 8th Floor, Washington, DC 20254-0001. Periodical class postage is paid in Washington, DC and additional mailing offices. The detailed tables published in the Annual Statistical Supplement augment the tables carried in the quarterly issues of the Social Security Bulletin.

The Supplement is prepared in the Office of Policy, Office of Research, Evaluation and Statistics, Social Security Administration. Suggestions or comments concerning the Supplement should be written to the Office of Research, Evaluation and Statistics at the above address. Comments may also be made by telephone: 202-358-6265 or email: <ORES.publications @ssa.gov>.

The Supplement is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. The Supplement is included in the subscription price of the Bulletin: $\$ 23.00$ domestic and $\$ 28.75$ foreign. The price for single copies of the Supplement is $\$ 35.00$ domestic and $\$ 43.75$ foreign. Prices are subject to change. For current pricing information contact the Government Printing Office by telephone (202-7833238) or fax (202-512-2250).

Postmaster: Send address changes to Social Security Administration, Division of Publications, 500 E Street, SW., 8th Floor, Washington, DC 20254.

Note: Contents of this publication are not copyrighted; any items may be reprinted, but citation of the Annual Statistical Supplement to the Social Security Bulletin as the source is requested.

Over the past six decades, Social Security has become part of the fabric of America. It is the most successful federal domestic government program in the nation's history, and also the most popular. Today, more than 150 million American workers and their families are covered by Social Security, and more than 44 million people receive monthly Social Security benefit payments.

In the coming century, this venerable program will become even more important, as 76 million baby boomers reach retirement age.

However, while nearly all Americans are familiar with Social Security, many people do not understand the scope of the program in family economics, or the varying importance of the program among different levels of wage earners or different population groups. This Annual Statistical Supplement to the Social Security Bulletin provides this data-and more.

For example, the 250 detailed tables also illustrate how demographic changes have affected Social Security over the past 60 years, and provide related information on other social welfare expenditures and employment and earnings data. In the narrative sections of the Supplement, readers will find a description and a legislative history of each of the Social Security (retirement, survivors, disability insurance), Supplemental Security Income, and Medicare programs.

For almost 60 years now, legislators, policy analysts, students, and workers and their employers have been able to turn to this book for reliable, factual information on the Social Security program. I believe that everyone who consults this edition of the Annual Statistical Supplement will find it to be a comprehensive and useful reference source.

Kenneth S. Apfel
Commissioner of Social Security

## Annual <br> Statistical <br> Supplement, 1999

| Overview | 2 <br> 13 | List of Statistical Tables <br> Program and Administrative Highlights <br> Program Descriptions |

## Program and Administrative Highlights

Old-Age, Survivors, and Disability Insurance (OASDI)

1998: OASDI benefits increased by a 1.3 percent cost-of-living adjustment effective for December 1998. Amounts of taxable and creditable earnings increased in 1999 to $\$ 72,600$. In 1999, the amount of earnings required for a quarter of coverage increased to $\$ 740$. The retirement test exempt amounts increased to $\$ 15,500$ for persons aged 65-69 and $\$ 9,600$ for those under age 65 .

# Social Security 

The national Old-Age, Survivors, and Disability Insurance (OASDI) program, popularly referred to as Social Security, is the largest incomemaintenance program in the United States. This section provides a brief program summary followed by a description of the history and current provisions of the OASDI program.

## Program Summary

The Old-Age, Survivors, and Disability Insurance (OASDI) program provides monthly benefits to retired and disabled workers and their dependents and to survivors of insured workers. Benefits are paid as a matter of earned right to workers who gain insured status and to their eligible spouses and children and survivors. Retirement benefits were provided by the original Social Security Act of 1935, benefits for dependents and survivors by the 1939 amendments, benefits for the disabled by the 1956 amendments, and benefits for the dependents of disabled workers by the 1958 amendments. In 1965, the Health Insurance program, generally known as Medicare, was enacted. Medicare is administered by the Health Care Financing Administration.

A person builds protection under the OASDI program through work in employment covered under Social Security. Coverage in general is compulsory. Taxes on wage and salary workers' earnings, up to a statutory maximum taxable amount each year, are withheld and matched by employers. Self-employed persons pay taxes on their annual earnings up to the same maximum as employees but at the combined employer-employee rate. However, special tax deduction provisions apply that are designed to treat the self-employed in much the same manner as employers and employees are treated for purposes of Social Security and income taxes. While taxes of workers with more than one employer are withheld and matched up to the annual maximum by each employer, the employee's share of taxes on total wages above the maximum is refundable through the income tax system. All taxes are credited to
the OASI and DI Trust Funds, which by law may be used only to meet the cost of:
(1) Monthly benefits when the worker retires, dies, or becomes disabled;
(2) lump-sum death payments to survivors;
(3) vocational rehabilitation services for disability beneficiaries; and
(4) administrative expenses.

Benefits are financed principally through contributions from employers, employees, and the self-employed. The trust funds also receive income from: interest on investments of trust fund assets in securities issued or guaranteed by the U.S. government; federal general revenues to finance the cost of benefits attributable to military and other gratuitous wage credits and "special age-72" benefits; and revenues resulting from the inclusion of part of Social Security benefits in adjusted gross income for federal income tax purposes.

The OASDI program is administered by the Social Security Administration (SSA). Public Law 103-296, signed August 15, 1994, established SSA as an independent agency, effective March 31, 1995. Prior to that date, SSA had been a component of the Department of Health and Human Services (HHS). As an independent agency, SSA is headed by a Commissioner, appointed to a 6-year term by the President, subject to Senate confirmation. In addition; a sevenmember bipartisan Social Security Advisory Board was established to review and make recommendations to the Commissioner concerning policies related to the OASDI and Supplemental Security Income (SSI) programs.

Three members of the Board are appointed by the President and the remainder by Congress.

## Provisions for Railroad Retirement Beneficiaries

The OASDI tables do not include a number of persons receiving Railroad Retirement benefits who would be eligible for Social Security benefits had they applied. The reason they have not applied is that receipt of a Social Security benefit would reduce their Railroad Retirement benefit by a like amount. The number of persons is not available, but is estimated to be less than 100,000.

The Railroad Retirement Act of 1974, effective January 1, 1975, provided that the regular annuity for employees with 10 or more years of railroad service who retired after December 31, 1974, will consist of two components:

Tier 1-A basic Social Security level component equivalent to what would be paid under the Social Security Act on the basis of the employee's combined railroad and nonrailroad service, reduced by the amount of any monthly benefit under OASDI actually paid on the basis of nonrailroad work; and

Tier 2—A staff level component payable over and above the Social Security equivalent, on the basis of a formula applicable only to railroad service.

## Recent Legislative and Program Changes

Increase in substantial gainful activity (SGA amount).-Effective July 1, 1999, the Social Security Administration raised from $\$ 500$ to $\$ 700$ the amount of monthly earnings necessary for a disabled individual with impairments other than blindness to be considered engaging in substantial gainful activity (SGA). This regulatory change was issued as part of an effort to encourage disabled individuals to attempt to return to the workforce.

The SGA threshold is part of the definition of disability that requires an
individual to be unable to engage in substantial gainful activity to be eligible for benefits. Earnings of more than $\$ 700$ a month will ordinarily demonstrate that an individual is engaged in SGA. Earnings of less than $\$ 300$ a month will ordinarily demonstrate that an individual is not engaged in SGA. Earnings between $\$ 300$ and $\$ 700$ a month will require that consideration be given to circumstances related to the work activity.

A different definition of SGA applies to blind persons receiving Social Security disability benefits. Increases in the SGA amount for blind individuals are pegged to increases in the national average wage index and thus were not affected by the 1999 rule change. The SGA level for blind individuals increased from $\$ 1,050$ in 1998 to $\$ 1,110$ in 1999.

Annual earnings test.-Public Law 104-121, The Contract With America Advancement Act, enacted March 29, 1996, raised the exempt amounts under the annual earnings test for persons who have reached the normal retirement age, currently age 65. These amounts are $\$ 12,500$ in 1996; $\$ 13,500$ in 1997; $\$ 14,500$ in 1998; $\$ 15,500$ in 1999; $\$ 17,000$ in 2000; $\$ 25,000$ in 2001; and $\$ 30,000$ in 2002. After 2002, the annual exempt amount will be indexed to the growth in average wages.

The legislation did not change the computation of annual exempt amount for beneficiaries under age 65, which continues to be pegged to increases in the average wage. This amount increased from $\$ 9,120$ in 1998 to $\$ 9,600$ in 1999. The earnings test does not apply to beneficiaries aged 70 or older and to persons receiving disability benefits.

Elimination of annual report of earnings.-Social Security beneficiaries under age 70 who have earnings above certain exempt amounts may have some or all of their benefits withheld due to the earnings test. Beneficiaries who are subject to the earnings test and who receive some benefiits during the year are required
by law to file an annual report of earnings with the Social Security Administration (SSA). SSA has changed its regulations to state that beginning for reports due on or after April 15, 1997, the information on W-2 forms from employers and selfemployment tax returns sent to the Internal Revenue Service may be considered the annual report. SSA will use the earnings information available in its records along with other pertinent information to adjust benefits under the earnings test. This change will reduce the public reporting burden.

## History of Provisions

This section describes the history and current provisions of the Social Security program. In the tables, the word "Act" refers to legislation enacted in the year shown (except that the 1967 Act was signed January 2, 1968). 1972a denotes legislation of July 1; 1972b denotes legislation of October 30; 1973a denotes legislation of July 9; 1973b denotes legislation of December 31; 1981a denotes legislation of August 13; 1981b denotes legislation of December 29; 1994a denotes legislation of August 15; and 1994b denotes legislation of October 22.

## Coverage, Financing, and Insured Status

In 1998, about 148.5 million persons worked in employment or self-employment covered under the OASDI program. In recent years, coverage has become nearly universal for work performed in the United States (including American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands). About 96 percent of all jobs in the United States are covered. Coverage generally applies to persons irrespective of their age, sex, or citizenship. Table 2.A1 outlines the history of coverage provisions, and table 2.A2, the history of provisions regarding noncontributory wage credits, mostly for military service.

Workers excluded from coverage fall into five major categories:
(1) Federal civilian employees hired before January 1, 1984,
(2) railroad workers (who are covered under the railroad retirement system which is coordinated with Social Security),
(3) certain employees of state and local governments who are covered under a retirement system,
(4) household workers and farm workers whose earnings do not
meet certain minimum require ments (workers in industry and commerce are covered regardless of the amount of earnings), and
(5) persons with very low net earnings from self-employment (generally less than $\$ 400$ per year).
Employees and employers and the self-employed each pay mandated contributions, or taxes, on earnings in covered employment and selfemployment up to an annual maximum taxable amount for OASDI but, effective for 1994, without any upper limit on taxable earnings for HI (Medicare). The OASDI maximum taxable amount-\$72,600 in 1999is updated automatically each year in proportion to increases in nationwide average wage and salary earn-ings-generally called the average annual wage. The current Federal Insurance Contributions Act (FICA) tax rate applicable to the employee and the employer each is 6.2 percent for OASDI ( 5.35 and 0.85 percent, respectively, for OASI and DI) and 1.45 percent for HI. The self-employed person pays the combined employee-employer rate of 12.4 percent for OASDI and 2.9 for HI under the Self-Employment Contributions Act (SECA). See table 2.A3 for annual amounts of maximum taxable earnings and contribution rates, 1937-99, and contribution rates scheduled for future years. Table 2.A4 shows annual maximum amounts of contributions by employees and selfemployed persons, 1937-99.

Two deduction provisions reduce the SECA and income tax liability of self-employed persons. The intent of these provisions is to treat the selfemployed in much the same manner as employees and employers are treated for purposes of FICA and income taxes. The first provision allows a deduction from net earnings from self-employment equal to the amount of net earnings before the deduction, times one-half the SECA tax rate. The effect of this deduction
is intended to be analogous to the treatment of the FICA tax paid by the employer, which is disregarded as remuneration to the employee for FICA and income tax purposes. The second provision allows an income tax deduction, equal to one-half of the amount of the SECA tax paid, which is designed to reflect the income tax deductibility of the employer's share of the FICA tax.

Table 2.A5 describes income tax credits for 1984-89 intended to cushion the impact of increases in FICA and SECA taxes enacted in 1983. The SECA tax credits were replaced, effective 1990, by the deduction provisions described above.

The FICA and SECA taxes are deposited to the OASI, DI, and HI Trust Funds. In addition to the taxes on covered earnings, OASI and DI Trust Fund revenues include mainly interest on trust fund investments in securities guaranteed by the Federal Government, tax receipts attributable to income taxation of OASI and DI benefits, and transfers from the general fund of payments for costs of noncontributory military service wage credits and of benefits to certain uninsured persons who attained age 72 before 1972. Table 2.A6 outlines the history of provisions regarding appropriations from general revenues and interfund borrowing.

Public Law 103-387, signed October 22, 1994, simplified procedures for the reporting of wages paid to domestic employees and the payment of Social Security taxes on those wages. The threshold for coverage of a domestic employee's wages was raised from $\$ 50$ per calendar quarter to $\$ 1,000$ per calendar year, effective in 1994. For years after 1995, this amount will increase in $\$ 100$ increments as average wages rise. The 1999 threshold is $\$ 1,100$.

Under this legislation, domestic employees on farms are now treated like other domestic employees and their wages are subject to the new
threshold instead of the threshold applicable to agricultural employees; domestic employees are no longer covered under Social Security in any year in which they are under age 18, unless they are no longer attending school and their principal occupation is household employment. Also, in cases where the employer has only domestic employees, their wages will be reported annually, rather than quarterly, on the employer's personal income tax return, and Social Security employer and employee taxes will be subject to quarterly estimated payments.

To become eligible for his or her benefit and benefits for family members or survivors, a worker must earn a certain number of credits based on work in covered employment or selfemployment. These credits are measured in terms of quarters of coverage (QC). In 1999, a QC is acquired for each $\$ 740$ in annual covered earnings up to a maximum of four QC for the year based on earnings of $\$ 2,960$ or more. The amount of earnings required for a QC is adjusted automatically each year in proportion to increases in the average wage level.

Eligibility for most types of benefits requires that the worker be fully insured. To be fully insured a worker must have a number of QC at least equal to the number of full calendar years elapsing between age 21 , or 1950 if later, and the year in which he or she reaches age 62, becomes disabled, or dies-whichever occurs first. Under this requirement, workers who reach age 62 in 1991 or later need the maximum number of 40 QC to be fully insured. For workers who become disabled or die before age 62, the number of QC needed for fully insured status depends on their age at the time of onset of disability or death. A minimum of $6 Q C$ is required.

In the case of workers who die before achieving fully insured status, benefits may be paid to a worker's children and to his or her widow(er) caring for such children under age 16,
if the worker was currently insured at the time of death. To be currently insured, the worker must have earned 6 QC over the 13 calendar quarter period ending with the quarter of death.

To qualify for disability benefits a worker must be fully insured and, except where he or she is disabled because of blindness, must also meet a test of substantial recent work activity. Under this test, the worker aged 31 or older must have at least 20 QC during the period of 40 calendar quarters ending with the quarter in which the disability began. Workers disabled at ages 24 through 30 must have QC in one-half of the calendar quarters elapsing after age 21, and workers under age 24 need 6 QC in the period of 12 quarters ending with the quarter of disability onset. Table 2.A7 summarizes the basic provisions concerning benefit eligibility.

The President is authorized to enter into international agreements to provide coordination between the Social Security programs of the United States and the programs of other countries. The United States currently has social security agreements in effect with 17 countries, as shown in the following tabulation.

| Social Security agreement with- | Effective in- |
| :---: | :---: |
| Austria | 1991 |
| Belgium | 1984 |
| Canada | 1984 |
| Finland | 1992 |
| France | 1988 |
| Germany | 1979 |
| Greece | 1994 |
| Ireland | 1993 |
| Italy | 1978 |
| Luxembourg | 1993 |
| Netherlands | 1990 |
| Norway | 1984 |
| Portugal | 1989 |
| Spain . | - 1988 |
| Sweden | . 1987 |
| Switzerland | 1980 |
| United Kingdom | 1985 |

An international social security agreement is designed to benefit both workers and employers. Such agreements eliminate dual coverage and contributions with respect to the same work under the social security
programs of the countries that are parties to the agreement. Agreements also prevent the reduction of social security protection that results when a person works under the social security programs of two countries but is not eligible for benefits in one or both of the countries when he or she retires, becomes disabled, or dies. Under an agreement, each country takes into account periods of coverage that are completed under the laws of the other country and that were not already credited under its own laws. A partial benefit is then computed by each country based on the proportion of total covered work completed in that country.

Table 2.A1.-Type of covered employment and self-employment

| Act | Coverage election or waiver if any | Category of worker |
| :---: | :---: | :---: |
| 1935. |  | All workers in commerce and industry (except railroads) under age 65 in the continental United States, Alaska, and Hawaii and on American vessels. (Covered after 1936.) |
| 1939... |  | Age restriction eliminated. |
| 1946... |  | Railroad and Social Security earnings combined to determine eligibility for and amount of survivors benefits. |
| 1950.............. |  | Regularly employed farm and domestic workers. Nonfarm self-employed (except members of professional groups). Federal civilian employees not under a Federal retirement system. U.S. citizens employed outside the United States by American employers. Workers in Puerto Rico and the Virgin Islands (effective Jan. 1, 1951). |
|  | Elective by employer | State and local government employees not under a state and local government retirement system. Termination permitted 2 years after giving notice if group has 5 years of coverage when notice is given. |
|  | Elective by employer and employee | Employees (other than members of the clergy) of nonprofit organizations (upon election by employer, each current employee given a choice as to coverage; new employees are covered). Nonprofit organizations permitted to terminate coverage 2 years after giving notice, if the organization has 8 years of coverage when notice is given. |
| 1951.............. |  | Railroad workers with less than 10 years of service, for all benefits. (After October 1951, coverage retroactive to 1937.) |
| 1954.............. |  | Farm self-employed. Professional self-employed except lawyers, dentists, physicians, and members of other medical groups (taxable years ending after 1954). Additional regularly employed farm and domestic workers. Homeworkers. |
|  | Elective by employer | U.S. citizens employed outside the Unit |
|  | Elective by employer and employee | State and local government employees (except fire fighters and police personnel) under a state or local government retirement system (coverage provided at State's option; a majority of the eligible employees must vote in favor). See above (elective by employer, 1950) for termination rule. |
|  | Elective by individual | Members of the clergy and of religious orders not under a vow of poverty. |
| 1956........ |  | Members of the uniformed services on active duty or on active duty for training. Remainder of professional self-employed except physicians (taxable years ending after 1955). Farm landlords who materially participate in farm operations. |
|  | Elective by employer and employee | Fire fighters and police personnel in designated states. State and local government employees under a state or local government retirement system in designated states may be divided into two systems, one excluding employees not desiring coverage (new employees covered). |
| 1960.............. |  | U.S. citizens employed in United States by foreign governments or international organizations. Parents working for children (except domestic or casual labor). Workers in Guam and American Samoa. |
| 1965............. |  | Interns. Self-employed physicians (taxable years ending on or after Dec. 31, 1965). Tips for employee tax only. |
|  | Elective by individual | Members of certain religious sects may obtain exemptions from self-employed coverage (retroactive to 1951). |
| 1967.............. | Elective by employer and employee | Fire fighters under state and local government retirement system (under a majority favorable vote) and only if Governor of state certifies social security protection. |
|  | Subject to waiver by individual | Members of the clergy and of religious orders not under a vow of poverty are covered automatically, but they can choose to be exempt on grounds of conscience or religious principles. Taxable years ending after 1967. |
| 1972b..... | Elective by employer | Members of a religious order who are subject to a vow of poverty. Retroactivity allowed for 5 years but not earlier than Jan. 1, 1968. |
| 1977 .............. | Elective by individual | Members of the clergy and of religious orders who filed an application for exemption from coverage may revoke the exemption if the revocation is filed before the due date of the individual's federal income tax return for the first taxable year beginning after Dec. 20, 1977. |
| 1982............ |  | Federal employees-Hospital Insurance (Part A) program only, effective Jan. 1, 1983. |
| 1983.... |  | Federal employees (except reemployed annuitants) hired before Jan. 1, 1984, including executive, legislative, and judicial branch employees and including those with previous periods of federal service if the break in service lasted more than 365 days. |
|  |  | Legislative branch employees hired before 1984 who were not participating in the Civil Service Retirement System on Dec. 31, 1983. |

Table 2.A1.-Type of covered employment and self-employment -Continued

Table 2.A2.-Noncontributory wage credits

| Act | Provision |
| :---: | :---: |
| 1946............. | Fully insured status and average monthly wage of \$160 for World War Il veterans who died within 3 years after discharge. |
| 1950............. | Wage credits of \$160 per month of military service during World War II (Sept. 16, 1940, to July 24, 1947). |
| 1952............ | Same military wage credits to Dec. 31, 1953. |
| 1953...... | Same military wage credits to June 30, 1955. |
| 1954... | Same military wage credits to Mar. 31, 1956. |
| 1956............. | Same military wage credits to Dec. 31, 1956. |
| 1967............. | For uniformed services, wage credits of $\$ 100$ for each $\$ 100$ (or fraction thereof) of basic pay not in excess of $\$ 300$ per calendar quarter, beginning in 1968. |
| 1972b............ | For uniformed services, wage credits of $\$ 300$ per calendar quarter of service after 1956. (Supersedes 1967 provision.) For U.S. citizens of Japanese ancestry, wage credits for the period they were interned by the U.S. government during World War II (Dec. 7, 1941, to Dec. 31, 1946) and were aged 18 or older. |
| 1977.............. | For uniformed services, wage credits of $\$ 100$ for each $\$ 300$ of basic pay up to maximum credit of $\$ 1,200$ per calendar year after 1977. |

Table 2.A3.-Annual maximum taxable earnings and actual contribution rates, 1937-99 and thereafter

[^3]Table 2.A6.-Appropriations from general revenues and interfund borrowing

| Act | Type of transaction | Provision |
| :---: | :---: | :---: |
| 1935 .................. | Appropriations from general revenues | Annual appropriations to the old-age reserve account to provide payments; direct appropriation to pay for administrative expenses. |
| 1939.................. |  | Trust fund created from which benefits and administrative expenses were to be paid. |
| 1944 .................. |  | General authorization, to finance benefits and payments. |
| 1947 .................. |  | For cost of gratuitous military service wage credits. |
| 1950 .................. |  | General authorization repealed. |
| 1951 .................. |  | Railroad interchange provisions enacted. |
| 1956 .................. |  | For cost of gratuitous military service wage credits. |
| 1966 .................. |  | For cost of transitional uninsured monthly benefits for those age 72 and |
| 1972b................ |  | For cost of gratuitous wage credits for Japanese-American internees. |
| 1983.................. |  | A lump-sum payment to the OASDI Trust Funds equal to (1) the present value of the estimated additional benefits arising from the gratuitous military service wage credits for service before 1957 and (2) the amount of the combined employer-employee OASDI taxes on the gratuitous wage credits for service after 1956 and before 1984 but less any amounts previously transferred. After 1983, the trust funds will be reimbursed on a current basis for employer-employee taxes on such wage credits for service after 1983. |
|  |  | A lump-sum payment to the OASDI Trust Funds representing the amount of uncashed benefit checks (including interest) issued in the past. In the future, the trust funds will be credited on a regular basis. All transfers made for uncashed benefit checks will be subject to the annual appropriation process. |
|  |  | Transfers in each year from the Treasury Department to the OASDI Trust Funds amounts equal to income tax receipts attributable to inclusion of Social Security benefits in taxable income. |
|  |  | For tax credits for part of the 1984 employment FICA tax and part of the tax on selfemployment income under SECA for 1984-89, see table 2.A5. |
| 1993 .................. |  | Transfers in each year from the Treasury Department to the HI Trust Fund of amounts equal to income tax receipts attributable to the increased portions of Social Security benefits included in taxable income under the 1993 Act. |
| 1981 .................. | Interfund borrowing | Interfund borrowing permitted among OASI, DI, and HI Trust Funds as needed until Dec. 31, 1982. For all or part of any loan to be repaid, the managing trustee determines if assets of borrowing trust fund(s) are sufficient for that purpose. Interest with respect to any outstanding loan balance at a rate equal to the rate earned by lending trust fund is transferred from time to time. |
| 1983.................. |  | Interfund borrowing reauthorized among OASI, DI, and HI Trust Funds for calendar years 1983-87, with provisions for scheduled repayment, no later than Dec. 31, 1989, of principal and interest (including amounts borrowed in 1982). No borrowing permitted from any fund that has been reduced to specified levels. |

Table 2.A7.-Insured status (benefit eligibility)

## 2.A OASDI: Coverage, Financing, \& Insured Status

Table 2.A7.-Insured status (benefit eligibility) -Continued

| Act | Insured status concept | Provision |
| :---: | :---: | :---: |
| 1939....... | Currently insured | 6 QC earned in 12 quarters before quarter of death. |
| 1946...... |  | 6 QC earned in preceding 13 quarters, including quarter of death. |
| 1950..... |  | Including quarter of retirement added. |
| 1954.... |  | Including quarter of disablement added. |
| 1954....... | Disability insured | 20 QC earned in last 40 quarters, including quarter of disablement, and currently insured. |
| 1956.... |  | Fully insured requirement added. |
| 1958..... |  | Currently insured requirement eliminated. |
| 1960...... |  | Alternatively, 20 QC earned before quarter of disablement (not necessarily in last 40 quarters) but QC earned in all quarters after 1950, with minimum of 6 such QC. |
| 1965.... |  | Alternatively, for blind under age 31, QC earned in one-half the quarters elapsed after age 21, with minimum of 6 such QC. For blind under age 24, 6 QC earned in preceding 12 quarters. |
| 1967....... |  | For all disabled under age 31, same alternative. |
| 1972b..... |  | For blind, requirement for recent QC eliminated. |
| 1983....... |  | For those who become disabled again at age 31 or older and who were previously disabled before age 31, same alternative as that for those under age 31. |
| 1965....... | Transitionally insured | Same as fully insured, but minimum reduced to 3 QC. |
| 1966....... | Requirement for special age-72 monthly benefit | 3 QC for each year elapsed after 1966 and before attainment of age 72. (No QC if aged 72 before 1968.) |

## Benefit Computation and Automatic Adjustment Provisions

The primary insurance amount (PIA) is the monthly benefit amount payable to the worker upon retirement at age 65 or upon entitlement to disability benefits. The PIA is also the base figure from which monthly benefit amounts payable to the worker's family members or survivors are determined. The PIA is derived from the worker's annual taxable earnings, averaged over a time period that encompasses most of the worker's adult years. Until the late 1970s, the average monthly wage (AMW) was the earnings measure generally used. For worker's first eligible for benefits in or after 1979, average indexed monthly earnings (AIME) have replaced the AMW as the usually applicable earnings measure. The PIA computation based on AIME currently involves the following three steps:

- Indexing of earnings. The worker's annual taxable earnings after 1950 are updated, or indexed, to reflect the general earnings level in the indexing year-the second calendar year before the year in which the worker is first eligible, that is, first reaches age 62, becomes disabled, or dies. Earnings in years after the indexing year are not indexed but instead are counted at their nominal value. A worker's earnings for a given year are indexed by multiplying them by the following ratio (indexing factor): The average wage in the national economy for the indexing year, divided by the corresponding average wage figure for the year to be indexed. Table 2.A8 shows the indexing factors applicable to the earnings of workers who were first eligible in 1986-99. Table 2.A9 shows indexed earnings for workers first eligible in 1992-99 who had maximum taxable earnings in each year after 1950 .
- Determining AIME. The length of the computation period used in calculating AIME equals the number of full calendar years elapsing after age 21 , or 1950 if later, and up to the year of first eligibility, less generally 5 dropout years. (For workers who become disabled before age 47, the number of dropout years varies from 0 to 4 depending on the worker's age and child care dropout years-see "1980 Act" in table 2.A10.) The minimum length of the computation period is two years. The actual years selected for the computation period-the computation years-are the years of highest indexed earnings after 1950, including any years before age 22 or after age 61 as well as the year of disability or death. AIME are calculated as the sum of indexed earnings in the computation period, divided by the number of months in that period. Table 2.A10 outlines the history of provisions relating to the determination of AIME and AMW.
- Computing the PIA. The formula used to compute the PIA from AIME is weighted to provide a higher ratio of benefit to AIME for workers with comparatively lower AIME. The formula applies declining conversion rates to three AIME brackets. For workers who reach age 62, become disabled, or die in 1998, the formula provides a PIA equal to:
90 percent of the first $\$ 505$ of AIME, plus
32 percent of the next $\$ 2,538$ of AIME, plus
15 percent of AIME over $\$ 3,043$.

Beginning with the first year of eligibility, the PIA is increased by cost-of-living adjustments (COLAs). Table 2.A11 shows the PIA formula and first applicable COLA for workers first eligible in 1979 or later.

The dollar amounts defining the AIME brackets are referred to as bend points. These bend points-see table 2.A11-are updated automatically each year in proportion to increases in the national average wage level to ensure that benefit levels for successive annual cohorts of newly eligible workers keep up with rising earnings levels and thus incorporate constant rates of earnings replacement.

The benefit formula applicable to a worker depends on the year of first eligibility rather than, for example, on the year of retirement. Thus the PIA of a worker retiring at age 65 in 1999 is calculated using the benefit formula that applies to all workers first eligible in 1996. The PIA derived from that formula is then increased by the COLAs effective for December 1996, 1997, and 1998 to obtain the PIA effective at age 65. Analogously, when a worker's benefit is recomputed based on earnings recorded after the original benefit computation, the benefit formula used in that earlier computation is applied to the recalculated AIME and the resulting PIA increased by all COLAs beginning with the one effective for the year of first eligibility to establish the new PIA.

Workers with low earnings but steady attachment to the workforce over most of their adult years may qualify for monthly benefits based on the special minimum PIA computation. This computation-described in table 2.A12-does not depend on the worker's average earnings but on the number of coverage years-years in which the worker had earnings equal to or above a specified amount. The level of the special minimum PIA is the same for workers with the same number of coverage years, irrespective of age or year of first eligibility. Increases in the special minimum PIA are linked to COLAs.

The monthly benefits payable to the worker and family members or to the worker's survivors are subject to a maximum family benefit amount. The maximum benefit for retired-worker families or survivor families-see table 2.A13-varies, by PIA level, between 150
and 188 percent of the PIA. The bend points defining the PIA brackets in this formula are automatically adjusted in proportion to increases in the national average annual wage. The maximum benefit for disabled-worker families-see table 2.A14-is the smaller of 85 percent of AIME (or 100 percent of PIA if larger) and 150 percent of the PIA.

Like the formula for determining the PIA, the maximum family benefit formula applicable to a worker depends on the year of first eligibility. Once the worker's maximum family benefit amount for the year of first eligibility is determined, it is updated in line with the COLAs.

Tables 2.A15 And 2.A16 describe benefit computations based on the worker's nonindexed earnings after 1936 and 1950, respectively. Very few persons currently being awarded benefits have PIA's computed under these old-start or new-start computation methods. These methods, particularly the new-start method shown in table 2.A16, are more frequently applicable in earnings recomputations for workers who reached age 62 before 1979. Table 2.A17 shows the maximum family benefit amounts applicable in cases of first eligibility before 1979.

The following tabulation shows the history of provisions concerning the rounding of benefit amounts.

| Act | Type of rounding |
| :---: | :---: |
| 1935. | Nearest cent. |
| 1950. | Next higher $\$ .10$ at each computation step. |
| 1981 | Next lower \$. 10 at each computation step. Final individual benefit check (after the Supplemental Medical Insurance (SMI) premium for Part B of Medicare and some other deductions, if any) to next lower \$1 (if not already multiple of \$1). |

A cost-of-living increase in benefits generally is established each year if the Consumer Price Index for Urban

Wage Eamers and Clerical Workers (CPI-W), prepared by the Department of Labor, indicates a percentage increase after rounding of at least 0.1 percent between two specified quarters. The arithmetical mean of the CPI-W for July, August, and September in the year of determination is compared with the arithmetical mean of the CPI-W for the later of (a) July, August, and September in the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. The percentage increase in the CPI-W, rounded to the nearest 0.1 percent, represents the size of the increase in benefits, effective for December of the year in which the determination is made.

Under certain conditions, depending on the size of the combined OASDI Trust Funds relative to estimated disbursements, the applicability and size of a cost-of-living adjustment are determined under an alternative method, called the stabilizer provision. In no case, however, are benefits reduced below the level of benefits in the year of determination. The history of the provisions relating to the automatic adjustment of benefits, including a description of the stabilizer provision, is presented in table 2.A18. In addition, table 2.A18 includes a summary history and description of provisions relating to the annual automatic adjustment of (1) the maximum amount of taxable and creditable earnings; (2) the dollar amount needed to establish a quarter of coverage; (3) the bend points defining the AIME brackets in the PIA formula and the PIA brackets in the maximum family benefit formula; and (4) the exempt amounts under the earnings (retirement) test. All of these adjustments are linked to increases in the national level of the average annual wage rather than in the CPI.

Table 2.A19 illustrates the cumulative effect of statutory and automatic increases in benefits for workers who have been in benefit status over varying time periods.

Table 2.A8.-Factors for indexing earnings, 1951-99

| Year | Annual maximum taxable earnings | Average annual wage | Factors ${ }^{2}$ for workers who were first eligible (attained age 62, became disabled, or died) in- |  |  |  |  |  |  |

[^4]adjusted to be consistent with the pre-1978 series.
${ }^{2}$ The indexing factor for a given year represents the ratio of the average annual wage (col. 2) for the second year before the year of first eligibility to the average annual wage for the year to be indexed. Multiplying a worker's covered earnings up to the maximum taxable amounts for various years after 1951, by the indicated factors gives the indexed eamings. Earnings in the year before the year of first eligibility, and any eamings thereafter, are not indexed. The actual taxable earnings for those years are considered in calculating the average indexed monthly earnings (AIME).

Table 2.A9.-Indexed earnings for workers with maximum earnings, 1951-99

| Year | Annual maximum taxable earnings | Average annual wage | Annual maximum indexed earnings ${ }^{2}$ for workers who were first eligible (attained age 62, became disabled, or died) in- |  |  |  |  |  |  |  |

#### Abstract

${ }^{2}$ A worker's eamings for each year after 1950 and through the second year before the year of first eligibility are indexed by mulltiplying covered earnings, up to the maximum taxable amounts, by specified indexing factors (see table 2.A8). The indexing factor for a given year represents the ratio of the average annual wage (col. 2) for the second year before the year of first eligibility to the average annual wage for the year to be indexed. For exarnple, if the year of first eligibility is 1992, the indexing factor for 1975 is $\$ 21,027.98 / 8,630.92$, or 2.4363544 . Multiplication of maximum taxable earnings of $\$ 14,100$ for 1975 by this factor gives maximum indexed earnings of $\$ 34,352.60$ for 1975 for workers first eligible in 1992.

Table 2.A10.-Average monthly wage (AMW) and average indexed monthly earnings (AIME)

| Act | Earnings measure | Provision |
| :---: | :---: | :---: |
| 1939...... | AMW | Computed using creditable earnings after 1936 and before year of death or retirement, divided by months after 1936 and before quarter of death or retirement, excluding months before age 22 in quarters not QC. |
| 1950.... |  | Alternatively, computed using creditable earnings after 1950 (or year aged 21, if later) and before year of death, year of retirement or subsequent year, or year age 65 attained if then insured, divided by number of months in those years. |
| 1954..... |  | Earnings and months in 4 years may be excluded in all cases; in 5 years if worker has 20 QC. Period of disability may be excluded. |
| 1956..... |  | Earnings and months in 5 years may be excluded in all cases. Computation period may end at age 62 for women then insured. |
| 1960.... |  | Earnings may be used for any year after 1950 and before year of retirement but including year of death, with the number of years equal to the years elapsed after 1955 (or year age 26 attained) and before year of death or age 65 attained ( 62 for women). |
|  |  | Same method may be used for earnings after 1936 and years elapsed after 1941. |
| 1972b..... |  | Number of years for men reaching age 62 after 1972, measured to age 62 or to 1975, if later. |
| 1977....... |  | For workers who attain age 62, become disabled, or die after 1978, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1936. |
|  |  | For workers who attain age 62 after 1978 and before 1984, excludes earnings in year of attainment of age 62 and later, computed using creditable earnings after 1950. |
| 1977..... | AIME | For workers who attain age 62, become disabled, or die after 1978, AIME is computed by using indexed earnings after 1950 for the same computation period applicable in calculating the AMW. Indexed earnings for a given year equal actual creditable earnings multiplied by the national average wage for the second year before worker attains age 62, becomes disabled, or dies, divided by the national average wage for the given year, except that for years after the second year before the worker attains age 62, becomes disabled, or dies, indexed earnings equal actual creditable earnings. |
| 1980....... |  | For disabled workers, the number of years of earnings used equals the number of years elapsed after 1950 (or year age 21 attained, if later) and before year of disability, minus dropout years equal to onefifth of the number of elapsed years rounded to the next lower integer (to a maximum of 5 dropout years). However, the number of years of earnings used is at least 2. Effective for initial entitlement after June 1980. |
|  |  | Disabled workers who receive less than 3 dropout years under the one-fifth rule may be credited with additional dropout years based on child care, up to a total of 3 dropout years. (To receive this credit, a worker must have had no earnings in that year and have been living with a child under age 3.) However, the number of years of earnings used is at least 2. Effective for July 1981. |
| 1983....... |  | For workers who die after 1978 but before attaining age 62, indexed earnings for a given year equal actual creditable earnings, multiplied by the national average wage for the earlier of (1) the year in which the worker reached or would have reached age 60, or (2) the second year before the survivor becomes eligible for aged- or disabled-widow(er) benefits, and then divided by the national average wage for the given year. This computation method applies only if a higher benefit results. Effective for surviving spouses newly eligible after 1984. |

Table 2.A11.-Formulas for computing PIA from AIME, increases in PIA based on cost-of-living adjustments, and minimum PIA, for workers who were first eligible (attained age 62, became disabled, or died) in 1979 or later

| Act | Year of first eligibility | Percent of AIME applicable to PIA |  |  | First applicable cost-of-living adjustment |  | Minimum PIA based on indexed earnings |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 90 percent of first- | Plus 32 percent of next- | Plus 15 percent above- | Effective for- | Percent increase |  |

|  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |

${ }^{1}$ The 1977 amendments provided for annual automatic adjustments of bend points (AIME brackets) in benefit formula in proportion to increases in average wage level. As a result, separate formulas are applicable to workers who were first eligible (attained age 62, became disabled, or died) in successive calendar years. The legislation also "froze" the minimum PIA at $\$ 122$.

For workers who attained age 62 in the 1979-83 period, PIA cannot be less than that derived from PIA table in effect in December 1978 (approximated by PIA formula in table 2.A16) based on provisions in effect before 1979 but excluding eamings after year aged 61 in computations of AMW, and including any general benefit increase after year aged 61.
${ }^{3}$ Not subject to automatic adjustments until earlier of year of attainment of age 65 or year of first receipt of benefits.
${ }^{4}$ Minimum PIA eliminated by 1981ab legislation for workers who attain age 62 or die after 1981 (after 1991 for members of certain religious orders). 1981a legislation would have eliminated the minimum PIA effective March 1982 for workers who attained age 62 before November 1981 or who died (before attaining age 62) before March 1982; for all others, the minimum would have been eliminated effective November 1981. This legislation was superseded by 1981b legislation that restored the minimum PIA for workers who attained age 62 or died (before attaining age 62) before 1982.

The windfall elimination provision (WEP) in the 1983 amendments introduced a modified formula applicable to workers first eligible after 1985 who in addition first became eligible for a monthly periodic payment after 1985 based on roncovered employment. Under this formula the $90 \%$ factor applicable to the first AIME bracket is reduced to:

| Factor | Workers first eligible in |
| :--- | :---: |
| $80 \%$ | 1986 |
| $70 \%$ | 1987 |
| $60 \%$ | 1988 |
| $50 \%$ | 1989 |
| $40 \%$ | 1990 or later |

The WEP does not apply to persons who were Federal or nonprofit employees on Jan. 1, 1984, and became covered by Social Security on that date; to persons
with Railroad Retirement pensions; or to workers with 30 years of Social Security coverage. For the definition of a year of coverage see table 2.A12, except that the change in the definition of a year of coverage under the 1990 amendments did not apply to the WEP. Accordingly, the eamings required for a year of coverage after 1990 for purposes of the WEP are $\$ 9,900$ for 1991; $\$ 10,350$ for 1992; $\$ 10,725$ for 1993; $\$ 11,250$ for 1994; \$11,325 for 1995; $\$ 11,625$ for 1996; $\$ 12,150$ for 1997; $\$ 12,675$ for 1998 and $\$ 13,425$ for 1999. For workers with more than 20 years but less than 30 years of coverage, the factor applicable to the first AIME bracket in the formula is increased (but not decreased) to:
(1) For benefits payable for months after 1988 (based on 1988 legislation)-

Factor
Years of coverage

| $85 \%$ | 29 |
| :--- | :--- |
| $80 \%$ | 28 |
| $75 \%$ | 27 |
| $70 \%$ | 26 |
| $65 \%$ | 25 |
| $60 \%$ | 24 |
| $55 \%$ | 23 |
| $50 \%$ | 22 |
| $45 \%$ | 21 |

(2) For benefits payable for months before January 1989-
Factor Years of coverage

| $80 \%$ | 29 |
| :--- | :--- |
| $70 \%$ | 28 |
| $70 \%$ | 27 |
| $60 \%$ | 26 |

Reduction in PIA (from $90 \%$ to the applicable lower percentage of the first AIME bracket) will not be greater than one-half of the periodic payment based on noncovered employment performed after 1956.

## 2.A OASDI: Benefit Computation \& Automatic Adjustments

Table 2.A12.-Special minimum PIA: ${ }^{1}$ Formula applies to years of coverage

|  |  | Years of coverage |  | PIA computation |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Act | Applicable period | Number | Amount ${ }^{2}$ per year of coverage over 10 years | Maximum amount ${ }^{2}$ for workers with 30 or more years of coverage | Effective for- |
| 1972b .......... | 1937-50 | The number (disregarding any remainder and not exceeding 14) obtained by dividing total creditable wages in 1937-50 by $\$ 900$ | \$8.50 | \$170.00 | January 1973 |
|  | After 1950 | Number of years with creditable earnings equal to at least $25 \%$ of the effective annual maximum taxable earnings, that is: |  |  |  |
| 1973b ......... |  |  | 9.00 | 180.00 | March 1974 |
| $1977{ }^{3}$.......... | After 1978 | Number of years with creditable earnings equal to | 11.50 | 230.00 | January 1979 |
|  |  | at least $25 \%$ of what the annual taxable maxi- | ${ }^{4} 12.64$ | 252.80 | June 1979 |
|  |  | mum would have been if the statutory increases | ${ }^{4} 14.45$ | 289.00 | June 1980 |
|  |  | in the maximum under the 1977 amendments | ${ }^{4} 16.07$ | 321.40 | June 1981 |
|  |  | had not been enacted, that is: | ${ }^{4} 17.26$ | 345.10 | June 1982 |
|  |  | 1979..................................................... \$4,725 | ${ }^{4} 17.86$ | 357.10 | December 1983 |
|  |  | 1980.......................................................5,100 | ${ }^{4} 18.48$ | 369.50 | December 1984 |
|  |  | 1981.......................................................5,500 | ${ }^{4} 19.05$ | 380.90 | December 1985 |
|  |  | 1982.........................................................6,075 | ${ }^{4} 19.29$ | 385.80 | December 1986 |
|  |  | 1983...............................................................6,675 | ${ }^{4} 20.10$ | 402.00 | December 1987 |

|  | 1999 | 645 | 286 | 283 | 1,214 | 1999 | 1.3 |

${ }^{1}$ The 1977 amendments provided for annual automatic adjustments of bend points (PIA brackets) in maximum family benefit formula in proportion to increases
in average wage level. As a result, separate formulas are applicable to workers first eligible in successive calendar years.

Table 2.A14.-Formulas for computing maximum family benefit, and increases in maximum based on cost-of-living adjustments, for workers first eligible for disability benefits in 1979 or later

[^8]Table 2.A15.-Formulas for computing PIA ${ }^{1}$ from creditable earnings after 1936

| Act | Formula | Special provisions | Limited to- | Effective for- |
| :---: | :---: | :---: | :---: | :---: |
|  | Formula applied to cumulative wages after 1936 |  |  |  |
| 1935..... | $1 / 2$ of $1 \%$ of first $\$ 3,000$ of wages plus <br> $1 / 12$ of $1 \%$ of next $\$ 42,000$ of wages plus <br> $1 / 24$ of $1 \%$ of next $\$ 84,000$ of wages. |  |  | January 1942, but never applicable; superseded by new formula under 1939 Act. |

| 1939.... | Formula applied to AMW based on earnings after 1936 |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | $40 \%$ of first $\$ 50$ of AMW plus $10 \%$ of next $\$ 200$ of AMW. | Sum increased by $1 \%$ for each increment year-year with at least $\$ 200$ of creditable wages-to obtain primary insurance benefit (PIB). | . . | January 1940 |
| 1950..... | . . | Number of increment years limited to 14 for years before 1951. Conversion table in the law, reflecting 1950 benefit increase, introduced for determining PIA from PIB. | $\cdots$ | September 1950 |
| 1960..... | -•• | . . | Workers with at least 1 QC before 1951 and, if age 22 attained after 1950, with fewer than 6 QC after 1950. | Applications for benefits and recomputations filed after 1960. |
| 1967..... | . $\cdot$ | 1967 simplified old-start formula: Total creditable wages for 1937-50 distributed over 9-14 years, with 14 increment years assumed. | Workers with at least 1 QC before 1951 who attained age 21 before 1937 or attained age 21 after 1950 but with fewer than 6 QC. ${ }^{2}$ | Applications for benefits and recomputations filed after Jan. 2, 1968. |
| 1977..... | . $\cdot$ | 1977 simplified old-start formula: Total creditable wages for 1937-50 distributed over 1-14 years. Number of increment years equal to total 1937-50 wages, divided by $\$ 1,650$, with 4-14 increment years credited. | Workers with at least 1 QC before 1951 who either attained age 22 after 1936 and before 1950 or attained age 22 after 1950, but have fewer than 6 QC after 1950. ${ }^{3}$ | Workers first eligible after 1977. |
| 1990.... | - . | - $\cdot$ | Applicability of pre-1977 formulas terminated. 1977 old-start formula expanded to apply to all workers with pre-1951 earnings. | Persons becoming newly entitled after May 1992. |

[^9]attained age 21 after 1936 and before 1951 or for whom consideration of a peniod of disability that began before 1951 resulted in a higher PIA.
${ }^{3}$ Under this computation method, a period of disability that began before 1951 is not taken into account. The 1967 simplified old-start method remained in effect for workers with first eligibility before 1978. The pre-1967 old-start formula remained in effect only for workers, irrespective of date of first eligibility, for whom consideration of a period of disability that began before 1951 resulted in a higher PIA.

Table 2.A16.-Formulas for computing PIA from AMW based on earnings after 1950, and percentage increases in PIA [Formulas apply, as of effective dates shown, to benefits based on AMW after 1950]

| Act............................................. | 1950 | 1952 | 1954 | 1958 | 1965 | 1967 | 1969 | 1971 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

${ }^{1}$ Average increase in benefits of about $77 \%$-from $100 \%$ at the lowest level to $50 \%$ at the highest level.
${ }^{2}$ Increase of $12.5 \%$ or $\$ 5$, if larger.
${ }^{3}$ Average increase of about $13 \%$, with minimum increase of $\$ 5$.
${ }^{4}$ Increase of $7 \%$ or $\$ 3$, if larger.
${ }^{5}$ Increase of $7 \%$ or $\$ 4$, if larger.
${ }^{6}$ Applied to first $\$ 100$ of AMW.
Applied to next \$200 of AMW.
${ }^{8}$ Applied to next \$190 before 1955 and to next $\$ 240$ effective for January 1955.
${ }^{9}$ Effective for January of following year.
${ }^{10}$ Provision for automatic cost-of-living adjustments effective for January 1974.
${ }^{12}$ Increase of $5.9 \%$ effective for June 1974 but never applicable. Effective date of first automatic cost-of-living adjustment postponed to January 1975.
${ }^{12}$ Increase effective in two steps: 7\% for March-May; full 11\% for June 1974. Effective date of first automatic cost-of-living adjustment postponed to June 1975.
${ }^{13}$ Beginning June 1975 all benefit increases are based on automatic cost-ofliving adjustments.
${ }_{14}$ Effective for January 1979. PIA formulas based on AMW after 1950 (as shown here) apply only to workers who attained age 62, became disabled, or died before 1979.
${ }^{15}$ Applied to next $\$ 150$ effective for January 1973 and to next $\$ 350$ effective for January 1979.
${ }_{17}^{16}$ Applied to next $\$ 50$.
${ }^{17}$ Applied to next $\$ 100$ before January 1975.
${ }^{18}$ Effective data for automatic cost-of-living adjustments moved from June to December beginning with 1983.

Table 2.A17.-Minimum PIA and maximum family benefit for workers who attained age 62, were first eligible for disabled-worker benefits, or died before 1979

| Act | Effective for- | Minimum PIA ${ }^{1}$ (based on earnings) | Maximum family benefit |  |

[^10]tion for automatic increases beginning in 1974.)
${ }^{5}$ Superseded by 1981 b legislation that restored the minimum PIA for these groups.
Minimum PIA eliminated by 1981 legislation.

## 2.A OASDI: Benefit Computation \& Automatic Adjustments

Table 2.A18.-Automatic adjustment provisions

| Act | Adjustment of- | Provision |
| :---: | :---: | :---: |
| 1972a................ | Benefits Under the original provisions (based on the 1972a, 1973a, and 1973b Acts), the arithmetical mean of the CPI for January, February, and March in the year of determination was compared with the arithmetical mean of the CPI for the later of (a) January, February, and March of the year in which the last effective cost-of-living increase was established or (b) the 3 months of the calendar quarter in which the effective month of the last general benefit increase occurred. (Before the introduction, in 1977, of the alternative CPI series for "All Urban Consumers," or the CPI-U, the CPI-W was referred to as the CPI.) If the percentage increase in the CPI, rounded to the nearest one-tenth of 1 percent, was at least 3.0 (the triggering requirement), a cost-of-living benefit increase was established and the level of benefits increased by the same percentage, effective for June of the year in which the determination was made. |  |
| 1983 .................. |  | The 1983 Act moved the effective date for a cost-of-living benefit increase from June to December, beginning in 1983, and eliminated the "triggering requirement" for the 1983 increase only. Effective with the determination made in 1984, the two periods used in calculating the CPI-W percentage increase were shifted from the first to the third quarter. |
|  |  | The 1983 Act also introduced an alternative method for determining the size of a cost-ofliving adjustment. This method, called the stabilizer provision, is applied when the ratio of the combined OASDI Trust Fund assets to estimated outgo falls below a certain percentage. The "triggering" percentage is 15 percent for the years 1985-88 and 20 percent for years after 1988. Under these circumstances, the cost-of-living adjustment is based on the lesser of the CPI-W percentage increase determined above or the increase in average wages. The latter increase is the percentage, rounded to the nearest one-tenth of 1 percent, by which the national average wage for the year before the year of determination exceeds the average wage for the year before the most recent year in which either a cost-of-living increase or a general benefit increase occurred. (See column 2 in table 2.A8 for the annual amount of the average wage after 1950 and footnote 1 in table 2.A8 for the underlying data sources.) |
|  |  | The 1983 legislation also included a provision for making up any benefit increases that are based on a lower wage increase rather than on the increase in the cost of living. When the fund ratio is greater than 32 percent, additional increases will be provided so that benefits are increased to the level at which they would have been if all increases had been based on the CPI-W. (See table 2.A19 for the cumulative effect of statutory and automatic increases in benefits.) |
| 1986 .. |  | Triggering requirement eliminated for cost-of-living increases in and after 1986 by P.L. 99-509 (signed Oct. 21, 1986). |
| 1972a................ | Maximum amount of taxable and creditable earnings | The 1972a Act (as modified by the 1973a and 1973b Act) mandated a determination in 1974, and in every subsequent year in which a cost-of-living benefit increase is established, as to whether or not an adjustment is required in the maximum amount of annual earnings that will be taxed and credited toward benefits. |
|  |  | The determination in the years after 1975 is made by multiplying the "maximum" in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the maximum was enacted. (See column 2 in table 2.A8 for annual amounts of the average wage after 1950.) The resulting product, rounded to the nearest multiple of $\$ 300$, is the new maximum amount of taxable and creditable earnings, effective with respect to remuneration paid after the year of determination and with respect to taxable years beginning after that year. In no case, however, is the maximum reduced to an amount below the maximum in the year of determination. |
| $1976 . . . . . . . . . . . .$. |  | In the 1974 and 1975 determinations the quotient was the average wage for the year of determination, estimated from data for the first calendar quarter, divided by the corresponding amount for the year before the year of determination. Public Law 94-202 (signed Jan. 2, 1976) revised the adjustment method by increasing by a year the lag in average wages used in the computation. Thus, for example, the 1976 determination was based on the percentage increase in the average wage from 1974 to 1975. |
| 1977 .................. |  | Statutory in lieu of automatic increases in the maximum instituted for the years 1979, 1980, and 1981. Also, for purposes of establishing a "year of coverage" used in the computation of the special minimum PIA, annual maximum taxable and creditable earnings after 1978 are the amounts that would have been determined under the automatic adjustment provisions if the statutory increases in the maximum under the 1977 Act had not been enacted (see table 2.A12). |

Table 2.A18.-Automatic adjustment provisions -Continued

| Act | Adjustment of- | Provision |
| :---: | :---: | :---: |
| 1989 .................. |  | Automatic increases in the maximum for 1990, 1991, and 1992 determined under a transitional rule, specified by the Omnibus Budget Reconciliation Act of 1989, for computing "deemed" average annual wage for 1988, 1989, and 1990. The purpose of the legislation was to include contributions to certain "deferred compensation" plans, most importantly sections $401(\mathrm{k})$ pension plans, in the average annual average wage. |
| 1994a................ |  | The determination for years after 1994 is made by multiplying $\$ 60,600$, the "maximum" for 1994, by the following quotient: the national average wage index for the year before the year in which the determination is made, divided by the national average wage index for 1992. (See column 2 in table 2.A8 for annual amounts of the national average wage index.) The resulting product, rounded to the nearest $\$ 300$, is the new maximum amount of taxable and creditable earnings, effective with respect to renumeration paid in (and taxable years beginning in) the year following the year the determination is made. In no case, however, is the new maximum reduced to an amount below the maximum in the year of determination. |
| 1977 .................. | Quarter of coverage | Mandatory annual determination, beginning in 1978, as to whether or not an adjustment is required in the amount of wages and self-employment earnings an individual needs in order to be credited with a quarter of coverage in the succeeding year. The amount required for a quarter of coverage is the product of $\$ 250$ (in effect in 1978) multiplied by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for 1976 (see column 2 in table 2.A8 for average annual wages after 1950). The resulting product, rounded to the nearest multiple of $\$ 10$, is the new amount required for a quarter of coverage. In no case, however, is the new amount reduced below the amount in effect in the year of determination. |
| 1977.................. | Bend points in PIA formula and maximum family benefit formula | New benefit computation method based on average indexed monthly earnings (AIME) after 1950, effective for workers first eligible after 1978. Provision for automatic adjustment of the dollar amounts, or bend points, defining (1) the AIME brackets in the PIA formula (see table 2.A11) and (2) the PIA brackets in the maximum family benefit formula (see table 2.A13). New bend points are established by multiplying the bend points in effect in 1979$\$ 180$ and $\$ 1,085$ for the PIA formula and $\$ 230, \$ 332$, and $\$ 433$ for the maximum family benefit formula-by the following quotient: the national average wage for the second year before the year for which the determination was made, divided by the average wage for 1977 (see column 2 in table 2.A8 for average annual wages after 1950). The resulting products, rounded to the nearest dollar, are the new bend points. |
| 1980. |  | Modified maximum family benefit formula applicable to workers with initial entitlement to disability benefits in or after July 1980 (see table 2.A14). New formula for disabled workers has no bend points subject to automatic adjustment. |
| 1972b. | Earnings test | The 1972b Act (as modified by the 1973a and 1973b Acts) mandated a determination in 1974, and in every subsequent year in which a cost-of-living increase is established, as to whether or not an adjustment in the exempt amount-the amount of earnings permitted without reduction in benefits-is required. |
|  |  | The determination in the years after 1975 is made by multiplying the monthly exempt amount in effect in the year of determination by the following quotient: the national average wage for the year before the year of determination, divided by the average wage for the year before the most recent year in which an automatic determination was made that resulted in an increase or in which an increase in the exempt amount was enacted. (See column 2 in table 2.A8 for annual amounts of the average wage after 1950.) The resulting product, rounded to the nearest multiple of $\$ 10$, is the new monthly exempt amount, effective with respect to remuneration paid after the year of determination and with respect to taxable year beginning after that year. In no case, however, is the new exempt amount reduced below the exempt amount in the year of determination. The new annual exempt amount is determined by multiplying the new monthly amount by 12 . |
| 1976 .................. |  | In the 1974 and 1975 determinations the quotient was the average wage for the year of determination, estimated from data for the first calendar quarter, divided by the corresponding amount for the year before the year of determination. Public Law 94-202 (signed Jan. 2, 1976) revised the adjustment method by increasing by a year the lag in average wages used in the computation. Thus, for example, the 1976 determination was based on the percentage increase in the average wage from 1974 to 1975. |
| 1994a................. |  | The determination for years after 1994 is made by multiplying the monthly exempt amounts in effect for 1994 ( $\$ 930$ for beneficiaries who have, $\$ 670$ for beneficiaries who have not yet, reached "normal retirement age"-see footnote 6 in table 2.A29) by the following quotient: the national average wage index for the year before the year in which the determination is made, divided by the national average wage index for 1992. (See column 2 in table 2.A8 for annual amounts of the national average wage index.) The resulting products, rounded to the nearest $\$ 10$, are the new monthly exempt amounts effective for the year following the year the determination is made. The new annual exempt amounts are determined by multiplying the new monthly amounts by 12. |

Table 2.A18.-Automatic adjustment provisions -Continued

| Act | Adjustment of- | Provision |
| :---: | :---: | :---: |
| 1996. |  | Public Law 104-121, enacted Mar. 29, 1996, suspended the automatic indexing of the exempt amounts through the year 2002 for workers aged 65-69. It legislated "ad hoc" increases in the annual exempt amounts to $\$ 12,500$ in 1996; $\$ 13,500$ in 1997; $\$ 14,500$ in 1998; $\$ 15,500$ in 1999; $\$ 17,000$ in 2000; $\$ 25,000$ in 2001; and $\$ 30,000$ in 2002. Thereafter, the exempt amounts will increase automatically based on the annual increase in the national average wage index as under the 1994 legislation. |

## Computing a Retired-Worker Benefit

This section provides instructions and a worksheet for computing a retired-worker benefit. The worksheet can be used for persons born in 1924 through 1937-that is, those who attained age 62 in 1999 or earlier and were under age 75 at the end of 1999 . The worksheet assumes that the worker had no prior period of entitlement to disability benefits and also did not work after becoming entitled to retired-worker benefits.

The worksheet describes the various steps used in computing a benefit. The steps are based on the following Social Security program goals.

## To provide a benefit based on

 lifetime earnings. Benefits are related to earnings over a period of time that the worker could be expected to have worked in covered employment-from age 22 through age 61. The years of earnings considered are termed computation years. The worker's five lowest earnings years, including years of no earnings at all) are not considered in the computation. They are termed the drop out years.
## To index lifetime earnings.

Earnings used in the computation are not the actual covered earnings, but an amount for each year which reflects earnings increases in average wage levels after the year the earnings were paid. This procedure is termed wage indexing. Currently, earnings are generally indexed to wage !evels in the year the worker turns age 60 . For example, for a person attaining age 62 in 1999, actual earnings in 1984 of $\$ 20,000$ are indexed to $\$ 33,995.51$, based on 1997 wage levels. Earnings after age 60 are included at their actual (nominal) value.

To replace a portion of the indexed earnings. Indexed earnings are averaged over the number of computation years to calculate the Average Indexed Monthly Earnings (AIME). A benefit formula is applied to the AIME to produce the Primary

Insurance Amount (PIA), the amount payable to a worker who retires at age 65 . The benefit formula is weighted to provide a higher replacement of earnings for lower wage workers. The formula for persons age 62 in 1999 is 90 percent of the first $\$ 505$ of AIME; plus 32 percent of the next $\$ 2,538$; plus 15 percent of the AIME over \$3,043.

To permit early retirement. Persons can retire as early as age 62, but the monthly benefit is reduced by 5/9 of 1 percent for each month of entitlement before age 65. The maximum reduction is 20 percent if he or she is entitled to benefits for all 36 months between 62 and 65 .

To provide for price indexing after age 62. Benefits are adjusted annually in December to reflect increases in the Consumer Price Index (CPI-W). The 1998 benefit increase was 1.3 percent. These cost-of-living adjustments are applied to the benefit for each year after the person attained age 62-even if the person was not actually receiving benefits.

## To give credit for earnings

 after age 61. Earnings after age 61 (which are not indexed) can be substituted for earnings in earlier years if they result in a higher benefit. In addition, persons who have benefits offset between age 65 and 69 due to the earnings test provision, may receive increased benefits as a result of the Delayed Retirement Credit (DRC) provision for each month for which a benefit was not received. The monthly benefit is increased by a specified percentage for each month a benefit was offset. For persons attaining age 62 in 1999, the percentage is $13 / 24$ of 1 percent, resulting in an increase of $61 / 2$ percent for each year for which benefits were not received.
## Clarifying the Worksheet Procedure

## Step 1 - Determining the Number of Computation Years

For persons who attain age 62 prior
to 1991 , the number of years used in the benefit computation equals the number of years after 1950 up to the year of attainment of age 62, minus 5 years. For workers who attain age 62 in 1991 or later, the number of computation years is 35 .

## Step 2 - Wage Indexing of Earnings

The following description and examples are provided for persons who wish to compute the index factors and indexed earnings. The indexing year is the second year prior to attainment of age 62. However, beneficiaries born on January 1 are deemed to have attained age 62 in the prior year, and consequently, the applicable indexing year, factors, and bend points are those for that year.

The average wage for the indexing year is divided by the average wage in each prior year to obtain the factor for each prior year. For example, a person attains age 62 in 1999. The indexing year is 1997. The average annual wage for 1997 was $\$ 27,426.00$ The average annual wage for 1975 was $\$ 8,630.92$. The amount, $\$ 27,426.00$ divided by $\$ 8,630.92$, yields a factor of 3.1776450 .

The worker's actual earnings covered under Social Security in that year, up to the maximum earnings creditable, are multiplied by the indexing factor to obtain the indexed earnings. For example, actual covered earnings of $\$ 10,000$ in 1975, multiplied by 3.1776450 , result in indexed earnings of $\$ 31,776.45$; actual earnings of \$14,100 (the maximum creditable) result in indexed earnings of \$44,804.79.

Step 3 - Computing the Average Indexed Monthly Earnings (AIME)

After the earnings in each year have been indexed, they are used in computing Average Indexed Monthly Earnings. The years of highest indexed earnings corresponding to the number of computation years are selected and totaled. This total is then divided by the
number of months in the computation years. The result, rounded to the nearest lower dollar, is Average Indexed Monthly Earnings.

For example, for a person attaining age 62 in 1999, the highest 35 years of indexed earnings are used. If the sum of these earnings equals $\$ 400,000$, the AIME is $\$ 952$ ( $\$ 400,000$ divided by $420=\$ 952.38$, rounded to $\$ 952$ ).

## Step 4 - Computing the Primary Insurance Amount (PIA)

The PIA, the amount from which all Social Security benefits payable on a worker's earnings record are based, is computed by applying a formula to the AIME. The formula consists of brackets in which 3 percentages are applied to amounts of AIME. The dollar amounts defining the brackets are called bend points, and the bend points are different for each calendar year of attainment of age 62. The PIA is rounded to the nearest lower ten cents.

For retired workers who attained age 62 in 1999, the bend points are $\$ 505$ and $\$ 3,043$. Thus the formula is 90 percent of the first $\$ 505$ of AIME; plus 32 percent of next $\$ 2,538$ of AIME; plus 15 percent of AIME above $\$ 3,043$. The following are examples of PIA computations for such workers with different AIME amounts.

[^12]The above calculations are applicable to workers who attain age 62 in 1999. For workers who attained age 62 in prior years, the bend points will be different and the PIA must be increased to reflect cost-of-living adjustments between the year of attainment of age 62 and the year 1999. Worksheet 2 shows cost-of-living increase factors for 1979 through 1999. After the PIA is calculated for the year of attainment of age 62, cost-of-living increases are applied for each year through 1998. The result is the current 1999 PIA.

For example, a worker who attained age 62 in 1996 would receive cost-of-living adjustments for the years 1996-98. The adjustments are cumulative, with each step rounded to the next lower dime. If the age 62 PIA was $\$ 500$, the cost-of-living adjustments would be:

> 1996: $\$ 500$ multiplied by $1.029=\$ 514.50$
> 1997: $\$ 514.50$ multiplied by $1.021=\$ 525.30$
> 1998: $\$ 525.30$ multiplied by $1.013=\$ 532.10$
$\$ 532.10$ would be the PIA effective December 1998.

## Step 5 - Computation of the Monthly Benefit

The full PIA is payable to a worker who retires at age 65. Workers can retire as early as age 62, but the monthly benefit is reduced by $5 / 9$ of 1 percent, or $1 / 180$, for each month of entitlement before age 65 (with a maximum reduction of 20 percent).

The final monthly payment is rounded to the nearest lower dollar. For example, the monthly benefit would be $\$ 433$ for a worker with a PIA of $\$ 500$ who retired at age 63. The PIA would be reduced by 13.33 percent ( $5 / 9$ of 1 percent ( 0.0055555 ) multiplied by 24 months). The resulting reduction, $\$ 66.67$, is subtracted from $\$ 500$ to obtain $\$ 433.33$, which is rounded to $\$ 433$.

|  | tions for computing a retired-worker benefít (only for workers attaining age 62 in years 1986-99) STEP 1.-Determining the Number of Computation Years |  |
| :---: | :---: | :---: |
| 1 | Year of birth. (If your birthday is January 1, enter prior year.) |  |
| 2 | Age "62" has been entered. | 62 |
| 3 | Add lines 1 and 2 to obtain year of attainment of age 62 (vear of eligibility). |  |
| 4 | Year of attainment of age 22. If 1951 or earlier, enter 1951. (If your birthday is January 1, enter prior year.) |  |
| 5 | Subtract line 4 from line 3 (elapsed years) |  |
| 6 | "5" (drop-out years) has been entered. |  |
| 7 | Subtract line 6 from line 5 (computation years-maximum 35). |  |
|  | STEP 2.-Indexing of Earnings (Use Worksheet 1 for steps 2 and 3.) |  |
| 8 | Enter in column 2 your earnings in each year 1951 through 1998. If none, enter "0." |  |
| 9 | Column 3 contains the maximum earnings creditable under Social Security for each year. |  |
| 10 | Enter in column 4 the lower amount from columns 2 or 3 for each year. |  |
| 11 | Enter in column 5 the indexing factors applicable to the year you attained age 62 (line 3) from table 2.A8. |  |
|  | (This table contains the indexing factors for persons attaining age 62 during the period 1986-99.) |  |
| 12 | Multiply column 4 by column 5 and enter results in column 6 in dollars and cents. These are your indexed earnings. |  |
|  | STEP 3.-Computing the Average Indexed Monthly Earnings (AIME) |  |
| 13 | Enter the number of computation years from line 7. |  |
| 14 | Place an " X " in column 7 next to the highest indexed earnings corresponding with the number of computation |  |
|  | years from line 13. |  |
| 15 | Add all individual indexed earnings marked with an "X." |  |
| 16 | Multiply line 13 (computation years) by 12 to obtain the number of months in the computation period. |  |
| 17 | Divide line 15 by line 16. |  |
| 18 | Round the result in line 17 to next lower dollar. This is your average indexed monthly earnings (AIME). |  |
|  | STEP 4.-Computing the Primary Insurance Amount (PIA) (Use Worksheet 2 for step 4.) |  |
| 19 | Enter first bend point from Worksheet 2 based on year of attainment of age 62, or prior year if birthday is January 1. |  |
| 20 | Enter second bend point from Worksheet 2. |  |
| 21 | If your AIME (obtained in line 18) is equal to or less than line 19, complete lines 22-24; If greater than line 19 |  |
|  | but less than or equal to line 20, complete lines 25-30; If greater than line 20, complete lines 31-37. |  |
| 22 | Enter your AIME from line 18. |  |
| 23 | "0.9" has been entered. If you receive a pension based on noncovered employment see table 2.A11. | 0.9 |
| 24 | Multiply line 22 by line 23 and round to next lower dime to obtain your PIA at age 62. Continue with line 38. |  |
| 25 | Enter your AIME from line 18. |  |
| 26 | Multiply line 19 by .9. If you receive a pension based on noncovered employment see table 2.A11. |  |
| 27 | Subtract line 19 from line 25. |  |
| 28 | "0.32" has been entered. | 0.32 |
| 29 | Multiply line 27 by line 28. |  |
| 30 | Add lines 26 and 29 and round to next lower dime to obtain your PIA at age 62. Continue with line 38. |  |
| 31 | Enter your AIME from line 18. |  |
| 32 | Multiply line 19 by 0.9. If you receive a pension based on noncovered employment see table 2.A11. |  |
| 33 | Subtract line 19 from line 20 and multiply by 0.32. |  |
| 34 | Subtract line 20 from line 31. |  |
| 35 | "0.15" has been entered. | 0.15 |
| 36 | Multiply line 34 by line 35. |  |
| 37 | Add lines 32, 33 , and 36 and round to next lower dime to obtain your PIA at age 62. Continue with line 38. |  |
| 38 | If you attained age 62 in 1998, skip to line 44. Otherwise you will need to adjust your PIA to reflect cost-of-living |  |
|  | adjustments (COLAs) from the year you attained age 62 through 1998 by using lines 39-43 and Worksheet 2. |  |
| 39 | Enter year of attainment of age 62 from line 3. |  |
| 40 | Place an " $X$ " corresponding to the year you attained age 62 in column 5, Worksheet 2. |  |
| 41 | Place an "X" in column 5 (Worksheet 2) next to each subsequent year through 1997. |  |
| 42 | Enter your age 62 PIA from either line 24, 30, or 37-here and in shaded box in column 6, Worksheet 2. |  |
| 43 | Beginning with first year marked, multiply your age 62 PIA by the corresponding factor (column 4), round to lower |  |
|  | dime, and enter in column 6. The resulting PIA is then multiplied by the next factor and is again rounded to lower |  |
|  | dime Continue this process through 1998 . Fnter this last figure, which is your current PIA |  |
|  | STEP 5.-Computing the Monthly Benefit |  |
| 44 | Enter your current PIA from either line 24, 30, 37, or 43. If you retired at age 65, |  |
|  | round to next lower dollar to obtain your monthly benefit. Otherwise, continue with lines 44-49. |  |
| 45 | Number of months entitled before age 65. |  |
| 46 | "0.0055555" (the decimal equivalent of 5/9ths of 1 percent-the monthly reduction factor) has been entered. | 0.0055555 |
| 47 | Multiply line 45 by line 46 to obtain the total percentage reduction. |  |
| 48 | Multiply line 44 by line 47 to obtain the amount of benefit reduction |  |
| 49 | Subtract line 48 from line 44 and round to next lower dollar to obtain your monthly benefit. |  |

## Benefit Types and Levels

Benefits payable to workers who retire at the normal retirement agecurrently age 65-and to disabled workers are equal to 100 percent of the primary insurance amount (PIA) (subject, as are all monthly benefits, to any applicable deductions as well as to the rounding provisions). The normal retirement age is scheduled to rise gradually from 65 to 67 , with the first increase affecting workers who reach age 62 in the year 2000, as shown in table 2.A20.

Retired workers are eligible to receive benefits at a permanently reduced rate beginning at age 62. The extent of reduction depends on the number of benefit payments received for months before the normal retirement age. The annual rate of reduction amounts to 6-2/3 percent for each of the first 3 years, and eventually, 5 percent for each of the next 2 years the worker receives benefits before the normal retirement agesee table 2.A20. Thus workers receiving benefits at age 62 currently are eligible to receive benefits equal to 80 percent of the PIA. This rate will decline to 75 and 70 percent, respectively, as the normal retirement age increases, in stages, first to age 66, and later to age 67. Disabled workers may receive reduced benefits if they previously received a reduced retirement benefit.

Workers who postpone their retiremient beyond the normal retirement age have their benefits increased through the delayed retirement credit for each month benefits are foregone due to earnings above the exempt amount under the earnings test. The annual rate of increase under the delayed retirement credit is 6-1/2 percent for workers who reach age 62 in 1999 or 2000 . The size of the credit will increase to 7 percent in 2001 and eventually rise to 8 percent for workers reaching age 62 in 2005 or latersee table 2.A20.

Spouses of retired or disabled workers are eligible for monthly benefits at age 62. Their benefits are
equal to 50 percent of the worker's PIA for first entitlement at the normal retirement age but are permanently reduced if payments begin earlier. The annual rate of reduction is $8-1 / 3$ percent for the first 3 years, and eventually, 5 percent for the next 2 years the spouse receives benefits before reaching the normal retirement age—see table 2.A21. Children of retired or disabled workers are also eligible to receive monthly benefits equal to 50 percent of the worker's PIA, as are spouses under age 65 who are caring for at least one child under age 16 or disabled child aged 16 or older of the worker. Monthly benefits payable to the spouse and children of a retired or disabled worker are reduced so that total benefits do not exceed the maximum family benefit amount payable on the worker's account. Benefits for a divorced spouse, however, are disregarded for purposes of the maximum family benefit provision.

Widows and widowers of fully insured workers are first eligible for monthly benefits at age 60 or, if disabled, at age 50-see table 2.A22. The benefit amount payable to widows and widowers first entitled to benefits at age 60 or before is equal to 71.5 percent of the worker's PIA, plus any delayed retirement credit the deceased worker would be receiving. The proportion of the PIA payable rises in even monthly increments from 71.5 percent at age 60 to 100 percent at the normal retirement age. For widows and widowers first entitled to benefits at age 62 or later, the benefit amount under the above formula is limited, if the worker had received benefits before normal retirement age, to the greater of the amount the worker would be receiving if still living or 82.5 percent of the PIA.

Children of deceased workers are eligible to receive monthly benefits equal to 75 percent of the worker's PIA, as are mothers and fathers under age 65 who are caring for at least one chid under age 16 or disabled child aged 18 or older of the worker. A
dependent parent aged 62 or older is eligible for monthly benefits equal to 82.5 percent, and each of two dependent parents, for benefits equal to 75 percent of the deceased worker's PIA. Monthly benefits payable to survivors are reduced to conform to the family maximum benefit payable on the deceased worker's account. Benefits for a surviving divorced spouse, however, are disregarded for purposes of the family maximum benefit provision.

Tables 2.A23 and 2.A24 show the history of legislation relating to special monthly benefits payable to certain persons born before January 2, 1900. Table 2.A25 summarizes the history of certain OASDI benefits other than monthly benefit payments.

Table 2.A26 presents illustrative monthly benefit amounts for selected beneficiary families based on hypothetical earnings histories representing five different earnings levels. Table 2.A27 shows minimum and maximum monthly benefits payable to retired workers retiring at age 62 in various years beginning with 1957, the first full year benefits became available at age 62. Table 2.A28 shows minimum and maximum monthly benefits payable to retired workers retiring at age 65 in various years beginning with 1940.

Table 2.A20.—Monthly benefits for retired and disabled workers

Table 2.A21.-Monthly benefits for spouses and children of retired and disabled workers

| Act | Type of benefit | Age | Percent of PIA | Condition or qualification |
| :---: | :---: | :---: | :---: | :---: |
| 1939 ... | Wife | $\begin{aligned} & 65 \text { or older } \\ & 62-64 \end{aligned}$ | 50 | Fully insured. |
| 1956.... |  |  |  | Reduced 25/36 of $1 \%$ for each month under age 65. |
| 1967.............. |  |  |  | Maximum \$105. |
| 1969.............. |  |  |  | Maximum eliminated. |
| 1977............. |  |  |  | Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982. |
| 1983.............. |  | $\cdots$ |  | Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983. |
|  |  | 65 and 2 months-67 |  | Beginning in year 2000, the age at which $50 \%$ of PIA is payable will be gradually increased (see table 2.A20). |
|  |  | 62-66 |  | Reduced $25 / 36$ of $1 \%$ for each of the first 36 months under the age at which $50 \%$ of PIA is payable, plus $5 / 12$ of $1 \%$ for each of up to 24 earlier months of benefit receipt. |
| 1984..... | Divorced wife |  |  | Noncovered pension offset limited to two-thirds of such pension. |
| 1965............. |  | 65 or older | 50 | Fully insured. Dependent. Married 20 years. Not counted toward family maximum. |
|  |  | 62-64 |  | Reduced 25/36 of 1\% for each month under age 65. |
| 1967...... |  | $\ldots$ | M | Maximum \$105. |
| 1969............. |  |  |  | Maximum eliminated. |
| 1972b............ |  | $\cdots$ |  | Dependency requirement eliminated.Married 10 years. |
| 1977............. |  |  |  |  |
|  |  | ... | ... Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982 and married 20 years. |  |
| 1983 .............. |  | $\ldots$ | ... Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983. |  |
|  |  | $\ldots$ | ... Can be independently entitled to benefits if divorced for 2 years or more (after marriage of 10 or more years) and worker could be entitled to benefits if he applied. Effective with benefits for months after December 1984. |  |
|  |  | 65 and 2 months-67 | ... Beginning in year 2000, the age at which $50 \%$ of PIA is payable will be gradually increased (see table 2.A20). |  |
|  |  | 62-66 | ... Reduced $25 / 36$ of $1 \%$ for each of the first 36 months under the age at which $50 \%$ of PIA is payable, plus $5 / 12$ of $1 \%$ for each of up to 24 earlier months of benefit receipt. |  |
| 1984.............. | Wife (mother) | $\ldots$ | ... Noncovered pension offset limited to two-thirds of such pension. |  |
| 1950.............. |  | Under 65 | 50 | Fully insured. Caring for eligible child. |
| 1965.............. |  | ... | ... Eligible child excludes student aged 18-21. |  |
| 1967.............. |  | $\ldots$ | ... Maximum $\$ 105$. |  |
| 1969............. |  |  | ... | Maximum eliminated. |
| 1977............. |  | $\ldots$ | ... Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982. |  |
| 1981a............ |  | ... | ... Eligible child excludes nondisabled child aged 16-17. <br> ... Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983. |  |
| 1983.............. |  | $\ldots$ |  |  |  |
| 1984............. | Child | Under 18 |  | Noncovered pension offset limited to two-thirds of such pension. |
| 1939............. |  |  |  |  |
| 1965............. |  | $18-21$ | ... Full-time student. <br> ... Benefits extended to end of quarter or semester in which 22nd birthday occurs while undergraduate student. |  |
| 1972b............ |  |  |  |  |  |
|  |  |  | ... Includes grandchild under certain circumstances. <br> . . . Student category eliminated (to be phased out gradually for those entitled before May 1982), except for elementary or secondary school students under age 19. |  |
| 1981a............ |  |  |  |  |  |

[^13]Table 2.A21.-Monthly benefits for spouses and children of retired and disabled workers -Continued

| Act | Type of benefit | Age | Percent of PIA | Condition or qualification |

Table 2.A22.-Monthly benefits for survivors of insured workers - Continued

| Act | Type of benefit | Age | Percent of PIA | Condition or qualification |
| :---: | :---: | :---: | :---: | :---: |
| 1939..... | Parent | 65 or older | 50 | ly insured. Dependent. No surviving widow or child under age 18 |
| 1946..... |  |  |  | No surviving eligible widow or child. |
| 1950..... |  |  | 75 |  |
| 1956..... |  | 62-64 | ... | Women |
| 1958..... |  |  |  | No-other-survivor requirement eliminated. |
| 1961..... |  | 62 or older | $821 / 2$ | 75\% each if two parents. |
| 1950.... | Widower | 65 or older | 75 | Fully and currently insured. Dependent. |
| 1961..... |  | 62 or older | $821 / 2$ |  |
| 1967..... |  |  | ... | Currently insured requirement eliminated. |
| 1972b .. |  | 65 or older | 100 | Limited, if wife retired before age 65 , to amount wife would be receiving if still living, but not less than $821 / 2 \%$ of PIA. |
|  |  | 60-64 |  | Reduced 19/40 of $1 \%$ for each month under age 65. In addition, for a widower aged 62-64 whose wife retired before age 65 , limited to amount she would be receiving if still living, but not less than $821 / 2 \%$ of PIA. |
| 1977..... |  |  |  | Dependency requirement eliminated. |
|  |  |  |  | Increased by any delayed retirement increment wife would be receiving. |
|  |  |  |  | Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). Reduction does not apply if eligible for such pension before December 1982, dependent, and not remarried before age 60 . |
| 1983..... |  |  |  | Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983. |
|  |  | 65 and 2 months-67 |  | Beginning in year 2000, the age at which 100\% of PIA is payable will be increased gradually (see Widow age). |
|  |  | 60-66 |  | The percent of reduction for each month depends on the age at which $100 \%$ of PIA is payable. The percentage is adjusted so that the total reduction, in equal monthly steps, is always $281 / 2 \%$ at age 60. |
| 1984..... |  |  |  | Noncovered pension offset limited to two-thirds of such pension. |
| 1967..... | Disabled widow | 50-61 | $821 / 2$ | Fully insured. Dependent. Reduced 5/9 of 1\% per month between ages $60-62$, plus $43 / 198$ of $1 \%$ for each month under age 60 . |
| 1972b .. |  | 50-59 | 100 | Reduced $281 / 2 \%$, plus $43 / 240$ of $1 \%$ for each month under age 60. Disability requirement eliminated for ages 60-61. <br> Dependency requirement eliminated. |
| 1977..... |  |  |  | Increased by any delayed retirement increment wife would be receiving. |
|  |  |  |  | Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offiset). Reduction does not apply if eligible for such pension before December 1982, dependent, and not remarried before age 60. |
| 1983..... |  | $\cdots$$\cdots$ | $\cdots$ | Noncovered pension offset not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only two-thirds of such pension if first eligible for it after June 1983. |
|  |  |  |  | Additional reduction for each month under age 60 eliminated. |
| 1984..... |  |  |  | Noncovered pension offset limited to two-thirds of such pension. |
| $1980^{2} .$. | Surviving divorced husband | 65 or older | 100 | Fully insured. Married 10 years. Increased by any delayed retirement credit former wife would be receiving. Limited, if former wife retired before age 65 , to amount she would be receiving if still living, but not less than $821 / 2 \%$ of PIA. Not counted toward family maximum. Reduced by full amount of pension payable based on own earnings in noncovered governmental employment (noncovered pension offset). |
|  |  | 60-64 | $\cdots$ | Reduced 19/40 of $1 \%$ for each month under age 65. In addition, for a widower aged 62-64 whose wife retired before age 65 , limited to amount she would be receiving if still living, but not less than $821 / 2 \%$ of PIA. |
| 1983..... |  | $\cdots$ |  | Noncovered pension offset provision not applicable if first eligible for such pension before July 1983 and dependent. Reduced by only twothirds of such pension if first eligible for it after June 1983. |
|  |  | 65 and 2 months-67 |  | Beginning in year 2000, the age at which $50 \%$ of PIA is payable will be gradually increased (see Retired-Worker age). |
|  |  | 62-66 |  | Reduced $24 / 36$ of $1 \%$ for each of the first 36 months under the age at which $50 \%$ of PIA is payable, plus $5 / 12$ of $1 \%$ for each of up to 24 earlier months of benefit receipt. |
| 1984..... |  | $\ldots$ |  | Noncovered pension offset limited to two-thirds of such pension. |

## Effect of Current Earnings and Taxation of Benefits

Beneficiaries under age 70 with earnings may have some or all benefits withheld depending on the amount of their earnings for the year. Family members also have benefits withheld if the worker on whose account they are receiving benefits has earnings above an annual exempt amount. However, deductions based on the worker's earnings are not made from the benefits of a divorced spouse who has been divorced from the worker for at least 2 years. The 2 -year requirement is waived if the worker was entitled to benefits before the divorce.

The earnings test has different rules for beneficiaries aged 65-69 and under age 65. Public Law 104-121, enacted March 29, 1996, substantially increased the exempt amounts for workers aged 65-69 for the period 1996-2002. In 1996, beneficiaries aged 65-69 received \$1 less in total annual benefits for each $\$ 3$ of earnings in excess of the annual exempt amount of $\$ 12,500$. The exempt amounts increased to $\$ 13,500$ in 1997; \$14,500 in 1998; $\$ 15,500$ in 1999; $\$ 17,000$ in 2000; $\$ 25,000$ in 2001; and $\$ 30,000$ in 2002. Thereafter, the exempt amounts will increase automatically based on the annual increase in the national average wage index. The exempt amount for workers under age 65 was not increased by the 1996 legislation but will continue to be pegged to increases in the average wage. In 1999, nondisabled beneficiaries under age 65 received $\$ 1$ less in their benefits for each $\$ 2$ of earnings above the exempt amount of $\$ 8,640$.

Earnings in or after the month in which a beneficiary reaches age 70 are disregarded in determining his or her annual earnings. Also, beneficiaries have a grace year in which benefits are payable-regardless of total annual earnings-for any month during which the beneficiary neither performed substantial services in self-employment nor had wage or salary earnings over the monthly exempt amount (see table 2.A29).

Beneficiaries entitled on the basis of their own disability-disabled workers, disabled adult children, and disabled widows and widowers-are not subject to the earnings test. Substantial earnings by disabled beneficiaries, however, may indicate that they are able to do work which constitutes substantial gainful activity (SGA) and are therefore no longer disabled. Although other factors are considered, numerical earnings thresholds are used in a determination of SGA (see table 2.A30).

Up to 85 percent of Social Security benefits may be subject to income taxation depending on the taxpayer's amount of income (under a special definition) and filing status. The applicable definition of income is as follows: Adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus taxexempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population, plus one-half of Social Security and Tier 1 Railroad Retirement benefits.

For married taxpayers filing jointly whose income under this definition is less than $\$ 32,000$, no Social Security benefits will be subject to income tax. If income exceeds $\$ 32,000$ but is less than $\$ 44,000$, the amount of benefits included in gross income is the lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits or one-half of income over $\$ 32,000$. If their income exceeds $\$ 44,000$, the amount of benefits included in gross income is 85 percent of income over $\$ 44,000$ plus the lesser of $\$ 6,000$ or one-half of benefits. However, no more than 85 percent of benefits are subject to income tax. Whether taxes are finally owed, of course, is a separate consideration.

For married taxpayers who are living together but are filing separate returns, some portion of Social Security benefits received are subject to income taxes regardless of total income. (That is, there is no income threshold under which benefits will be fully exempted
from taxes.) The amount of benefits included in gross income is the lesser of 85 percent of Social Security or Tier 1 Railroad Retirement benefits or 85 percent of income, as defined above, above $\$ 0$. For individuals in all other filing categories, the amount of benefits to be included in gross income is determined in a manner analogous to that for married taxpayers filing jointly. The difference lies in the lower amounts of gross income exemptedas detailed in table 2.A31 which shows the history of provisions regarding the income taxation of benefits.

Examples of the amounts of benefits to be included in gross income for taxpayers in the several filing categories with varying amounts of annual income at a given level of Social Security benefits are shown in table 2.A32.

Table 2.A29.-Earnings (retirement) test

See footnotes at end of table.

Table 2.A29.-Earnings (retirement) test -Continued

| Act | Beneficiaries exempt | Earnings subject to test | Amount permitted without reduction in benefits (exempt amount) |  | Reduction in monthly benefits ${ }^{2}$ | Effective year |

|  | $\begin{aligned} & 500 \\ & 500 \\ & 500 \\ & 500 \\ & 500 \\ & 700 \end{aligned}$ | $\begin{aligned} & 300 \\ & 300 \\ & 300 \\ & 300 \\ & 300 \\ & 300 \end{aligned}$ | $\begin{array}{r} (5) \\ 960 \\ 1,000 \\ 1,050 \\ 1,100 \\ 1,100 \end{array}$ |

[^22]beneficiaries would not be considered to demonstrate ability to engage in SGA unless they average more than the amount shown below.
${ }^{4}$ Guidelines are the same as those applicable to nonblind beneficiaries.
${ }^{5}$ Annual amounts were determined by automatic adjustments linked to increases in average wage level. The amounts equal the monthly exempt amounts under the earnings test applicable to beneficiaries who have reached the normal retirement age (see table 2.A29-fourth column, third bank-for the 1983-95 amounts).

Table 2.A31.-Taxation of Social Security benefits

| Act | Definition of income | Individuals or couples with income exceeding- | Benefits included in gross income | Effective for taxable years- |
| :---: | :---: | :---: | :---: | :---: |
|  | Married filing jointly |  |  |  |
| 1983 ........... | Modified adjusted gross income, ${ }^{1}$ plus 50 percent of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ | \$32,000 | Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or one-half of income over \$32,000 | Ending after Dec. 31, 1983 |
| 1993 ........... | Same as above | $\begin{aligned} & 32,000 \\ & \text { but not } 44,000 \\ & 44,000 \end{aligned}$ | Same as above <br> Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or the sum of $\$ 6,000$ plus 85 percent of income over $\$ 44,000$ | Beginning after Dec. 31, 1993 |
|  | Married filing separate return ${ }^{3}$ |  |  |  |
| 1983 ........... | Same as above | 0 | Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or one-half of income | Ending after Dec. 31, 1983 |
| 1993 ........... | Same as above | 0 | Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or 85 percent of income | Beginning after Dec. 31, 1993 |
|  | Individuals in all other filing categories |  |  |  |
| 1983 ........... | Same as above | \$25,000 | Lesser of one-half of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or one-half of income over \$25,000 | Ending after Dec. 31, 1983 |
| 1993 ........... | Same as above | $\begin{aligned} & 25,000 \\ & \text { but not } 34,000 \end{aligned}$ | Same as above | Beginning after Dec. 31, 1993 |
|  |  | 34,000 | Lesser of 85 percent of Social Security and Tier 1 Railroad Retirement benefits ${ }^{2}$ or 85 percent of income over \$34,000 |  |

[^23]reduction in Social Secunity or Tier 1 Railroad Retirement disability benefits
${ }^{3}$ Includes only married taxpayers filing separately who lived with their spouses at any time duning the tax year; married individuals filing separately who did not live with their spouse are treated the same as unmarried individuals.

Table 2.A32.-Taxation of Social Security benefits: Examples

| Modified adjusted gross income ${ }^{1}$ | Amount of benefits ${ }^{2}$ | One-half of benefits ${ }^{2}$ | Income to be compared with base amount | Relevant base amount ${ }^{3}$ | Income in excess of base amount | One-half of excess | 85 percent of excess income | Lower of one-half of benefits, or one-half of income between upper and lower base amounts | 85 percent of benefits | Taxable benefits included in gross income |  |

|  | 8,000 | 4,000 | 44,000 | 34,000 | 10,000 | $\ldots$ | 8,500 | 4,000 | 6,800 |  | 6,800 |

[^24]If gross income exceeds $\$ 44,000$, up to 85 percent of Social Secunty benefits will be taxable income. Similar lower and upper level thresholds or "base amounts" for single individuals are $\$ 25,000$ and $\$ 34,000$. There is no similar threshold or base amount for marred individuals who live together but file separate retums (for example, up to 85 percent of Social Security benefits in those cases may be considered taxable income).
${ }^{4}$ Includes only married taxpayers filing separately who lived with their spouse at any time during the tax year; married individuals filing separately who did not live with their spouse are treated the same as unmarried individuals.

Supplemental Security Income

The Supplemental Security Income (SSI) program provides income support to persons aged 65 or older, blind or disabled adults, and blind or disabled children. Eligibility requirements and federal payment standards are nationally uniform. The 1999 federal SSI benefit rate for an individual living in his or her own household and with no other countable income is $\$ 500$ monthly; for a couple (with both husband and wife eligible), the SSI benefit rate is $\$ 751$ monthly.

## Program Summary

Payments under SSI began in January 1974. It replaced the former federal-state adult assistance programs in the 50 states and the District of Columbia. Residents of the Northern Mariana Islands became eligible for SSI in January 1998.

Under the SSI program, each eligible person is provided a monthly cash payment based on a statutory federal benefit rate. Since 1975, these rates have been increased by the same percentage as the cost-ofliving increases in OASDI benefits. If an individual or couple is living in another person's household and is receiving both food and shelter from the person in whose household they are living, the federal benefit rate is reduced by one-third. This is done instead of determining the actual dollar value of the in-kind support and maintenance.

For institutionalized persons, the eligibility requirements and payment standards depend on the type of institution. With some exceptions, inmates of public institutions are ineligible for SSI. For persons institutionalized for a complete calendar month, a maximum federal SSI payment of $\$ 30$ per month applies where (1) the institution receives a substantial part of the cost of the person's care from the Medicaid program, or (2) recipients' under age 18 whose private health insurance is making payments to the institution. Other eligible persons in institutions may receive up to the full federal benefit rate.

The federal payment is based on the individual's countable income. The first $\$ 20$ monthly in OASDI benefits or other earned or unearned income is
not counted. Also excluded is $\$ 65$ monthly of earnings plus one-half of any earnings above $\$ 65$. For example, a person living in his or her own household, whose sole income is a $\$ 200$ monthly OASDI benefit, would receive $\$ 320$ in federal SSI payments:

$$
\begin{aligned}
& \$ 500-(\$ 200-\$ 20)= \\
& (\$ 500-\$ 180)=\$ 320 .
\end{aligned}
$$

A person whose income consists of $\$ 500$ in gross monthly earnings would receive $\$ 292.50$ in federal SSI payments:

$$
\begin{aligned}
& \$ 500-((\$ 500-\$ 85) / 2= \\
& (\$ 500-\$ 207.50)=\$ 292.50 .
\end{aligned}
$$

Individuals generally are not eligible for SSI if they have resources in excess of $\$ 2,000$ (or $\$ 3,000$ for a couple). Certain resources are excluded, most commonly a home, an automobile used for essential transportation, and household goods and personal effects of reasonable value, burial plots and spaces, and life.

States have the option to supplement the federal SSI payment for all or selected categories of persons, regardless of previous state program eligibility. Initially, states were required to supplement to assure that recipients did not suffer a loss in total income from the former state programs. Most of these "converted" cases have now left the rolls.

## History of Provisions

Act*

## Basic Eligibility Requirements

1972 An individual may qualify for payments on the basis of age, blindness, or disability.
Aged: Any person aged 65 or older.
Blind: Any person with $20 / 200$ or less vision in the better eye with the use of correcting lenses, or with tunnel vision of 20 degrees or less. An individual transferred from a state Aid to the Blind (AB) program is eligible if he or she received such state aid in December 1973 and continues to meet the October 1972 state definition of blindness.

Disabled: Any person unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment expected to result in death or that has lasted or can be expected to last for a continuous period of at least 12 months.

1980 A disabled recipient who loses federal SSI eligibility because of earnings at the substantial gainful activity level may continue to receive a special benefit under section 1619 and retain eligibility for Medicaid. This special benefit status may continue as long as the recipient has the disabling impairment and meets all nondisability SSI eligibility criteria. States have the option of supplementing this special benefit.

1986 The special benefit and Medicaid provisions of the 1980 amendments were made permanent. The provisions were amended, effective July 1, 1987, with modifications to allow free movement between regular SSI disability benefits and either the special cash benefit or continuation of Medicaid eligibility under section 1619.

For children under age 18, the definition of disability (1) eliminated the "comparable severity" standard, and replaced it with a requirement for "marked and severe functional limitations;" (2) eliminated references to "maladaptive behavior" in the Listing of Impairments for children; and (3) discontinued the use of individual functional assessments for children.

Beginning August 22, 1996, an application is effective for the first day of the month following the month of filing, or the month when all eligibility criteria are met.

SSI is prohibited for persons fleeing prosecution, for fugitive felons, for those violating state or federal conditions of probation or parole, and for 10 years for those convicted of fraudulently claiming residence to obtain benefits simultaneously in two or more states.

## Citizenship and Residence

1972 The individual must reside within 1 of the 50 states or the District of Columbia and be a citizen or an alien lawfully admitted for permanent residence or permanently residing in the United States under color of law. Persons living outside the United States for an entire calendar month lose their eligibility for that month. In 1978, eligibility was extended to the Northern Mariana Islands.

1980 The income and resources of the immigration sponsors of noncitizens applying for SSI are considered in determining eligibility for and the amount of payment. After allowances for the needs of the sponsor and his or her family, the remainder is deemed available for the support of the noncitizen applicant for a 3-year period after admission to the United States for permanent residence. Does not apply to those who become blind or disabled after admission, to refugees, or to persons granted political asylum.

[^25]1996
Prohibited SSI eligibility for all noncitizens, with exceptions for certain classes of refugees and asylees, active duty military and veterans and their spouses and minor children, and lawful permanent residents who have earned or can be credited with 40 quarters of coverage for Social Security purposes. Provided a definition of which noncitizens are "qualified" for SSI.

1997 Revised requirements of the 1996 law to continue eligibility to some classes of noncitizens, and to redefine which noncitizens are "qualified" for SSI. Persons who are not "qualified" will lose eligibility as of September 30, 1998.

1998 Permanently extends the eligibility of noncitizens otherwise "not qualified" under the 1996 and 1997 laws, but who were receiving SSI on August 22, 1996.

## Other Benefits

1974 SSI applicants and recipients are required to file for any other type of benefit for which they may be eligible.

1980 SSI applicants and recipients are not required to elect to receive Veterans Administration pensions under the Veterans and Survivors' Pension Improvement Act of 1978.

## Drug Addiction and Alcoholism

1972 Any disabled individual who has been medically determined to be an alcoholic or drug addict must accept appropriate treatment, if available, in an approved facility and demonstrate compliance with conditions and requirements for treatment. SSI payments must be made to a representative payee.

1996 An individual is not considered disabled if drug addiction or alcoholism is a factor material to a finding of disability.

## Institutionalization

1972 An individual who is an inmate of a public institution is ineligible for SSI payments unless the institution is a facility approved for Medicaid payments and is receiving such payments on behalf of the person. Under regulations, the Medicaid payment must represent more than 50 percent of the cost of services provided by the facility to the individual.

1976 An inmate of a publicly operated community residence serving no more than 16 persons may, if otherwise eligible, receive SSI.

1983 Payments may be made to persons who are residents of public emergency shelters for the homeless for a period of up to 3 months in any 12-month period.

1986 Effective July 1, 1987, up to 2 full months of full-rate benefits can be made to recipients of special SSI payments under section 1619 if they reside in certain public medical, psychiatric, or Medicaid facilities, or in private Medicaid facilities.

1987 Effective January 1, 1988, payments may be made to persons who are residents of public emergency shelters for the homeless, for up to 6 months in a 9 -month period.

Effective July 1, 1988, continued payment for up to 3 months is permitted, at the rate that was applicable in the month prior to the first full month of institutionalization, for individuals whose expected institutional stay on admission is not likely to exceed 3 months and for whom the receipt of benefits is necessary to maintain living arrangements to which they may return.

1996 Effective December 1996, institutionalized children under age 18 whose private health insurance is making payments to the institution may receive no more than $\$ 30$ per month in Federal SSI.

## Vocational Rehabilitation and Treatment

1972 Blind and disabled individuals under age 65 must be referred to the state agency providing services under the Vocational Rehabilitation Act and must accept the services offered. States are reimbursed for the cost of services.

1976 Blind and disabled children under age 16 must be referred to a designated state agency. States are reimbursed for the cost of services. Of funds provided for these services, at least 90 percent must be used for children under age 6 or for those who have never attended public schools.

1980 Disabled SSI recipients who are determined to be medically recovered may continue to receive payments while enrolled in approved vocational rehabilitation programs, if the Commissioner of Social Security determines that continuation in the program will increase the probability of their leaving the rolls permanently.

1987 Extended to blind recipients the provision for continuation of payments to those who have medically recovered while enrolled in an approved vocational rehabilitation program.

1990 Reimbursement authorized for the cost of vocational rehabilitation services provided in months in which the individual was not receiving federal SSI payments, in certain circumstances.

## Deeming of Income and Resources

1972 Deeming occurs when the income and resources of certain family members living in the same household with the SSI recipient are considered in determining the amount of the SSI payment. These family members are the ineligible spouse of an adult recipient and the ineligible parents of a child recipient under age 21.

After deduction of personal allocations for the spouse (or parents) and for ineligible children in the home, and after application of income exclusions, any remaining income of the spouse (or parents) is added to the income of the eligible person.

Children aged 18 or older are not subject to parental deeming.
Sponsor's income deemed to an alien for 3 years. (See also Citizenship and Residence.)

1989 Disabled children receiving home care services under state Medicaid programs may receive the $\$ 30$ monthly allowance that would be payable if the recipient were institutionalized, if they are ineligible for SSI because of deeming of parental income, and received SSI benefits limited to $\$ 30$ while in a medical treatment facility.

1993 Sponsor-to-alien deeming period extended from 3 years to 5 years, effective January 1, 1994 through, September 30, 1996.

Continues deeming from an ineligible spouse or parent who is absent from the household due to active military service.

1996 Deeming of income and resources from an immigration sponsor to a noncitizen continues until citizenship, with exceptions for those who earn, or can be credited with 40 quarters of coverage for Social Security purposes. Effective for those whose sponsor signs a revised legally enforceable affidavit of support.

1980 Offset (by reduction of retroactive Social Security benefits) to prevent persons whose initial OASDI payment is retroactive from receiving more in total benefits for the same period than if they were paid the benefits when regularly due.

1984 Offset provision expanded to allow for reduction of retroactive SSI benefits and to apply in cases of OASDI benefit reinstatement.

## Rounding of Payment Amounts

1974 SSI payments are calculated and paid to the penny.

1982 Cost-of-living adjustments in the federal SSI benefit and income eligibility levels are to be rounded to the next lower whole dollar, after the adjustment is calculated.

## Exclusions From Income

1972 The first $\$ 20$ of earned or unearned income per month for an individual or couple; the next $\$ 65$ and one-half the remainder of quarterly earned income. Unearned income includes Social Security benefits, other government or private pensions, veterans' benefits, and workers' compensation.

Any amount of tax rebate issued to an individual by any public agency that is based on either real property or food purchase taxes.

Grants, scholarships, and fellowships used to pay tuition and fees at an educational institution.

Income required for achieving an approved self-support plan for blind and disabled persons.

Work expenses of blind persons.
For blind persons transferred from state programs to SSI, income exclusions equal to the maximum amount permitted as of October 1972 under the state programs.

Irregularly or infrequently received income totaling \$60 or less of unearned income and $\$ 30$ of earned income in a calendar quarter.

Payment for foster care of ineligible child residing in recipient's home through placement by a public or private nonprofit child care agency.

One-third of any payment received from an absent parent for the support of a child eligible for SSI.

Certain earnings of a blind or disabled child under age 22 regularly attending an educational institution.

State or local government cash payments based on need and designed to supplement SSI payments.

1976 Any assistance based on need (including vendor payments) made to or on behalf of SSI recipients, which is paid and wholly funded by state or local governments.

The value of assistance provided under certain federal housing programs.
Persons forced to leave their homes due to a major disaster declared under the Disaster Act of 1974 will not have their payments reduced for the support and maintenance received in any residence, for up to 30 days. In 1980, this exclusion was made permanent.

1977 Food stamps, federally donated food, and the value of free or reduced price food for women and children under the Child Nutrition Act and National School Lunch Act.

1980 Remuneration received in sheltered workshops and work activity centers are considered earned income and qualify for earned income disregards.

Impairment-related work expenses paid by the individual (including cost for attendant care, medical equipment, drugs, and services necessary to control an impairment) are deducted from earnings when determining if an individual is engaging in substantial gainful activity. However, initial eligibility must be determined without this exclusions.

Earned income tax credit treated as earned income (temporarily excluded from 1975 through 1980).

1981 Irregular or infrequent income is excluded up to $\$ 20$ or less of unearned income and $\$ 10$ of earned income in a month.

1982 From December 18, 1982, to September 30, 1983, certain home energy assistance payments are excluded if a state certified that they are based on need.

1983 Support or maintenance assistance (including home energy assistance) provided in kind by a nonprofit organization or in cash or in kind by certain providers of home energy is disregarded if the state determines that the assistance is based on need. In 1987, these provisions were made permanent.

1987 Excluded death payments (for example, proceeds from life insurance) from SSI income determinations to the extent they were spent on last illness and burial.

The 1982 resource exclusion for burial funds extended to allow the interest on the funds to be excluded from income if retained in the fund.

1988 Excluded Japanese-American and Aleutian restitution payments.
1989 Interest on agreements representing the purchase of an excluded burial space.
Payments from the Agent Orange Settlement.
Value of a ticket for domestic travel received as a gift and not cashed.
1990 Earned income tax credit (including the child health insurance portion).
Payments received from a state-administered fund established to aid victims of crime.

Impairment-related work expenses excluded from income in determining initial eligibility for benefits.

Redefined as earned income any royalties earned, honoraria received.
1993 Hostile fire pay to members of the uniformed services.
Exclusion of payments received as state or local government relocation assistance made permanent.

1998 Matching funds provided by state or local government, or nonprofit organization under the Individual Development Account provisions of P.L. 105-285.

In-kind gifts not converted to cash.
$\$ 2,000$ annually of gifts to receipients under 18 from organizations such as Make-a-Wish.

Payments made under the Ricky Ray Hemophilia Relief Fund Act.

## Limits and Exclusions From Resources

1972 Countable resources limited to $\$ 1,500$ or less for an individual and to $\$ 2,250$ or less for a couple.

A home of reasonable value established by regulation as not exceeding a fair-market value of $\$ 25,000$ ( $\$ 35,000$ in Alaska and Hawaii).

Personal effects and household goods of reasonable value established by regulation as not exceeding a total market value of $\$ 1,500$.

An automobile of reasonable value established by regulation as not exceeding a market value of $\$ 1,200$. An automobile, may be excluded, regardless of value, if the individual's household uses it for employment or medical treatment, or if it is modified to be operated by or for transportation of a handicapped person.

Life insurance with face value of $\$ 1,500$ or less.
Assets of a blind or disabled individual that are necessary to an approved plan of self-support.

Tools and other property essential to self-support, within reasonable limits.
Shares of nonnegotiable stock in native Alaskan regional or village corporations.
1976 The recipient's home, regardless of value, is excluded from consideration in determining resources.

1979 Reasonable value for an automobile increased by regulation to $\$ 4,500$ of currentmarket value; personal goods and household effects increased to $\$ 2,000$ of equity value.

1980 Assets transferred for less than fair-market value for the purpose of establishing eligibility for benefits under the Social Security Act are counted as resources for 24 months after transfer.

1982 The value, within prescribed limits, of a burial space for the recipient, spouse, and immediate family is excluded. In addition, \$1,500 each (less the value of already excluded life insurance and any amount in an irrevocable burial trust fund) may be set aside for the burial of the recipient and spouse, if held in separately identifiable burial funds.

1984 The unspent portion of any retroactive title II or title XVI payment is excluded for 6 months following its receipt, and the individual must be given written notice of the time limit on the exclusion.

Limit on countable resources raised incrementally. The respective limits would become $\$ 2,000$ for an individual and $\$ 3,000$ for a couple in 1989 and thereafter.

1985 Regulations permitted exclusion, regardless of value of an automobile needed for essential transportation.

1987 Provides for suspension of the 1980 transfer of assets provision, if the Secretary determines that undue hardship would result.

Allows the exclusion of burial funds, as described above, regardless of whether or not there would otherwise be excess resources.

Removes the transfer-of-assets penalty for transfers made July 1, 1988, or later.
1989 Property essential to self-support (including the tools of a worker and the machinery and livestock of a farmer) that is used in a trade or business or by such individual as an employee.

1990 Earned income tax credit excluded for the month following the month the credit is received.

Payments received from a state-administered fund established to aid victims of crime excluded for a 9-month period. Individual not required to file for such benefits.

1993 Made permanent the 9-month exclusion of payments received as state or local government relocation assistance.

1998 Matching funds provided by state or local government, or nonprofit organization under the Individual Development Account provisions of P.L. 105-285.
In-kind gifts not converted to cash.
$\$ 2,000$ annually of gifts to receipients under 18 from organizations such as Make-a-Wish.

Payments made under the Ricky Ray Hemophilia Relief Fund Act.

## Presumptive Disability Payments

1972 A person applying on the basis of disability who meets all other criteria of eligibility may receive payments for 3 months pending the disability determination.

1976 Presumptive payment provision was extended to persons applying on the basis of blindness.

1990
Extends the period for receipt of payments to 6 months.

## Emergency Advance Payments

1972 An applicant who can be presumed to meet the criteria of eligibility, but has not yet been determined eligible, and who is faced with a financial emergency may receive an immediate cash advance of up to $\$ 100$.

1987 Increases the maximum emergency advance payment amount to the maximum amount of the regular federal SSI monthly benefit rate, plus, if any, the federally administered state supplementary payment.

1996 May be made if applicant has a financial emergency in the month of filing, if other eligibility requirements are met. Advance payments must be repaid within 6 months.

## Interim Assistance

## Reimbursement

1974 SSA may enter into agreements with the states to repay them directly for assistance payments made to an SSI applicant while his or her claim is being adjudicated. The repayment is made from the first check due to the individual. In 1976, the authority to repay was made permament.

## Medicaid Eligibility

1972 States can provide Medicaid coverage to ali recipients of SSI payments. Alternatively, they could limit coverage by applying more restrictive criteria from the state Medicaid plan in effect on January 1, 1972. States can accept SSA determination of eligibility, or make their own determination.

1976
Preserves the Medicaid eligibility of recipients who become ineligible for cash SSI payments due to the cost-of-living increases in Social Security benefits.

1980 Blind and disabled recipients under age 65 who are no longer eligible for either regular or special SSI payments because of their earnings may retain SSI recipient status for Medicaid eligibility purposes if: (1) They continue to have the disabling impairment, (2) they meet all nondisability eligibility criteria except for earned income, (3) they would be seriously inhibited from continuing employment without Medicaid services, and (4) their earnings are insufficient to provide a reasonable equivalent of SSI payments and Medicaid.

1986 Restored Medicaid eligibility for some disabled widow(er)s who became ineligible for SSI due to a change in the Social Security disabled widow(er)s benefits reduction factor.

Medicaid protection for disabled widow(er)s whose title II benefits increased in 1984 because of a change in the actuarial reduction formula.

The SSI recipient status for Medicaid eligibility provision of the 1980 amendments was made permanent.

Effective July 1, 1987, certain expenses that would be lost if SSI eligibility was discontinued may be excluded from earnings when determining sufficiency of earnings to establish SSI recipient status eligibility for Medicaid purposes:

Impairment-related work expenses of disabled persons; work expenses of blind persons; income required for achieving an approved self-support plan; and the value of publicly funded attendant care services.

Effective July 1, 1987, preserves the Medicaid eligibility of recipients who become ineligible for SSI payments because of entitlement to, or an increase in, Social Security disabled adult child benefits on or after the effective date.

Effective July 1, 1987, requires all states to provide Medicaid coverage for recipients in special SSI status (either receiving special SSI payments or continuation of Medicaid eligibility) if they received Medicaid coverage the month before special SSI status.

1987 Preserves the Medicaid eligibility of recipients who become ineligible for SSI payments due to an increase in, or entitlement to, Social Security disabled adult child's benefits.

Effective July 1, 1988, restores or preserves the Medicaid eligibility of persons aged 60 or older who are eligible for Social Security benefits as widows(ers), but not eligible for Medicare, if they become ineligible for SSI payments because of the receipt of retirement or survivors benefits.

1988 Age limit for retention of SSI recipient status for Medicaid eligibility purposes eliminated.

1990 Preserves the Medicaid eligibility of SSI recipients who become ineligible for SSI when they become entitled to Social Security disabled widow(er)s benefits because of the revised definition of disability.

## State Supplementation

1972 States were given the option of providing supplementary payments both to recipients transferred from the state program and to those newly eligible for SSI. States may eitheradminister the payments themselves or have the Social Security Administration make payments on their behalf. When state supplementary payments are federally administered, the SSA makes eligibility and payment determinations for the state and assumes administrative costs.

Requires states to maintain State supplementation payments at the level of December 1976 when the federal SSI payment level is increased and thereby pass through any increases in Federal benefits without reducing State supplements.

1983 Federal pass-through law adjusted by substituting the state supplementary payment levels in effect in March 1983 for those in effect in December 1976 as the levels that States must maintain in complying with the pass-through requirements.

1987 Provided for federal administration of state supplements to residents of medical institutions.

1993 The Omnibus Budget Reconciliation Act (OBRA) of 1993 requires states to pay fees for federal administration of their state supplementation payments. The fees for FY 1999 is $\$ 7.60$ per check.

## Mandatory Minimum State Supplementation

1973 States were required to supplement the federal SSI payment to assure against reduction of income for persons who were transferred from state assistance programs to SSI in 1974. These supplementary payments must equal the difference between (1) the amount of the state assistance payment that the individual received in December 1973 plus other income and (2) his or her federal SSI payment plus other income.

Table 2.B1.-Federal benefit rates

## Health Care

Medicare and Medicaid are the nation's major health and medical insurance programs. Medicare is a federal program for aged and disabled persons who are insured under the Social Security program. Medicaid covers eligible persons with limited income and resources. The Medicaid program is funded jointly by the federal government and the states and is state-administered.

## Medicare

Title XVIII of the Social Security Act, entitled "Health Insurance for the Aged and Disabled," became law on July 30, 1965, and is commonly known as Medicare. As part of the Social Security Amendments of 1965, the Medicare legislation established a health insurance program for aged persons to complement the retirement, survivors, and disability insurance benefits under Title II of the Social Security Act.

When first implemented in 1966, Medicare covered most persons aged 65 or older. The Social Security Amendments of 1972 extended protection to disabled persons, entitled because of their disability to monthly cash benefits under the Social Security or Railroad Retirement programs and to certain individuals with endstage renal (kidney) disease. Effective July 1, 1973, Title XVIII thus became Health Insurance for the Aged and Disabled.

Medicare consists of two primary parts, which are separate but coordinated fee-for-service programs: Hospital Insurance (HI), also known as Part A, and Supplementary Medical Insurance (SMI), also known as Part B Both parts are explained in more detail later. Basically, Part A helps pay for inpatient hospital care, skilled-nursing facility, home health, and hospice care, while Part B helps pay for physician, outpatient, and home health care, and various other medical services. A third part of Medicare, sometimes known as Part C, is the Medicare+Choice program. Medicare+Choice was established by the Balanced Budget Act of 1997 and began providing services on January 1, 1998. All Medicare beneficiaries can receive their Medicare benefits
through the original fee-for-service programs. In addition, most beneficiaries can choose instead to receive their Medicare benefits through a Medicare+Choice plan, which is described in more detail later. Basically, the plan expands options for the delivery of health care under Medicare.

## Hospital Insurance

Individuals who are eligible for Social Security or Railroad Retirement benefits are eligible for premium-free Hospital Insurance (HI) benefits when they reach age 65, whether they have claimed monthly benefits or not. Also, workers and their spouses with a sufficient period of Medicare-only coverage in federal, state, or local government employment are eligible at age 65 .

In addition, HI protection is provided to disabled beneficiaries (but not their dependents) who have been entitled to Social Security or Railroad Retirement disability benefits for at least 24 months (or government employees with Medicare-only coverage who have been disabled for more than 29 months), and to insured workers (and their spouses and children) with end-stage renal disease who require renal dialysis or a kidney transplant. The Social Security Amendments of 1980 (P.L. 96-265) eliminated the requirement that the 24 months be consecutive, effective December 1, 1980, and provided that months from previous periods of disability benefit entitlement may be counted in determining whether the monthly qualifying period requirement is met, subject to certain time limits. The Omnibus Budget Reconciliation Act (OBRA) of 1987 (P.L. 100-203) eliminated the time limits.

Also eligible for HI enrollment, under transitional provisions created
at the program's onset, are persons aged 65 or older with specified amounts of earnings credits less than those required for monthly benefit eligibility. (Not eligible under the transitional provisions are retired federal employees covered by the Federal Employees' Health Benefits Act of 1959 or aliens admitted for permanent residence unless they have 5 consecutive years of residence and the required covered quarters under these provisions.)

The Tax Equity and Fiscal Responsibility Act of 1982 required that federal employees be covered for HI protection, effective January 1983.
Federal workers employed during January 1983 were permitted upon retirement to use federal wage quarters before 1983 to establish entitlement to HI benefits, if needed.

Since July 1973, most persons aged 65 or older and otherwise ineligible for HI have been permitted to enroll voluntarily and pay a monthly premium for HI protection if they are enrolled for SMI. If they have 30 or more quarters of coverage under the Social Security program, the 1998 cost of HI is the reduced amount of $\$ 170$ per month; if not, the cost is $\$ 309$ per month. OBRA 1989 extended the option of voluntary coverage upon payment of the HI premium to disabled individuals for whom monthly cash benefits have ceased due to substantial gainful activity.

Benefits provided.—Under the HI program, beneficiaries may receive the following four kinds of medically necessary care: (1) inpatient hospital care; (2) inpatient care in a skillednursing facility (SNF) following a hospital stay; (3) home health care; and (4) hospice care.

- Inpatient hospital care. Covered hospital care includes all those services ordinarily furnished by a hospital to its patients, such as semiprivate accommodations, meals, operating and recovery rooms, laboratory procedures and X -rays, drugs and biologicals, nursing services
(excluding payments for privateduty nursing), therapy services, and services of interns and residents in training. Benefits include reimbursement for inpatient tuberculosis and psychiatric hospital services-with a lifetime limit of 190 days of care in a psychiatric hospital-and emergency inpatient care in a nonparticipating hospital. Psychiatric care in general hospitals, rather than in free-standing psychiatric hospitals, is not subject to the 190 -day limit and is treated the same as other Medicare inpatient hospital care.

Effective January 1, 1998, once a Medicare beneficiary has paid the inpatient hospital deductible (\$768 in 1999), all remaining costs of covered hospital services for the first 60 days in a benefit period will be paid by Medicare (see table 2.C1). A benefit period starts when a beneficiary first enters a hospital and ends when there has been a break of at least 60 consecutive days since inpatient skilled nursing care was provided. From the 61st through the 90th day in a benefit period, the patient pays a daily coinsurance amount equal to one-fourth the inpatient hospital deductible (\$192 in 1999).

Each HI beneficiary also has a lifetime reserve of 60 additional hospital days that may be used when the covered days within a benefit period have been exhausted. Lifetime reserve days may be used only once and the daily coinsurance amount is onehalf the inpatient hospital deductible (\$384 in 1999).

- Skilled nursing facility care. Following hospitalization of at least 3 consecutive days, if a patient requires subsequent skilled nursing care or skilled rehabilitation services on a daily basis, but not hospital care, such
services are covered in an institution or section of a hospital that qualifies as a skilled-nursing facility. Payment for up to 100 days of care per benefit period is covered with no coinsurance for the first 20 days, and daily coinsurance for days 21 through 100. This daily coinsurance rate is one-eighth of the inpatient hospital deductible (\$96 per day in 1999).
- Home health care (part-time or intermittent skilled-nursing care, physical therapy, or speech therapy provided in the residence of a home-bound beneficiary). As a result of the Balanced Budget Act of 1997 (P.L. 105-33), for individuals enrolled in both the HI and SMI programs, the first 100 visits of post-institutional home health services (that is, home health services associated with a hospital stay of at least 3 consecutive days or with a skillednursing facility stay) are covered by the HI program, while home health services not of a postinstitutional nature, and postinstitutional visits beyond the first 100 are covered by the SMI program.
For individuals enrolled in only the HI program or only the SMI program, the program in which they are enrolled pays for the entire range of home health care services (that is, the first 100 post-institutional visits, postinstitutional visits beyond the first 100, and nonpost-institutional visits). These provisions of the Balanced Budget Act became effective January 1, 1998. Within this framework, home visits are covered if the beneficiary is homebound (but need not be bedridden), and if a physician sets up a home health plan after determining that the individual requires skilled-nursing care on an intermittent basis or is in need of physical or speech therapy.

Other services can include necessary part-time or intermittent home health aide services, occupational therapy, medical social services, and medical supplies. Medicare pays the reasonable cost of all covered home health visits. Durable medical equipment furnished as part of the home health plan is subject to a 20 percent coinsurance (that is, the beneficiary must pay 20 percent of the cost). Home health care has no co-payment and no deductible. However, full-time nursing care, food, blood, and drugs are not provided as home health agency services.

- Hospice care. Added in 1983, services are provided to beneficiaries certified as terminally ill; these services cover two 90day hospice benefit periods, followed by an unlimited number of 60 -day periods. When these services-often provided in the beneficiary's home-are furnished by a Medicare-certified facility, the coverage includes: physician services, nursing care, medical appliances and supplies, drugs for symptom management and pain relief, short-term inpatient care, counseling, therapies, home health aide, and homemaker services.

Part $A$ and $B$ deductibles do not apply to services and supplies furnished under the hospice benefit, and the beneficiary pays only limited charges for outpatient drugs and inpatient respite care. The beneficiary pays deductibles and coinsurance amounts when regular Medicare benefits are used for treatment of a condition other than the terminal illness. For the hospice program, there is a "cap" on per person expenditures.

HI financing and administration.Hospital Insurance is financed by a tax on earnings that is separate from
the tax used to finance Old-Age, Survivors, and Disability Insurance (OASDI) benefits. Before January 1991, the OASDI and HI taxes were applied to the same maximum earnings base ( $\$ 51,300$ in 1990).
However, beginning in 1991 (under P.L. 101-508), annual earnings up to $\$ 125,000$ were subject to HI taxes, with the amount indexed to increases in average wages in the economy after 1991. The maximum earnings base for HI was \$130,200 in 1992 and \$135,000 in 1993.

The Omnibus Budget Reconciliation Act of 1993 (P.L. 103-66) repealed the dollar limit on wages and selfemployment income subject to HI taxes, effective January 1,1994. The HI contribution rate of 1.45 percent applies equally to employers and employees. The rate for the selfemployed equals the combined employer and employee rate of 2.9 percent. ${ }^{1}$ The income is channeled into a separate Federal Hospital Insurance Trust Fund (see table 2.A3), established on a basis similar to that of the Federal Old-Age and Survivors Insurance and Disability Insurance Trust Funds. All Hospital Insurance benefits and administrative costs are paid from this trust fund. The HI Trust Fund is reimbursed from general revenues for the cost of providing HI coverage under the transitional provisions for certain aged persons not entitled to OASDI or Railroad Retirement benefits, and receives other miscellaneous income as well (see table 8.A1).

The Secretary of Health and Human Services has overall responsibility for administering the HI program. In 1965, a new component was created in the Social Security Administration (SSA) to manage the Medicare program. In March 1977, management was transferred from SSA to the newly formed Health Care

[^26]Financing Administration (HCFA). Responsibility for administering the federal Medicare program and the combined federal-state Medicaid programs rests with HCFA. SSA is responsible for the initial determination of an individual's entitlement and has overall responsibility for maintaining Medicare data on the master beneficiary record, the Social Security Administration's primary record of beneficiaries.

As provided by law, the administrators of the HI program have entered into agreements with state agencies and private organizations to secure their assistance in administering the program. HCFA develops regulations and guidelines to determine if hospitals, skilled-nursing facilities, and other providers of medical services meet the conditions for program participation. These standards include the requirements for medical and nursing staff, the physical environment in which care is provided, the maintenance of records, and the overall quality of care being provided. State agencies-usually health departments-apply the standards and also render consultative services to health care providers. Each participating provider must agree to limit beneficiary service charges to the applicable deductibles and coinsurance.

Hospitals and skilled-nursing facilities nominate a fiscal intermediary to process claims for HI benefits and to make payment settlements. The intermediaries are assigned by HCFA on a regional basis. Both Blue Cross/ Blue Shield plans and commercial insurance companies serve as intermediaries whose responsibilities include:

- determining costs and reimbursement amounts;
- maintaining records;
- establishing controls;
- safeguarding against fraud and abuse or excess use;
- conducting reviews and audits;
- making the payments to providers for services; and
- assisting both providers and beneficiaries as needed.
Skilled nursing facilities, home health agencies, and some hospitals are reimbursed on the basis of reasonable costs, subject to certain monetary limits. Most hospitals are paid under a prospective payment system with rates set in advance and related to the patient's diagnosis. Hospices are paid prospectively set rates based on the level of care.

Ordinarily, payments are made only for services provided in the 50 states, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

To improve the quality and effectiveness of Medicare services, the 1972 amendments authorized the establishment of medical review groups, called Professional Standards Review Organizations (PSROs). The 1982 amendments replaced the PSROs with Peer Review Organizations (PROs). A PRO (one in each state) is composed of local practicing physicians organized for the purpose of conducting peer reviews. The PROs are responsible for assuring that the care provided to Medicare beneficiaries is medically necessary and reasonable, provided in the appropriate setting (hospital versus nonhospital), reviewing the validity of hospitals' diagnostic information, reviewing the appropriateness of admissions and discharges, deciding if professionally accepted standards of quality are being met, and reviewing the appropriateness of care for which additional payment is sought for extraordinarily costly cases. To receive Medicare payments, each hospital must have an agreement with a PRO. In addition, measures to further prevent Medicare fraud and abuse were enacted in the Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191) and strengthened in the Balanced Budget Act of 1997 (P.L. 105-33).

## Supplementary Medical Insurance

All individuals aged 65 or older who are citizens, or aliens lawfully admitted for permanent residence with 5 consecutive years of residence, and all disabled persons entitled to coverage under HI are eligible to enroll in the SMI program on a voluntary basis by payment of a monthly premium.

From 1984 through 1990, the Part B premium was set to cover 25 percent of program costs for aged beneficiaries, with the remaining 75 percent covered by general revenues of the federal government. OBRA 1990 established the monthly Part B premium in statute through 1995 as follows: $\$ 29.90$ in 1991, $\$ 31.80$ in 1992, $\$ 36.60$ in 1993, $\$ 41.10$ in 1994, and $\$ 46.10$ in 1995. OBRA 1993 again established the provision requiring that Part B premiums cover 25 percent of program costs in 1996, 1997, and 1998. The Balanced Budget Act of 1997 permanently set the Part B premium at 25 percent of program costs.

In 1999, enrolled individuals pay a monthly premium of $\$ 45.50$ that is deducted from their Social Security benefit, Railroad Retirement annuity, or federal Civil Service Retirement annuity (the 1998 premium was $\$ 43.80$ ). Enrollees not receiving their benefits are billed quarterly. SMI costs not covered by premiums are financed from general revenues of the federal government (a total of 73 percent of SMI income in 1998). Individuals may either pay the premium or be eligible to have the state social service or medical assistance agency pay the premium on their behalf.

Persons may terminate their enrollment in the SMI program at any time by filing a notice with SSA. If persons withdraw before coverage starts, there is no premium liability. However, the premium rate is increased by 10 percent for each full year out of the program for persons who do not enroll as soon as they are eligible. (Special waivers of the premium surcharge are available to employees or spouses who continue
coverage under an employer health insurance plan.) Enrollment may also be terminated for failure to pay the premium.

Benefits provided.-The SMI program covers the following services and supplies, which must be medically necessary to be covered:

- Physicians' and surgeons' services, including some covered services furnished by chiropractors, podiatrists, dentists, and optometrists (except routine physical examinations and routine care of the eyes, ears, and feet, and most immunizations and cosmetic surgery). Also covered are the following Medicare-approved practitioners who are not physicians:
- Certified registered nurse anesthetists.
- Clinical psychologists.
- Clinical social workers (other than in a hospital or skilled-nursing facility).
- Physician assistants.
- Nurse practitioners and clinical nurse specialists in collaboration with a physician.
- Services in an emergency room or outpatient clinic, including same-day surgery.
- Home health care, as described in the Hospital Insurance section.
- Laboratory tests, X-rays, and other radiology services billed by the hospital, as well as approved independent laboratory services, portable diagnostic X -ray services, pap smear screening, mammography, prostate cancer screening, colorectal screening, and bone mass detection.
- Mental health care in a partial hospitalization psychiatric program, if a physician certifies that inpatient treatment would be required without it.
- Ambulatory surgical center services in Medicare-approved facility.
- Physical and occupational therapy, and speech pathology services under a plan established by a physician on an outpatient basis in a participating hospital, skilled-nursing facility, participating home health agency, rehabilitation agency, or public health agency.
- Comprehensive outpatient rehabilitation facility services, nonhospital treatment of a mental illness, and partial hospitalization for mental health treatment.
- Radiation therapy, renal (kidney) dialysis and transplants, and heart and liver transplants under certain limited conditions.
- Approved durable medical equipment for home use, such as oxygen equipment and wheelchairs; prosthetic devices; and surgical dressings, splints, and casts.
- Drugs and biologicals that cannot be self-administered (certain self-administered anticancer drugs are covered), such as pneumococcal pneumonia vaccine, hepatitis $B$ vaccine, hemophilia clotting factors, transfusions of blood and blood components not supplied under Part A, antigens, immunosuppresive drugs, epogen when used to treat anemia related to chronic kidney failure or to HIV-positive beneficiaries, and flu vaccinations.

For Part B, cost-sharing contributions are required of beneficiaries which include: one annual deductible (now \$100); the monthly premiums; coinsurance payments for Part B services (usually 20 percent of charges); a blood deductible; charges above the Medicare allowed charge (for claims not on assignment); and
payment for any services that are not covered by Medicare. For outpatient mental health treatment services, the beneficiary is liable for 50 percent of the approved charges.

Payments for most SMI covered services are made on either a cost or a charge basis. If payments are on a cost basis (to some providers of services), the intermediary must ascertain the reasonable cost. If the payments are on a charge basis (to physicians or others furnishing individual services), the carrier must verify that such charges meet the existing reasonable charge guidelines. Outpatient clinical laboratory services are reimbursed on the basis of fee schedules, and limitations are placed on certain other services.

Noncovered services under Medicare include long-term nursing care or custodial care, and certain other health care needs such as eyeglasses, hearing aids, prescription drugs (except certain self-administered anticancer drugs), dentures and dental care, and so forth. These are not a part of either the HI or the SMI program, unless they are a part of a managed care plan (prepaid health care plan), such as a health maintenance organization (HMO), which is an option for Medicare beneficiaries.

Physicians must submit the claims for all physician services regardless whether assignment is accepted. The physician then bills the beneficiary for any remaining deductible and 20 percent of the balance of the allowed charge. In addition, in cases where the physician did not accept assignment, the physician may charge the beneficiary no more than 15 percent of the allowed charge. Alternately, for other services reimbursed on an allowed charge basis, the supplier may submit the bill for the beneficiary without accepting assignment, and the patient remains responsible for the total bill and is paid by Medicare. Should the supplier accept assignment, the supplier must submit the claim directly for payment, agreeing to accept the carrier's determination for allowed charges as the full fee for the services
involved. Under these circumstances, the patient then pays no more than the remaining deductible and 20 percent of the balance of the allowed charge.

Physicians and suppliers may also voluntarily "participate" in Medicare and always accept assignment instead of making the decision each time a service is provided. A beneficiary who used a participating physician or supplier is assured that he or she will not be responsible for more than the initial deductible and the coinsurance applicable to the reasonable charge.

Before 1992, the Medicare reasonable charge, known as the reasonable charge, was the lowest of (1) the customary charge (generally the charge most frequently made) by each physician and supplier for each separate service or supply furnished to patients in a previous 12-month period, (2) the prevailing charge (the amount that is high enough to cover the customary charges in 3 out of 4 bills submitted in the previous year for each service and supply) for each covered service and supply, or (3) the actual charge.

Increases in prevailing charges for physicians' services were ordinarily limited from year to year by an economic index formula that relates physicians' fee increases to the actual increases in the cost of maintaining a practice and to rises in general earnings levels. OBRA 1989 (P.L. 101-239) provided for the replacement of customary and prevailing charges, with new fee schedules for physicians' services starting in 1992, based on a relative value scale. The fee schedule amount was equal to the product of the procedure's relative value, a conversion factor, and a geographic adjustment factor. Payments were based on the lower of the actual charge and the fee schedule amount. For the 4-year period from 1992 to 1995, the fee schedule amounts were to be adjusted to reflect the prevailing charges in each fee screen area.

Under OBRA 1993 (P.L. 103-66), the physician fee schedule update reflects changes in the Medicare Economic Index, performance
adjustment and legislation. In 1994, the Part B fee schedule update for physician services was reduced by 3.6 percent for surgical services, and 2.6 percent for all other services (including anesthesia services), with the exception of primary care services which will receive the full update. For 1995, the update was reduced by 2.7 percent for surgical and all other services, with the exception of primary care services, which received the full update. The 1993 law also included cost restraint provisions applicable to skilled-nursing facilities, hospices, laboratory services, anesthesia care teams, other services, and expense computations.

SMI financing and administration.The SMI program is financed through the Federal Supplementary Medical Insurance Trust Fund, into which are placed the premiums paid by enrollees ( $\$ 45.50$ per month in 1999 , usually deducted from monthly Social Security benefit checks), and the amount paid by the federal government from general revenues. The trust fund receives other miscellaneous income as well (see table 8.A2). Responsibility for administration of the SMI program, like the HI program, was transferred from SSA to HCFA in March 1977.

As provided by law, HCFA enters into contracts with carriers to serve as administrative agents for claims processing. The federal government reimburses the carrier for administrative expenses. Blue Cross/Blue Shield plans and commercial insurance companies operate as carriers to process SMI claims for services furnished by physicians and other health care providers. Carriers perform specific functions such as determining allowable payments; holding, disbursing, and accounting for funds; assisting in the application of safeguards against unnecessary utilization of services; granting hearings to individuals with contested claims; maintaining quality of performance records; assisting in fraud and abuse investigations; and assisting both suppliers and beneficiaries as
needed. Some institutional providers of services, such as home health agencies, hospital outpatient departments, and comprehensive outpatient rehabilitation centers, are served by HI intermediaries.

## Medicare+Choice

An expanded set of options for the delivery of health care under Medicare, referred to as Medicare+Choice, was established by the Balanced Budget Act of 1997 (P.L. 105-33). All Medicare beneficiaries can receive their Medicare benefits through the original fee-for-service program. In addition, most beneficiaries enrolled in both Parts $A$ and $B$ can choose instead to receive their Medicare benefits through one of the following Medicare+Choice plans:

- Coordinated care plans (such as health maintenance organizations, provider-sponsor organizations, and preferred provider organizations);
- Medical Savings Account (MSA)/High Deductible plans (through a demonstration available up to 390,000 beneficiaries); or
- Private fee-for service plans.

Except for MSA plans, all Medicare+Choice plans are required to provide the current benefit package provided under Medicare Parts A and $B$ (excluding hospice services) and any additional health services required under the adjusted community rate (ACR) process. MSA plans provide Medicare benefits after a single high deductible is met, and enrollees receive an annual deposit in their Medical Savings Account.

Transition rules for the prior Medicare managed care program were also provided by the Balanced Budget Act.

## Recent Legislation and Program Changes

The Balanced Budget Act of 1997 (P.L. 105-33), enacted on August 5,

1997, included a number of provisions affecting the Medicare program. The new Medicare+Choice options and the changes regarding home health care coverage under the two parts of Medicare, both previously addressed, were two of the major provisions included in the Balanced Budget Act. These and the other major provisions of the Balanced Budget Act are described in the following section entitled Medicare: History of Provisions. All entries for 1997 in the Medicare: History of Provisions section are provisions that were contained in the Balanced Budget Act.

Act*

## Insured Status Entitlement to Hospital Insurance Benefits**

1965 Any individual aged 65 or older entitled to monthly benefits under the Social Security or Railroad Retirement program, or aged 65 before 1968, or 3 quarters of coverage (QC) after 1965 and before attainment of age 65.

1967 Or 3 QC for each year after 1966 and before attainment of age 65.
1972b Any disabled individual, under age 65, entitled to monthly disability benefits for 24 consecutive months under the Social Security or Railroad Retirement program (excludes spouses and children of disabled individuals). Any individual under age 65 who has end-stage renal disease and who is either fully or currently insured, or is entitled to monthly benefits under the Social Security or Railroad Retirement program or is the spouse or dependent child of such an insured individual or beneficiary. Entitlement begins on the first day of the third month following the initiation of a course of renal dialysis and ends with the 12th month following the month in which either the dialysis terminates or the individual has a renal transplant.

Any individual aged 65 or older enrolled in the SMI program who is not otherwise entitled to HI benefits, upon voluntary participation with payment of hospital insurance premium.

1980 Any individual who would be entitled to monthly benefits under the Social Security or Railroad Retirement program if application were made.

Any disabled individual under age 65 entitled to monthly disability benefits for a total of 24 months, not necessarily consecutive, under the Social Security or Railroad Retirement program.

Medicare coverage extended for up to 36 months for disabled individuals whose disability continues, but whose monthly benefit ceased because they engaged in substantial gainful activity.

Second waiting period eliminated if a former disabled-worker beneficiary becomes entitled again within 5 years ( 7 years for disabled widows and widowers and disabled children aged 18 or older).

1982 Federal employees covered under HI based on QC for earnings as Federal employees and/or based on deemed QC for earnings as Federal employees before 1983.

1983 Employees of nonprofit organizations, effective Jan. 1, 1984.
1985 Premium-paying individuals who do not purchase Part A coverage within a specific time after becoming eligible because of age are subject to a 10-percent penalty for each 12 months they are late in enrolling. There is a cutoff on the length of time these individuals will have to pay an enrollment penalty. The 10 -percent premium penalty would be limited to twice the number of years enrollment was delayed. Therefore, if enrollment were delayed 1 year, the penalty would be assessed for 2 years. Individuals in this category and already enrolled will have the length of time the higher premium was paid credited to them.

[^27]1986 Mandatory coverage-Hospital Insurance (Part A) program only—provided to state and local government employees not covered under Social Security and hired after Mar. 31, 1986.

1987 Second waiting period eliminated if a former disabled beneficiary becomes entitled again (no time limit).

Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

1989 Disabled individuals under age 65 who are no longer entitled to Social Security disability benefits because their earnings exceeded the substantial gainful activity level have the option to purchase Medicare coverage by paying the HI and SMI premiums.

## Entitlement to Supplementary Medical Insurance Benefits

1965 Any U.S. resident (citizen or lawfully admitted alien with 5 years continuous residence) aged 65 or older or any individual entitled to HI benefits upon voluntary participation with payment of SMI premium.

1972b Any individual under age 65 entitled to HI benefits, upon voluntary participation with payment of SMI premium.

1984 For calculating the amount of premium surcharge for individuals from age 65 up to age 70 not previously enrolled in Medicare, the number of years of an individual's employer group health insurance will not be taken into account.

1987 Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

## Medicare Benefits HI and SMI

1980 Requires that Medicare be secondary payer to benefits provided by liability insurance policies or under no-fault insurance.

1981 Requires that Medicare be secondary payer to employer-based group health plans for beneficiaries entitled to Medicare solely due to end-stage renal disease (ESRD) for up to 12 months.

1982 For workers and their spouses aged 65-69, Medicare is the secondary payer when benefits are provided under an employer-based group health plan (applicable to employers with 20 or more employees who sponsor or contribute to the group plan).

Health maintenance organizations (HMOs) will be covered as providers of benefits. The prospective payment mechanism for HMOs must be certified by the Secretary of HHS before implementation.

1984 Medicare secondary payer provisions are extended to spouses aged 65-69 of workers under age 65 whose employer-based group health plan covers such spouses.

For health maintenance organizations (HMOs), includes medical and other health services furnished by clinical psychologists.

1985 Provides payment for liver transplant services.

1986 Extends the working age secondary payer provision to cover workers and their spouses beyond the age of 69 .

For HMOs that offered organ transplants as a basic health service on Apr. 15, 1985, such services may be offered from Oct. 1, 1985, through Apr. 1, 1988.

For disabled individuals who are covered by employer-based health plans (with at least 100 employees), Medicare is the secondary payer, effective for 1987-91.

1987 Requires health maintenance organizations/competitive medical plans that cease to contract with Medicare to provide or arrange supplemental coverage of benefits related to preexisting conditions for the lesser of 6 months or the duration of an exclusion period.

Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

Clarifies that the secondary payer provision for disabled individuals covered under employer-based health plans for employers with at least 500 employees applies to employers that are government entities.

1990 Requires that Medicare be the secondary payer to employer-based group health plans for beneficiaries entitled to Medicare solely due to ESRD for up to 18 months (extended from 12 months), effective Feb. 1, 1991, to Jan. 1, 1996.

The secondary payer provision for disabled beneficiaries covered under large employer plans (see 1986.); effective through Sept. 30, 1995.

1993 The secondary payer provision for disabled beneficiaries covered under large employer plans is effective through Sept. 30, 1998.

The secondary payer provision for beneficiaries with ESRD applies for all beneficiaries with end-stage renal disease, not only those entitled to Medicare solely on the basis of it. The extension to include the first 18 months of an individual's entitlement on the basis of ESRD is effective through Sept. 30, 1998.

1997 An expanded set of options for the delivery of health care under Medicare, referred to as Medicare+Choice, is established. All Medicare beneficiaries can receive their Medicare benefits through the original fee-for-service program. In addition, most beneficiaries can choose instead to receive their Medicare benefits through one of the following Medicare+Choice plans: (1) coordinated care plans (such as health maintenance organizations, provider-sponsored organizations, and preferred provider organizations); (2) Medical Savings Account (MSA)/High Deductible plans (through a demonstration available up to 390,000 beneficiaries); or (3) private fee-for-service plans. Except for MSA plans, all Medicare+Choice plans are required to provide the current Medicare benefit package (excluding hospice services) and any additional health services required under the adjusted community rate (ACR) process. MSA plans provide Medicare benefits after a single high deductible is met, and enrollees receive an annual deposit in their Medical Savings Account. Transition rules for current Medicare HMO program also provided.

The provision making Medicare the secondary payer for disabled beneficiaries in large group health plans, previously scheduled to expire Sept. 30, 1998, made permanent.

The provision making Medicare secondary payer for the first 12 months of entitlement due to ESRD, which had been extended on a temporary basis (through Sept. 30,1998 ) to include the first 18 months of entitlement, has been extended, permanently, to include the first 30 months of entitlement on the basis of ESRD.

## Hospital Insurance

1965 In each benefit period, inpatient hospital services, 90 days. Includes semiprivate accommodations, operating room, hospital equipment (including renal dialysis), laboratory tests and X-ray, drugs, dressings, general nursing services, and services of interns and residents in medical osteopathic or dentistry training. Inpatient psychiatric hospital care limited to 190-day lifetime maximum. Outpatient hospital diagnostic services. Post-hospital extended-care services, 100 days (including physical, occupational, and speech therapy). Post-hospital home health services, 100 visits. Deductible and coinsurance provisions (see table 2.C1).

1967 Lifetime reserve of 60 additional days of inpatient hospital services. Outpatient hospital diagnostic services transferred to SMI.

1972b Services of interns and residents in podiatry training.
1980 Unlimited home health visits in a year. Requirement for prior hospitalization eliminated. Home health services provided for up to 4 days a week and up to 21 consecutive days.

Alcohol detoxification facility services.
1981a Part A coinsurance is based on the deductible for the calendar year in which services are received rather than the deductible in effect at the time the beneficiary's spell of illness began, beginning in 1982.

Alcohol detoxification facility services eliminated.
1982 Beneficiaries expected to live 6 months or less may elect to receive hospice care benefits instead of other Medicare benefits. May elect maximum of two 90-day and one 30-day hospice care periods, effective Nov. 1, 1983, to Oct. 1, 1986.

1984 For durable medical equipment provided by home health agencies, the payment amount is reduced from 100 percent of costs to 80 percent of reasonable charges.

1986 Set the Part A deductible for 1987 at $\$ 520$ with resulting increases in cost sharing. Increased the Part A deductible annually by the applicable percentage increase in the hospital prospective payment rates.

Hospice care benefit (enacted in 1982) made permanent.
1987 Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

1988 Enrollee pays annual hospital deductible (set at $\$ 560$ for 1989) and Medicare pays balance of covered charges, regardless of the number of days of hospitalization (except for psychiatric hospital care, which is still limited by 190-day lifetime maximum).

The number of days in a skilled-nursing facility changed to 150 per year. Deletes the requirement for a prior hospital stay of 3 or more consecutive days.

Expands home health care to provide care for less than 7 days per week and up to 38 consecutive days.

Hospice care extended beyond 210 days when enrollee is certified as terminally ill.
All 1988 provisions became effective Jan. 1, 1989.

1989 The spell of illness and benefit period coverage of laws prior to 1988 return to the determination of inpatient hospital benefits in 1990 and later. After the deductible is paid in benefit period, Medicare pays 100 percent of covered costs for the first 60 days of inpatient hospital care. Coinsurance applies for the next 30 days in a benefit period.

The requirement for a prior hospital stay of 3 or more consecutive days is reinstated for skilled-nursing facility services. Coverage returns to 100 days post-hospital care per spell of illness with a daily coinsurance rate in effect for days 21 through 100.

Home health services return to a limit of 21 consecutive days of care. Provision providing for home health care for fewer than 7 days per week continued due to a court decision.

Hospice care is returned to a lifetime limit of 210 days.
Hospice care is extended beyond 210 days when enrollee is certified as terminally ill.
1997 Home health services not associated with a hospital or skilled-nursing facility stay for individuals enrolled in both HI and SMI are transferred from the HI program to the SM! program, effective January 1998. The HI program will continue to cover the first 100 visits following a hospital stay of at least 3 consecutive days or a skilled-nursing facility stay. The cost to the SMI Trust Fund of the transferred services will phase in over a 6-year period (that is, the HI Trust Fund will transfer funds to the SMI Trust Fund during that period).

Limits on the number of hours and days that home health care can be provided have been clarified. "Part-time" now defined as skilled-nursing and home health aide services (combined) furnished any number of days per week, for less than 8 hours per day and 28 or fewer hours per week. "Intermittent" now defined as skilled-nursing care provided for fewer than 7 days each week, or less than 8 hours each day (combined) for 21 days or less.

Hospice benefit periods are restructured to include two 90-day periods, followed by an unlimited number of 60 -day periods.

Medicare coverage provided for a number of prevention initiatives, most of which covered under SMI program. HI program affected mainly by two of the initiatives: (1) annual prostate cancer screening for male beneficiaries aged 50 or older, effective Jan. 1, 2000; and (2) colorectal screening procedures, including fecal-occult blood tests and flexible sigmoidoscopies, for beneficiaries age 50 or older, colonoscopy for beneficiaries at high risk for colorectal cancer, and other procedures, including screening barium enemas under certain circumstances.

## Supplementary Medical Insurance

1965 Physician and surgeon services. In-hospital services of anesthesiologists, pathologists, radiologists, and psychiatrists. Limited dental services. Home health services, 100 visits in calendar year. Other medical services including various diagnostic tests, limited ambulance services, prosthetic devices, rental of durable medical equipment used at home (including equipment for dialysis), and supplies used for fractures. For deductible and coinsurance provisions, see table 2.C1.

Beginning in 1966, the beneficiary pays a $\$ 50$ deductible, with a 3-month carryover provision.

1967 Outpatient hospital diagnostic services, transferred from HI. Includes physical therapy services in a facility. Purchase of durable medical equipment.

1972b Physical therapy services furnished by a therapist in his or her office or individual's home (calendar year limit of $\$ 100$ ). Chiropractor services (limited to manual manipula-
tion of the spine). Outpatient services include speech pathology services furnished in, or under arrangements with, a facility or agency. Services of a doctor of optometry in furnishing prosthetic lenses.

Beginning in 1973, the beneficiary pays a $\$ 60$ deductible.
1977 Services in rural health clinics.
1980 Home health services. Deductible applicable to home health services is eliminated, effective July 1, 1981.

Facility costs of certain surgical procedures performed in freestanding ambulatory surgical centers.

Increase in annual limit for outpatient therapy from $\$ 100$ to $\$ 500$.
Recognizes comprehensive outpatient rehabilitation facilities as Medicare providers.
1981a Beginning in 1982, the beneficiary pays a $\$ 75$ deductible, with the carryover provision eliminated.

1984 Hepatitis B and pneumococcal vaccines and blood clotting factors and necessary supplies are included as Part B benefits. Debridement of mycotic toenails is limited.

For outpatient physical therapy services, includes services of a podiatrist. For outpatient ambulatory surgery, includes services of a dentist and podiatrist furnished in his or her office.

1986 Includes vision care services furnished by an optometrist.
For occupational therapy services, includes services furnished in a skilled-nursing facility (when Part A coverage has been exhausted), in a clinic, rehabilitation agency, public health agency, or by an independently practicing therapist.

Includes outpatient immunosuppressive drugs for 1 year after transplant and occupational therapy services providers in certain delivery settings.

For ambulatory surgical procedures performed in ambulatory surgical centers, hospital outpatient departments, and certain physician offices, the Part B coinsurance and deductible are no longer waived.

1987 Increases the maximum payment for mental health services and includes outpatient mental health services provided by ambulatory hospital-based or hospitalaffiliated programs under the supervision of a physician.

Services provided by clinical social workers when furnished by risk-sharing health maintenance organizations/competitive medical plans, physician assistants in rural health manpower shortage areas, clinical psychologists in rural health clinics and community mental health centers, and certified nurse-midwives.

Prescription drugs used in outpatient immunosuppressive therapy.
Specifies in law that in order to be eligible for home health care, a Medicare beneficiary must have a restricted ability to leave the home, requiring the assistance of another or the aid of a supportive device (such as crutches, a cane, a wheelchair, or a walker).

1988 Beginning Jan. 1, 1990, the beneficiary pays a $\$ 75$ deductible and 20-percent coinsurance, but once out-of-pocket expenses for the deductible and coinsurance exceed $\$ 1,370$, Medicare pays 100 percent of allowable charges for remainder of year.

Beginning in 1991, Medicare pays 50 percent of the cost of outpatient prescription drugs above $\$ 600$. When fully implemented in 1993, Medicare will pay 80 percent of prescription drug costs above a deductible that assumes that 16.8 percent of Part B enrollees will exceed the deductible.

Certain prescription drugs-immunosuppressive therapy and intravenous (IV) drugs that can be administered in a home setting-will be covered in 1990 under the new prescription drug provision.

1989 Provisions enacted in 1988 and to begin in 1990 and 1991 are repeated and benefits are restored to levels in effect prior to Jan. 1, 1989.

Limits on mental health benefits eliminated in 1990. Coverage extended to services of clinical psychologists and social workers.

1990 Beginning in 1991, routine mammography screenings are covered.
The Part B deductible is set at $\$ 100$ in 1991 and subsequent years.
Beginning in 1992, physicians' services are reimbursed on a fee-schedule basis.
Includes coverage of oral, self-administered anticancer drugs.
Lengthens the coverage period for immunosuppressive drugs after a transplant to 18 months in 1995, 24 months in 1996, 30 months in 1997, and 36 months thereafter.

1997 Home health services not associated with a hospital or skilled-nursing facility stay for individuals enrolled in both HI and SMI are transferred from the HI program to the SMI program, effective January 1998. The HI program will continue to cover the first 100 visits following a hospital stay of at least 3 consecutive days or a skilled-nursing facility stay. The cost to the SMI Trust Fund of the transferred services will phase in over a 6-year period, while the cost of the home health services will phase into the SMI premium over 7 years.

Coverage provided for a number of prevention initiatives, including (1) annual screening mammograms for female beneficiaries age 40 or older, with SMI deductive waived; (2) screening pap smear and pelvic exam (including clinical breast exam) every 3 years or annually for beneficiaries at higher risk, with SMI deductible waived; (3) annual prostate cancer screening for male beneficiaries aged 50 or older, effective Jan. 1, 2000; (4) colorectal screening procedures, including fecal-occult blood tests and flexible sigmoidoscopies, for beneficiaries aged 50 or older, colonoscopy for beneficiaries at high risk for colorectal cancer, and other procedures, including screening barium enemas under certain circumstances; (5) diabetes outpatient self-management training in nonhospital-based programs (previously covered in hospital-based programs only) and blood glucose monitors and testing strips for all diabetics (previously provided for insulindependent diabetics only), effective July 1, 1998; (6) procedures to identify bone mass, detect bone loss, or determine bone quality for certain qualified beneficiaries, at frequencies determined by the Secretary of HHS, effective July 1, 1998.

Beginning January 1999, an annual beneficiary limit of $\$ 1,500$ will apply to all outpatient physical therapy services, except for services furnished by a hospital outpatient department. A separate $\$ 1,500$ limit will also apply to outpatient occupational therapy services, except for services furnished by hospital outpatient departments. Beginning with 2002, these caps will be increased by the percentage increase in the Medical Economic Index.

## Medicare Financing

## Hospital Insurance Taxes

See table 2.A3.

## Appropriations From General Revenues

1965 For HI costs attributable to transitionally insured beneficiaries.
For HI costs attributable to noncontributory wage credits granted for military service prior to 1957 (see table 2.A2).

For the SMI program, an amount equal to participant premiums.
1972b For cost of SMI not met by enrollee premiums.
1982 For HI costs attributable to beneficiaries having transitional entitlement based on Medicare-qualified federal employment.

1983 For HI taxes on noncontributory wage credits granted for military service (a) from the inception of HI program through 1983 and (b) on a current basis, annually, beginning in 1984 (see table 2.A2).

## Participant Premiums

See also table 2.C1.
1965 SMI enrollee premium rate (originally $\$ 3$ per month) to be established annually such as to pay one-half of program costs.

1972b SMI enrollee premium rate increase limited to rate of increase in OASDI cash benefits.

HI premium (originally $\$ 33$ per month) to be established annually. Only individuals not otherwise entitled to HI but desiring voluntary participation need to pay the HI premium.

1983 SMI enrollee premiums for July 1983, to Dec. 31, 1983, frozen at premium level of June 30, 1983. Premiums for Jan. 1, 1984, to Dec. 31, 1985, set to cover 25 percent of aged program costs.

1984 SMI enrollee premiums for Jan. 1, 1986, to Dec. 31, 1987, will be set to cover 25 percent of aged program costs. Increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustment.

1985 Extends through calendar year 1988 the requirement that SMI premiums be set to cover 25 percent of aged program costs and that increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustment.

1987 Extends through calendar year 1989 the provisions requiring that the SMI premium be set to cover 25 percent of aged program costs, prohibiting any increase in the premium if there is no Social Security cost-of-living adjustment, and continuing to hold beneficiaries harmless from Social Security check reductions as a result of a premium increase.

1988 Increases in the SMI premium may not exceed the dollar amount of the Social Security cost-of-living adjustments for 1989 and beyond.

1989 Extends through calendar year 1990 the requirement that SMI premiums be set to cover 25 percent of aged program costs.

1990 The SMI premium amounts are $\$ 29.90$ in 1991, $\$ 31.80$ in 1992, $\$ 36.60$ in 1993, $\$ 41.10$ in 1994, and $\$ 46.10$ in 1995.

1993 SMI enrollee premiums for Jan. 1, 1996, to Dec. 31, 1998, will be set to cover 25 percent of aged program costs.
1997 The SMI premium is permanently set a 25 percent of program costs.
Income From Taxation of OASDI Benefits
1993 The additional income tax revenues resulting from the increase in the taxable percentage applicable to OASDI benefits (an increase from 50 percent to 85 percent, see table 2.A31) are transferred to the H! Trust Fund.
Interfund Borrowing
1981b See table 2.A6.
1983 See table 2.A6.

${ }^{1}$ The HI and SMI deductible and coinsurance amounts begin in January unless otherwise noted. The HI and SMI monthly premium amounts were effective in July through 1983. Monthly premium amounts begin in January in 1984 and succeeding years.
? Premium paid for voluntary participation of individuals aged 65 or older not otherwise entitled to hospital insurance and of certain disabled individuals who have exhausted other entitlement.
${ }^{3}$ Beginning in July 1973 for the disabled.
${ }_{5}^{4}$ Benefit not provided.
${ }^{5}$ Professional inpatient services of pathologists and radiologists not subject to deductible or coinsurance, beginning in April 1968.
${ }^{6}$ Beginning in April 1968.
${ }^{7}$ Home health services not subject to coinsurance, beginning in January 1973.
${ }^{\text {B }}$ Monthly premium for July and August 1973 was reduced to $\$ 5.80$ and $\$ 6.10$, respectively, by the Cost of Living Council.
${ }_{10}$ Home health services not subject to deductible.
${ }^{10}$ Same as footnote 5 , but only when physician accepts assignment.
${ }_{11}$ Effective Oct. 1, 1982, professional inpatient services of pathologists and radiologists are subject to deductible and coinsurance.
${ }^{12}$ Unlike all other years, the 1989 deductible was applied on an annual, rather than a benefit period, basis. Once the deductible was paid by the beneficiary,

Medicare paid the balance of expenses for covered hospital services, regardless of the number of days of hospitalization (except for psychiatric hospital care, which was still limited by the 190 -day lifetime maximum).
${ }^{13}$ The coinsurance amount in 1989 was equal to 20 percent of the estimated national average daily cost of covered skilled nursing facility care, rather than $1 / 8$ of the inpatient hospital deductible. The beneficiary paid the coinsurance amount for the first 8 days of care in 1989, rather than for days of care 21 to 100 in a benefit period as in all other years. Skilled nursing facility benefits were available for up to 150 days of care per year in 1989, rather than for up to 100 days of care per benefit period as in all other years.
${ }_{24}$ Includes the standard monthly SMI premium and a supplemental monthly flat premium under the Medicare Catastrophic Coverage Act of 1988. Amount shown is for most Part B enrollees. Residents of Puerto Rico and other ternitories and commonwealths, as well as persons enrolled in Part B only, paid different supplemental flat premiums resulting in a smaller premium than that shown.
${ }^{15} \mathrm{~A}$ reduced premium is available to individuals aged 65 or older who are not otherwise entitled to HI but who have (or who were married to, widowed from, or divorced from a spouse for certain periods of time who has or had) at least 30 quarters of Social Security coverage. The reduced premium is $\$ 184, \$ 183, \$ 188$, $\$ 187, \$ 170$, and $\$ 170$ for 1994 to 1999 , respectively.

## Medicaid

Note: The following narrative is intended for informational purposes only. This description of the Medicaid program is not an official statement of policy that can be relied upon in lieu of the appropriate law, regulations, and rulings. This narrative is not intended to render legal or otherprofessional advice; therefore, it should not be relied upon for making specific legal decisions. Instead the law, regulations, and rulings, should be consulted for purposes of making such decisions.

Title XIX of the Social Security Act is a federal-state matching entitlement program that pays for medical assistance for certain individuals and families with low incomes and resources. This program, known as Medicaid, became law in 1965 as a jointly funded cooperative venture between the federal and state governments (which includes the District of Columbia and the Territories) to assist states in furnishing medical assistance to eligible needy persons. Medicaid is the largest source of funding for medical and health-related services for America's poorest people.

Within broad national guidelines established by federal statutes, regulations, and policies, each state:
(1) establishes its own eligibility standards;
(2) determines the type, amount, duration and scope of services;
(3) sets the rate of payment for services; and
(4) administers its own program.

Medicaid policies for eligibility, services, and payment are complex and vary considerably even among states of similar size or geographic proximity. Thus, a person who is eligible for Medicaid in one state might not be eligible in another state; and the services provided by one state may differ considerably in amount, duration, or scope from services provided in a similar or
neigh boring state. In addition, Medicaid eligibility and/or services within a state can change during the year.

## Basis of Eligibility and

## Maintenance Assistance Status

Medicaid does not provide medical assistance for all poor persons. Even under the broadest provisions of the federal statute, Medicaid does not provide health care services even for very poor persons unless they are in one of the groups designated below. Low income is only one test for Medicaid eligibility for those within these groups; their resources also are tested against threshold levels (as determined by each state within federal guidelines).

States generally have broad discretion in determining which groups their Medicaid programs will cover and the financial criteria for eligibility. To be eligible for federal funds, however, states are required to provide Medicaid coverage for certain individuals who receive federally assisted incomemaintenance payments, as well as for related groups not receiving cash payments. In addition to their Medicaid programs, most states have additional "state-only" programs to provide medical assistance for specified poor persons who do not qualify for Medicaid. Federal funds are not provided for state-only programs. The following enumerates the mandatory Medicaid "categorically needy" eligibility groups for which federal matching funds are provided:

- Individuals are generally eligible for Medicaid if they meet the requirements for the AFDC program that were in effect in their state on July 16, 1996, or-at state option-more liberal criteria;
- Children under age 6 whose family income is at or below 133 percent of the federal poverty level (FPL);
- Pregnant women whose family income is below 133 percent
of the FPL (services to these women are limited to those related to pregnancy, complications of pregnancy, delivery, and postpartum care);
- Supplemental Security Income (SSI) recipients in most states (some states use more restrictive Medicaid eligibility requirements which pre-date SSI);
- Recipients of adoption or foster care assistance under title IV of the Social Security Act;
- Special protected groups (typically individuals who lose their cash assistance due to earnings from work or from increased Social Security benefits, but who may keep Medicaid for a period of time);
- All children born after September 30, 1983, who are under age 19, in families with incomes at or below the FPL. (This phases in coverage, so that by the year 2002, all such poor children under age 19 will be covered); and
- Certain Medicare beneficiaries (described later).

States also have the option of providing Medicaid coverage for other "categorically related" groups. These optional groups share characteristics of the mandatory groups (that is, they fall within defined categories), but the eligibility criteria are somewhat more liberally defined. The broadest optional groups for which states will receive federal matching funds for coverage under the Medicaid program include:

- Infants up to age 1 and pregnant women not covered under the mandatory rules whose family income is no more than 185 percent of the FPL (the percentage amount is set by each state);
- Children under age 21 who meet the AFDC income and resources requirements that
were in effect in their state on July 16, 1996 (even though they do not meet the mandatory eligibility requirements);
- Institutionalized individuals eligible under a "special income level" (the amount is set by each state-up to 300 percent of the SSI federal benefit rate);
- Individuals who would be eligible if institutionalized, but who are receiving care under home and community-based services waivers;
- Certain aged, blind, or disabled adults who have incomes above those requiring mandatory coverage, but below the FPL;
- Recipients of state supplementary income payments;
- Certain working and disabled persons with family income less than 250 percent of FPL who would qualify for SSI if they did not work;
- TB-infected persons who would be financially eligible for Medicaid at the SSI income level if they were within a Medicaidcovered category (however, coverage is limited to TB-related ambulatory services and TB drugs);
- "Optional targeted low-income children" included within the Children's Health Insurance Program (CHIP) established by the Balanced Budget Act of 1997 (BBA97); and
- "Medically needy" persons (described below).

The medically needy (MN) program allows states the option to extend Medicaid eligibility to additional qualified persons. These persons would be eligible for Medicaid under one of the mandatory or optional groups, except that their income and/or resources are above the eligibility level set by their state. Persons
may qualify immediately or may "spend down" by incurring medical expenses that reduce their income to or below their state's MN income level.

The medically needy Medicaid program does not have to be as extensive as the categorically needy program, and it may be quite restrictive in rules governing coverage and eligibility. Federal matching funds are available for MN programs. However, if a state elects to have a MN program, there are federal requirements that certain groups and certain services must be included. Children under age 19 and pregnant women who are medically needy must be covered; and prenatal and delivery care for pregnant women and ambulatory care for children must be provided.
A state may elect to provide MN eligibility to certain additional groups, and may elect to provide certain additional services within its MN program. In 1997, 42 states elected to have a MN program and provided at least some MN services to at least some MN recipients. All remaining states utilize the "special income level" option to extend Medicaid to the "near poor" in medical institutional settings.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (Public Law 104-193), known as the "welfare reform" bill, made restrictive changes regarding eligibility for SSI coverage that impacted the Medicaid program. This law impacts the Medicaid coverage for certain aliens. For legal resident aliens and other qualified aliens who entered the United States on or after August 22, 1996, Medicaid is barred for 5 years. Medicaid coverage for most aliens entering before that date and coverage for those eligible after the 5 -year ban are state options; emergency services, however, are mandatory for both of these alien coverage groups. For aliens who lose SSI benefits because of new restrictions regarding SSI coverage, Medicaid can continue only if these persons can be covered for Medicaid under some other eligibility status (again with the exception of emergency
services which are mandatory). Although a number of disabled children lost SSI as a result of changes to P.L. 104-193, their continued eligibility for Medicaid was assured by Public Law 105-33-the Balanced Budget Act of 1997 (the BBA97).

In addition, welfare reform repealed the open-ended federal entitlement program known as Aid to Families with Dependent Children (AFDC), and replaced it with Temporary Assistance for Needy Families (TANF), which will provide grants to states to be spent on time-limited cash assistance. TANF limits a family's lifetime cash welfare benefits to a maximum of 5 years and permits states to impose a wide range of other restrictions as well-in particular, requirements related to employment. However, the impact on Medicaid eligibility is not expected to be significant. Under welfare reform, persons who would have been eligible for AFDC under the AFDC requirements in effect on July 16, 1996, generally will still be eligible for Medicaid. Although most persons covered by TANF will receive Medicaid, it is not required by law.

Title XXI of the Social Security Act, known as the Children's Health Insurance Program (CHIP), is a new program initiated by the BBA97. In addition to allowing states to craft or expand an existing state insurance program, CHIP will provide more federal funds for states to expand Medicaid eligibility to include more children who are currently uninsured. With certain exceptions, these are low-income children who would not qualify for Medicaid based on the plan that was in effect on April 15, 1997. Funds from the CHIP also may be used for providing medical assistance to children during a presumptive eligibility period for Medicaid. This is one of several options for states to select for providing health care coverage for more children, as prescribed within the BBA97's title XXI program.

Medicaid coverage may begin as early as the third month prior to application-if the person would have been eligible for Medicaid had he
applied during that time. Medicaid coverage generally stops at the end of the month in which a person no longer meets the criteria of any Medicaid eligibility group. The BBA97 allows states to provide 12 months of continuous Medicaid coverage (without reevaluation) for eligible children under the age of 19 .

## Scope of Services

Title XIX of the Social Security Act allows considerable flexibility within the states' Medicaid plans. However, some federal requirements are mandatory if federal matching funds are to be received. A state's Medicaid program must offer medical assistance for certain basic services to most categorically needy populations. These services generally include:

- inpatient hospital services;
- outpatient hospital services;
- prenatal care;
- vaccines for children;
- physician services;
- nursing facility services for persons aged 21 or older;
- family planning services and supplies;
- rural health clinic services;
- home-health care for persons eligible for skilled-nursing services;
- laboratory and X-ray services;
- pediatric and family nurse practitioner services;
- nurse-midwife services;
- federally qualified health center (FQHC) services and ambulatory services of an FQHC that would be available in other settings; and
- early and periodic screening, diagnosis, and treatment (EPSDT) services for children under age 21.

States may also receive federal matching funds for certain optional services. The most common of the

34 currently approved optional Medicaid services include:

- diagnostic services;
- clinic services;
- intermediate care facilities for the mentally retarded (ICFs/MR);
- prescribed drugs and prosthetic devices;
- optometrist services and eyeglasses;
- nursing facility services for children under age 21;
- transportation services;
- rehabilitation and physical therapy services; and
- home and community-based care to certain persons with chronic impairments.

The BBA97 included a state option designated Programs of All-Inclusive Care for the Elderly (PACE). PACE provides an alternative to institutional care for persons aged 55 or older who require a nursing facility level of care. The PACE team offers and manages all health, medical and social services, and mobilizes other services as needed to provide preventative, rehabilitative, curative, and supportive services. This care is provided in day health centers, homes, hospitals, and nursing homes, while helping the person maintain independence, dignity, and qualify of life. PACE functions within the Medicare program as well as under Medicaid. Regardless of source of payment, PACE providers receive payment only through the PACE agreement and must make available all items and services covered under both titles XVIII and XIX without amount, duration, or scope limitations, and without application of any deductibles, co-payments, or other cost sharing. The individuals enrolled in PACE receive benefits solely through the PACE program.

## Amount and

## Duration of Services

Within broad federal guidelines and certain limitations, states determine
the amount and duration of services offered under their Medicaid programs. States may limit, for example, the number of days of hospital care or the number of physician visits covered. Two restrictions apply: (1) limits must result in a sufficient level of services to reasonably achieve the purpose of the benefits and (2) limits on benefits may not discriminate among beneficiaries based on medical diagnosis or condition.

In general, states are required to provide comparable amounts, duration, and scope of services to all categorically needy and categorically related eligible persons. There are two important exceptions: (1) Medically necessary health care services identified under the EPSDT program for eligible children that are within the scope of mandatory or optional services under federal law must be covered, even if those services are not included as part of the covered services in that state's plan and (2) states may request "waivers" to pay for otherwise uncovered home- and community-based services for Medicaid-eligible persons who might otherwise be institutionalized). States have few limitations on the services which may be covered under such waivers as long as the services are cost effective (except that, other than as part of respite care, they may not provide room and board for such recipients). With certain exceptions, a state's Medicaid plan must allow recipients to have some informed choices among participating providers of health care, and to receive quality care that is appropriate and timely.

## Payment for Services

Medicaid operates as a vendor payment program. States may pay providers directly, or states may pay for Medicaid services through various prepayment arrangements, such as health maintenance organizations (HMOs). Within federally imposed upper limits and specific restrictions, each state generally has broad discretion in determining the payment methodology and payment rate for
services. Generally, payment rates must be sufficient to enlist enough providers so that covered services are available at least to the extent that comparable care and services are available to the general population within that geographic area. Providers participating in Medicaid must accept Medicaid payment rates as payment in full. States must make additional payments to qualified hospitals that provide inpatient services to a disproportionate number of Medicaid recipients and/or to other low-income or uninsured persons under what is known as the "disproportionate share hospital" (DSH) adjustment. Excessive use of the DSH adjustment resulted in rapidly increasing federal expenditures for Medicaid. However, under legislation passed in 1991, 1993, and again within the BBA97, the state allotments for payments to DSH hospitals have become increasingly limited.

States may impose nominal deductibles, coinsurance, or co-payments on some Medicaid recipients for certain services. Certain Medicaid recipients, however, must be excluded from cost sharing: pregnant women, children under age 18, and hospital or nursing home patients who are expected to contribute most of their income to institutional care. In addition, all Medicaid recipients must be exempt from co-payments for emergency services and family planning services.

The federal government pays a share of the medical assistance expenditures under each state's Medicaid program. That share, known as the Federal Medical Assistance Percentage (FMAP), is determined annually by a formula that compares the state's average per capita income level with the national income average. States with a higher per capita income level are reimbursed a smaller share of their costs. By law, the FMAP cannot be lower than 50 percent nor higher than 83 percent. In 1999, the FMAPs varied from 50 percent in 10 states to 76.78 percent in Mississippi. The BBA97 perma-
nently raised the FMAP for the District of Columbia from 50 percent to 70 percent, and raised the FMAP for Alaska from 50 percent to 59.8 percent for 3 years. For the children added to Medicaid through the CHIP program, the FMAP average for all states is about 70 percent, compared to the Medicaid average of 57 percent.

The federal government also reimburses state's for 100 percent of the cost of services provided through facilities of the Indian Health Service; provides financial help to the 12 states that provide the highest number of emergency services to undocumented aliens; and shares in each state's expenditures for the administration of the Medicaid program. Most administrative costs are matched at 50 percent, although higher percentages are paid for certain activities such as development of mechanized claims processing systems.

Except for the CHIP program and the Ql program (described later). federal payments to states for medical assistance have no set limit (cap); rather, the federal government matches (at FMAP rates) state expenditures for the mandatory services plus the optional services that the individual state decides to cover for eligible recipients and matches (at the appropriate administrative rate) all necessary and proper administrative costs.

## Summary and Trends

Medicaid was initially formulated as a medical care extension of federally funded programs providing cash income assistance for the poor, with an emphasis on dependent children and their mothers, the disabled, and the elderly. Over the years, however, Medicaid eligibility has been incrementally expanded beyond its original ties with eligibility for cash programs. Legislation in the late 1980s assured Medicaid coverage to an expanded number of low-income pregnant women, poor children, and to some Medicare beneficiaries who are not
eligible for any cash assistance program. Legislative changes also focused on increased access, better quality of care, specific benefits, enhanced outreach programs, and fewer limits on services.

Since its inception, Medicaid has had very rapid growth in expenditures. Although the rate of increase has subsided recently, the acceleration over the years has been noteworthy. This rapid growth in Medicaid expenditures has been due to several factors, primarily:

- The expanded coverage and utilization of services, and the increase in the size of the Medicaid covered populations (a result of federal mandates, population growth, and the earlier economic recession);
- The disproportionate share hospital (DSH) payment program, coupled with provider tax and donations programs;
- The increase in the number of very old and disabled persons requiring extensive acute and/or long-term health care and various related services;
- The results of technological advances to keep more very low-birth weight babies and other critically ill or severely injured persons alive and in need of continued extensive and very expensive care; and
- The increase in payment rates to providers of health care services, when compared to general inflation.

As with all health insurance programs, most Medicaid recipients require relatively small average expenditures per person each year. Providing health care coverage for almost 17.5 million children, who otherwise would usually receive little or no medical care, has always been a primary concern of the Medicaid program. The data for 1997 indicate
that Medicaid payments for services for these children (who constitute over 51 percent of all Medicaid recipients) average about $\$ 1,500$ per child. However, certain other specific groups comprising far fewer persons have much larger per person expenditures. Regardless of their initial financial situation, their medical needs are so great and/or continuous that most of these patients must eventually depend upon Medicaid. When expenditures for these high and lower cost recipients are combined, 1997 payments to health care vendors for over 34 million Medicaid recipients averaged $\$ 3,680$ per person.

Long-term care is an important and increasingly utilized provision of Medicaid-especially as our nation's population ages. Almost 45 percent of the total cost of care for persons using nursing facility or home health services in the United States in recent years is paid for by the Medicaid program. A much larger percentage is paid for by Medicaid, however, for those persons who use more than 4 months of such long-term care. The data for 1997 show that Medicaid payments for nursing facility (excluding Intermediate Care Facilities for the Mentally Retarded: ICF/MRs) and home health care totaled $\$ 42.7$ billion for more than 3.4 million recipients of these services-an average 1997 expenditure of more than \$12,340 per long-term care recipient. With the percentage of our population who are elderly and/or disabled increasing faster than the younger groups, the need for long-term care is expected to increase.

Another significant development in Medicaid is the growth in managed care as an alternative service delivery concept different from the traditional fee-for-service system. Under managed care systems, health maintenance organizations (HMOs), prepaid health plans (PHPs) or comparable entities agree to provide a specific set of services to Medicaid enrollees, usually in return for a predetermined periodic payment per enrollee. Managed care programs seek to enhance access to
quality care in a cost-effective manner. Waivers may provide the states with greater flexibility in the design and implementation of their Medicaid programs. Waiver authority under sections 1915(b) and 1115 of the Social Security Act is important to the Medicaid program. Section 1915(b) of the law allows states to develop innovative health care delivery or reimbursement systems. Section 1115 of the law allows statewide health care reform demonstrations for testing various methods of covering uninsured populations and testing new delivery systems without increasing costs. Finally, the BBA97 provided states a new option to use managed care. The number of Medicaid beneficiaries enrolled in some form of managed care is growing rapidly. Several states have converted their entire Medicaid programs into managed care arrangements.

Medicaid data as reported by the states indicate that more than 34 million persons received health care service through the Medicaid program in 1997. Total outlays for the Medicaid program in 1997 included: direct payment to providers of $\$ 125$ billion, payments for various premiums (for example, HMOs and Medicare) of more than $\$ 20$ billion, payments to the disproportionate share hospitals of $\$ 15$ billion, and administrative costs of $\$ 6$ billion.

The total expenditure for the nation's program in 1998 was approximately $\$ 170$ billion ( $\$ 96$ billion in federal and $\$ 74$ billion in state funds). With anticipated impacts from the BBA97, projections now are that total Medicaid outlays may be $\$ 270$ billion in fiscal year 2004, with an additional $\$ 6.6$ billion expected to be spent for the new Children's Health Insurance Program.

## Medicaid-Medicare Relationship

Medicare beneficiaries who have low incomes and limited resources may also receive help from the Medicaid program. For persons who are eligible
for full Medicaid coverage, the Medicare health care coverage is supplemented by services that are available under their state's Medicaid program, according to eligibility category. These additional services may include-for example-nursing facility care beyond the 100 day limit covered by Medicare, prescription drugs, eyeglasses, and hearing aids. For persons enrolled in both programs, any services that are covered by Medicare are paid for by the Medicare program before any payments are made by the Medicaid program, since Medicaid is always "payor of last resort."

Certain other Medicare beneficiaries may receive help through their state Medicaid program. Qualified Medicare Beneficiaries (QMBs) and Specified Low-Income Medicare Beneficiaries (SLMBs) are the best known and the largest in numbers. QMBs are those Medicare beneficiaries who have resources at or below twice the standard allowed under the SSI program, and incomes at or below 100 percent of the FPL. This category includes persons who are eligible for full Medicaid coverage. For QMBs, the state pays the Hospital Insurance (HI) and Supplemental Medical Insurance (SMI) premiums and the Medicare coinsurance and deductibles, subject to limits that states may impose on payment rates. SLMBs are Medicare beneficiaries with resources like the QMBs, but with incomes that are higher, but still less than 120 percent of the FPL. For SLMBs, the Medicaid program only pays the SMI premiums. The Medicare law states that disabled and working individuals who previously qualified for Medicare because of disability but who lost entitlement because of their return to work (despite the disability) are allowed to purchase Medicare HI and SMI coverage. If these persons have incomes below 200 percent of the FPL, but who do not meet any other Medicaid assistance category, they may qualify to have Medicaid pay their HI premiums as Qualified Disabled and Working Individuals (QDWIs). According to HCFA estimates, Medicaid
currently provides some level of supplemental health coverage for 5 million persons who are Medicare beneficiaries in the above three categories for fiscal year 1996.

The BBA97 establishes a capped allocation to states for each of 5 years beginning January 1998, for payment of all or some of the Medicare SMI premiums for additional Medicare beneficiaries: those with incomes that are above 120 percent and less than 175 percent of the FPL. These income levels exceed those established for QMBs and SLMBs. These beneficiaries are known as Qualifying Individuals (Qls). Unlike QMBs and SLMBs who may be eligible for Medicaid benefits in addition to their QMB/SLMB benefits, the Qls cannot be otherwise eligible for medical assistance under a state plan. The payment of this QI benefit is 100 percent federally funded, up to the state's allocation. This QI program provides financial assistance to additional persons needing help in acquiring adequate health care coverage.

## Conclusion

The Department of Health and Human Services, the individual states, and the United States Congress continually seek to make improvements in the Medicare and Medicaid programs' coverage of needy individuals, and in the quality, effectiveness, and extent of health care services. However, these programs must function within the various federal and state constraints of serious economic, social, and political factors. As a result, federal and state regulations and laws continued to be reviewed for these very expensive, yet vitally important, Medicare and Medicaid programs.

Table 2.C2.-Federal medical assistance percentage and enchanced Federal medical assistance percentage

# Other Social Insurance and Veterans' Programs 

This section provides data on unemployment insurance, temporary disability insurance, Black Lung benefits, and veterans' benefits. Unemployment insurance is a federal-state program. Temporary disability insurance is in effect in seven jurisdictions. It is State administered in five states and the Commonwealth of Puerto Rico, and is administered by the Railroad Retirement Board for railroad workers. Federal benefits for veterans and dependents are administered by the Department of Veterans Affairs. The Social Security Administration generally has jurisdiction for Black Lung claims filed through June 1973. Claims filed after that date are administered by the Department of Labor.

## Unemployment Insurance

Through federal and state cooperation, unemployment insurance programs are designed to provide benefits to regularly employed members of the labor force who become involuntarily unemployed and who are able and willing to accept suitable employment. Workers in all 50 states, the District of Columbia, Puerto Rico, and the Virgin Islands are covered under unemployment insurance programs.

To induce states to enact unemployment insurance laws, the Social Security Act of 1935 provided a tax offset incentive. A uniform national tax was imposed on payrolls of industrial and commercial employers who employed eight or more workers in 20 or more weeks in a calendar year. Employers who paid taxes to a state with an approved unemployment insurance law could credit (offset) up to 90 percent of the state tax against the federal tax. This insured that employers in states without an unemployment insurance law would not have an advantage competing with similar businesses in states with such a law because they would still be subject to the federal payroll tax, and their employees would not be eligible for benefits.

In addition, the Social Security Act authorized grants to states to meet the costs of administering the state systems. By July 1937, all 48 states, the then territories of Alaska and Hawaii, and the District of Columbia had passed unemployment insurance laws. Later, Puerto Rico adopted its own unemployment insurance program,
which was incorporated in 1961 into the federal-state system. A similar program for workers in the Virgin Islands was added in 1978.

If employers are to receive an offset against federal taxes and if states are to receive federal grants for administration, federal law requires state unemployment insurance programs to meet certain requirements. These requirements are intended to assure that a state participating in the program has an unemployment insurance system that is fairly administered and financially secure.

One requirement is that all contributions collected under state laws be deposited in the unemployment trust fund of the U.S. Treasury Department. The fund is invested as a whole, but each state has a separate account to which its deposits and its share of interest on investments are credited. At any time, a state may withdraw money from its account in the trust fund, but only to pay benefits. Thus, unlike the situation in the majority of states having workers' compensation and temporary disability insurance laws, unemployment insurance benefits are paid exclusively through a public fund. Private plans cannot be substituted for the state plan.

Aside from federal standards, each state has major responsibility for the content and development of its unemployment insurance law. The state itself decides the amount and duration of benefits (except for certain federal requirements concerning Federal-State Extended Benefits); the contribution rates (with limitations); and, in general, the eligibility requirements
and disqualification provisions. The states also directly administer the programs-collecting contributions, maintaining wage records (where applicable), taking claims, determining eligibility, and paying benefits to unemployed workers.

## Coverage

Originally, coverage had been limited to employment covered by the Federal Unemployment Tax Act (FUTA), which relates primarily to industrial and commercial workers in private industry. However, several federal laws added substantially to the number and types of workers protected under the state programs, such as the Employment Security Amendments of 1970 and the Unemployment Compensation Amendments of 1976 .

Private employers in industry and commerce are subject to the law if they have one or more individuals employed on 1 day in each of 20 weeks during the current or preceding year, or if they paid wages of $\$ 1,500$ or more during any calendar quarter in the current or preceding year.

Agricultural workers are covered on farms with a quarterly payroll of at least $\$ 20,000$ or employing 10 or more employees in 20 weeks of the year. Domestic employees in private households are subject to FUTA if their employer pays wages of $\$ 1,000$ or more in a calendar quarter. Excluded from coverage are workers employed by their families and the self-employed.

Before 1976, employment in state and local governments and nonprofit organizations were exempt from FUTA. However, as a result of federal legislation enacted in 1976, most employment in these groups must now be covered by state law as a condition for securing federal approval of the state law. Under this form of coverage, local government and nonprofit employers have the option of making contributions as under FUTA or of reimbursing the state for benefit expenditures actually made. Elected officials, legislators,
members of the judiciary, and the state National Guard are still excluded, as are employees of nonprofit organizations that employ fewer than four workers in 20 weeks in the current or preceding calendar year. Many states have extended coverage beyond that provided by federal legislation.

Through special federal legislation, federal civilian employees and exservicemembers of the Armed Forces were brought under the unemployment insurance system. Benefits for these persons are financed through federal funds but are administered by the states and paid in accordance with the provisions of the state laws. Railroad workers are covered by a separate unemployment insurance law enacted by Congress.

## Eligibility for Benefits

Unemployment benefits are available as a matter of right (without a means test) to unemployed workers who have demonstrated their attachment to the labor force by a specified amount of recent work and/or earnings in covered employment. All workers whose employers contribute to or make payments in lieu of contributions to state unemployment funds, federal civilian employees, and ex-servicemembers are eligible if they are involuntarily unemployed, able to work, available for work, and actively seeking work. Workers must also meet the eligibility and qualifying requirements of the state law and be free from disqualifications. Workers who meet these eligibility conditions may still be denied benefits if they are found to be responsible for their own unemployment.

Work requirements.-A worker's monetary benefit rights are based on his or her employment in covered work over a prior reference period called the "base period," and these benefit rights remain fixed for a "benefit year." In most states, the base period is the first 4 quarters of the last 5 completed calendar quarters preceding the claim for unemployment benefits.

Benefits.-Under all state laws, the weekly benefit amount-that is, the amount payable for a week of total unemployment-varies with the worker's past wages within certain minimum and maximum limits. In most states, the formula is designed to compensate for a fraction of the usual weekly wage, normally about 50 percent, subject to specified dollar maximums.

Three-fourths of the laws use a formula that computes weekly benefits as a fraction of wages in one or more quarters of the base period. Most commonly, the fraction is taken of wages in the quarter during which wages were highest because this quarter most nearly reflects full-time work. In most of these states, the same fraction is used at all benefit levels. The other laws use a weighted schedule that gives a greater proportion of the high-quarter wages to lower paid workers than to those earning more.

Each state establishes a ceiling on the weekly benefit amount and no worker may receive an amount larger than the ceiling. The maximum may be either a fixed dollar amount or a flexible amount. Under the latter arrangement, which has been adopted in 35 jurisdictions, the maximum is adjusted automatically in accordance with the weekly wages of covered employees.

Twelve states and the District of Columbia provide additional allowances for certain dependents. They all include children under ages 16, 18, or 19 (and, generally, older if incapacitated); 9 states include a nonworking spouse; and 3 states consider other dependent relatives. The amount allowed per dependent varies considerably by state but generally is $\$ 20$ or less per week and, in the majority of states, the amount is the same for each dependent.

All but 11 states require a waiting period of 1 week of total unemployment before benefits can begin. Three states pay benefits retroactively for the waiting period if unemployment lasts a certain period or if the employee
returns to work within a specified period.

Except for two jurisdictions, states provide a statutory maximum duration of 26 weeks of benefits in a benefit year. However, jurisdictions vary the duration of benefits through various formulas.

## Extended Benefits

In the 1970s, a permanent federalstate program of Extended Benefits (EB) was established for workers who exhaust their entitlement to regular state benefits during periods of high unemployment. The program is financed equally from federal and state funds. Employment conditions in an individual state trigger Extended Benefits. This happens when the unemployment rate among insured workers in a state averages 5 percent or more over a 13 -week period, and is at least 20 percent higher than the rate for the same period in the 2 preceding years. If the insured unemployment rate reaches 6 percent, a state may by state law disregard the 20-percent requirement in initiating Extended Benefits. Once triggered, Extended Benefit provisions remain in effect for at least 13 weeks. When a state's benefit period ends, Extended Benefits to individual workers also end, even if they have received less than their potential entitlement and are still unemployed. Further, once a state's benefit period ends, another statewide period cannot begin for at least 13 weeks.

Most eligibility conditions for Extended Benefits and the weekly benefit payable are determined by state law. However, under federal law a claimant applying for Extended Benefits must have had 20 weeks in full-time employment (or the equivalent in insured wages) and must meet special work requirements. A worker who has exhausted his or her regular benefits is eligible for a 50 -percent increase in duration of benefits for a maximum of 13 weeks of Extended Benefits. There is, however, an overall
maximum of 39 weeks of regular and Extended Benefits. Extended Benefits are payable at the same rate as the weekly amount under the regular state program.

Because of the way Extended Benefits were triggered into effect, only nine jurisdictions qualified for them during the economic downturn of 1991. The Emergency Unemployment Compensation (EUC) program, which was in effect from 1991 to 1994, was the vehicle for payment of unemployment benefits after exhaustion of regular benefits during this recession. For a full discussion of the Emergency Unemployment Compensation program from 1991-94, see the 1995 Annual Statistical Supplement to the Social Security Bulletin, p. 112. However, the Extended Benefits program was revised in 1992 to make it more effective on an ongoing basis.

Prior to the 1992 legislation, the EB program was based on the insured unemployment rate (IUR)-the number of unemployed workers receiving benefits in a state as a percent of the number of persons in unemploymentinsurance covered employment in that state. By definition, the IUR does not include workers who have exhausted their benefits but are still unemployed.

The 1992 legislation (P.L. 102-318) provided states the option of adopting an additional formula for triggering the permanent Extended Benefits program. Effective March 1993, states had the option of amending their laws to use alternative total unemployment rate triggers in addition to the current insured unemployment rate triggers. Under this option, Extended Benefits would be paid when: (1) the state's seasonally adjusted total unemployment rate for the most recent 3 months is at least 6.5 percent, and (2) that rate is at least 110 percent of the state average total unemployment rate in the corresponding 3-month period in either of the 2 preceding years.

States triggering on to the Extended Benefits program under other triggers would provide the regular 26 weeks of unemployment benefits in addition to

13 weeks of Extended Benefits (which is the same number of weeks of benefits provided previously). In addition, states that have chosen the total unemployment rate option will also amend their state laws to add an additional 7 weeks of Extended Benefits (for a total of 20 weeks) where the total unemployment rate is at least 8 percent and is 110 percent of the state's total unemployment rate for the same 3 months in either of the 2 preceding years.

As of February 28, 1999, Extended Benefits were payable for 13 weeks in Alaska based on the insured unemployment rate.

## Black Lung Benefits

The Black Lung benefit program established by the Federal Coal Mine Health and Safety Act of 1969 provides monthly benefit payments to coal miners totally disabled as a result of pneumoconiosis, to the widows of coal miners who died as a result of pneumoconiosis, and to their dependents. The Social Security Administration (SSA) was responsible for the payment and administration of these Part B benefits (miner, survivor, and dependent) with respect to claims filed through June 30, 1973 (and certain survivor cases, before December 31, 1973).

On October 1, 1997, responsibility for maintenance and payment of Part B was transferred from SSA to the Department of Labor (DOL); SSA, however, maintains responsibility for conducting formal hearings necessary to resolve contested issues with respect to Part B claims. Only data on these Part B claims are reported on in this Supplement. Part C claims are reported in the OWCP Annual Report to Congress, U.S. Department of Labor, Office of Workers' Compensation Programs.

Under the Black Lung Benefits Act of 1972 , DOL was assigned jurisdiction over Part C benefits, generally claims filed July 1, 1973 and later. Different financing provisions are applicable to these claims.

Under the law, the basic Black Lung benefit rate is $37-1 / 2$ percent of the monthly pay rate for federal employees in the first step of grade GS-2. The basic rate to a miner or widow may be increased according to the number of qualified depend-ents- 50 percent of the basic benefit rate if one dependent qualifies, 75 percent for two dependents, and 100 percent for three or more dependents.

Since Black Lung payments are tied directly to federal employee salary scales, increases are automatically payable when federal salaries are increased.

Monthly benefit rates effective January 1, 1999 are:

Miner or widow ............. $\$ 469.50$
Miner or widow and
one dependent ............. 704.30
Miner or widow and
2 dependents ............... 821.60
Miner or widow and 3 or more dependents ..... 939.00

If a miner or surviving spouse is receiving workers' compensation, unemployment compensation, or disability insurance payments under state law, the Black Lung benefit is offset by the amount being paid under these other programs.

Under the 1972 amendments to the law, payments were extended to full orphans, parents, brothers, and sisters of deceased miners. Under earlier law, survivor payments were limited to widows and their dependent children (if the miner and spouse were both deceased, no benefits were payable to surviving children). The 1972 amendments also expanded coverage to include surface as well as underground coal miners.

## Temporary Disability Insurance

Five states, Puerto Rico, and the railroad industry have social insurance programs that partially compensate for the loss of wages caused by temporary nonoccupational disability or maternity. These programs are known as temporary disability insurance (TDI) because the duration of the payments is limited.

Federal law does not provide for a federal-state system of short-term disability comparable to the federalstate system of unemployment insurance. However, the Federal Unemployment Tax Act (FUTA) was amended in 1946 to permit states where employees made contributions under the unemployment insurance program to use some or all of these contributions for the payment of disability benefits (but not for administration). Three of the nine states that could have benefited by this provision for initial funding for temporary disability insurance took advantage of it: California, New Jersey, and Rhode Island. The first state law was enacted by Rhode Island in 1942, followed by legislation in California and the railroad industry in 1946, New Jersey in 1948, and New York in 1949. Then came a hiatus of two decades before Puerto Rico and Hawaii passed laws in 1968 and 1969, respectively.

The five state temporary disability insurance laws and the Puerto Rico law cover most commercial and industrial wage-and-salary workers in private employment if the employer has at least one worker. In no state is coverage under TDI identical with that of the unemployment insurance program. Principal occupational groups excluded are domestic workers, family workers (parent, child, or spouse of the employer), government employees, and the selfemployed. State and local government employees are included in Hawaii, and the other state programs
generally provide elective coverage for some or all public employees.

Agricultural workers are covered to varying degrees in California, Hawaii, New Jersey, and Puerto Rico, but they are not covered in other jurisdictions. The California law permits selfemployed individuals to elect coverage on a voluntary basis. Workers employed by railroads, railroad associations, and railroad unions are covered by temporary disability insurance under the national system included in the Railroad Unemployment Insurance Act.

The methods used for providing this protection vary. In Rhode Island, the coverage is provided through an exclusive, state-operated fund into which all contributions are paid and from which all benefits are disbursed. In addition, a covered employer may provide supplemental benefits in any manner he or she chooses. The railroad program is also exclusively publicly operated in conjunction with its unemployment insurance provisions.

In California, New Jersey, and Puerto Rico, coverage is provided through a state-operated fund, but employers are permitted to "contract out" of the state fund by purchasing group insurance from commercial insurance companies, by selfinsuring, or by negotiating an agreement with a union or employees' association. Coverage by the state fund is automatic unless or until an employer or the employees take positive action by substituting a private plan that meets the standards prescribed in the law and is approved by the administering agency. Premiums (in lieu of contributions) are then paid directly to the private plan, and benefits are paid to the workers affected.

The Hawaii and New York laws require employers to provide their own disability insurance plans for their workers-by setting up an approved self-insurance plan, by an agreement with employees or a union establishing a labor-manage-
ment benefit plan, or by purchasing group insurance from a commercial carrier. In New York, the employer may also provide protection through the State Insurance Fund, which is a state operated competitive carrier. Both Hawaii and New York operate special funds to pay benefits to workers who become disabled while unemployed or whose employers have failed to provide the required protection. In other jurisdictions, benefit payments for the disabled unemployed are made from the regular state-operated funds.

## Eligibility for Benefits

To qualify for benefits, a worker must fulfill certain requirements regarding past earnings or employment and must be disabled as defined in the law. In addition, claimants may be disqualified if they received certain types of income during the period of disability.

Earnings or employment require-ments.-A claimant must have a specified amount of past employment or earnings to qualify for benefits. However, in most jurisdictions with private plans, the plans either insure workers immediately upon their employment or, in some cases, require a short probationary period of employment, usually from 1 to 3 months. Upon cessation of employment after a specified period, a worker generally loses his or her private plan coverage and must look to a state created fund for such protection.

Disability requirements.-The laws generally define disability as inability to perform regular or customary work because of a physical or mental condition. Stricter requirements are imposed for disability during unemployment in New Jersey and New York. All the laws pay full benefits for disability due to pregnancy.

Disqualifying income.-A!l the laws restrict payment of disability benefits when the claimant is also receiving workers' compensation payments.

However, the statutes usually contain some exceptions to this rule (for example, if the workers' compensation is for partial disability or for previously incurred work disabilities).

The laws differ with respect to the treatment of sick leave payments. Rhode Island pays disability benefits in full even though the claimant draws wage continuation payments. New York deducts from the benefits any payment from the employer or from a fund contributed to by the employer, except for benefits paid pursuant to a collective bargaining agreement. In California, New Jersey, and Puerto Rico, benefits plus paid sick leave for any week during disability may not exceed the individual's weekly earnings before his or her disablement. Railroad workers are not eligible for TDI benefits while they receive sick leave pay.

In all seven temporary disability insurance systems, as with unemployment insurance, weekly benefit amounts are related to a claimant's previous earnings in covered employment. In general, the benefit amount for a week is intended to replace at least one-half the weekly wage loss for a limited time. All the laws, however, specify minimum and maximum amounts payable for a week. The maximum duration of benefits varies between 26 and 52 weeks. Hawaii, New York, and Puerto Rico provide for benefits of a uniform duration of 26 weeks for all claimants; California and the railroad program have maximum benefit periods of 52 weeks; New Jersey, 26 weeks; and Rhode Island, 30 weeks. Under the railroad program, duration varies between 26 weeks and 52 weeks, based on the total number of years of employment in the industry. In the other jurisdictions, limited predisability "base period" wages reduce benefit duration. A noncompensable waiting period of a week or 7 consecutive days of disability (4 days for railroad workers) is generally required before the payment of benefits for subsequent weeks.

The statutory provisions described above govern the benefits payable to employees covered by the stateoperated plans. In those states where private plans are permitted to participate, these provisions represent standards against which the private plan can be measured (in accordance with provisions in the state law).

## Financing and Administration

Under each of the laws, except for that governing the railroad program, employees may be required to contribute to the cost of the temporary disability benefit. In five of the jurisdictions (all but California and Rhode Island), employers are also required to contribute. In general, the government does not contribute.

Five of the seven temporary disability insurance programs are administered by the same agency that administers unemployment insurance. Under these five programs, the unemployment insurance administrative machinery is used to collect contributions, to maintain wage records, to determine eligibility, and to pay benefits to workers under the state-operated funds. The New York law is administered by the state Workers' Compensation Board, and the Hawaii law is administered separately in the Department of Labor and Industrial Relations.

By way of contrast, claims in New York and Hawaii are filed with and paid by the employer, the insurance carrier, or the union health and welfare fund that is operating the private plan. The state agency limits its functions with respect to employed workers to exercising general supervision over private plans, to setting standards of performance, and to adjudicating disputed claims arising between claimants and carriers. A similar situation applies to claimants under private plans in California, New Jersey, and Puerto Rico.

## Veterans' Benefits

A variety of programs and benefits is available to servicemembers and veterans of military service: disability payments, educational assistance, hospital and medical care, vocational rehabilitation, survivor and dependents benefits, special loan programs, and hiring preference for certain jobs. Most of the veterans programs are administered by the Department of Veterans Affairs.

## Monetary Benefits

Two major cash benefit programs are available for veterans. The first program provides benefits to veterans with service-connected disabilities and, on the veteran's death, benefits are paid to the eligible spouse and children. These benefits are not means tested-that is, they are payable regardless of other income or resources. The second program provides benefits to needy veterans who have nonservice-connected disabilities. These benefits are means tested.

Compensation for serviceconnected disabilities.-The disability compensation program pays monthly benefits to veterans whose disabilities resulted from injury or disease incurred while in or aggravated by active military duty, whether in wartime or peacetime. Individuals discharged or separated from military service under dishonorable conditions are not eligible for compensation payments. The amount of monthly compensation depends on the degree of disability, rated as the percentage of normal function lost. Payments in 1999 range from $\$ 96$ a month for a 10-percent disability to \$1,989 a month for total disability. Veterans who have at least a 30percent service-connected disability are entitled to an additional dependents allowance. The amount is based on the number of dependents and degree of disability.

Pensions for non-serviceconnected disabilities.-Monthly benefits are provided to wartime
veterans with limited income and resources who are totally and permanently disabled because of a condition not attributable to their military service. To qualify for these pensions, a veteran must have served in one or more of the following designated war periods: The Mexican Border Period, World War I, World War II, the Korean Conflict, the Vietnam Era, or the Gulf War. The period of service must have lasted at least 90 days, and the discharge or separation cannot have been dishonorable.

Effective December 1, 1998, maximum benefit amounts for non-serviceconnected disabilities range from $\$ 731$ per month for a veteran without a dependent spouse or child to $\$ 1,447$ per month for a veteran who is in need of regular aid and attendance and who has one dependent. For each additional dependent child, the pension is raised by $\$ 124$ per month.

Benefits for survivors.-The dependency and indemnity compensation (DIC) program provides monthly benefits to the surviving spouse, children (under age 18, disabled, or students), and certain parents of service persons or veterans who die as the result of an injury or disease incurred while in or aggravated by active duty or training or from a disability otherwise compensable under laws administered by the Department of Veterans Affairs.

Dependency and indemnity compensation payments may also be made if the veteran was receiving or was entitled to receive compensation for a service-connected disability at the time of death, and if certain conditions as to the severity of the disability are met.

Eligibility for survivor benefits based on a non-service-connected death of a veteran with a service-connected disability requires a marriage of at least a 1 -year duration before the veteran's death. A surviving spouse is generally required to have lived continuously with the veteran from marriage until his or her death. Eligibility for benefits generally ends with the spouse's remarriage.

The monthly benefit amount payable
to surviving spouses of veterans who died before January 1, 1993, depends on the last pay rate of the deceased service person or veteran. In 1999, for pay grades E-1 through E-6, a flat monthly rate of $\$ 861$ is paid to surviving spouses. Monthly benefits for grades E-7 through E-9 range between $\$ 896$ and $\$ 980$. For veterans who died after January 1, 1993, surviving spouses receive a flat $\$ 861$ a month. An additional $\$ 187$ a month will be paid to supplement the basic rate if the deceased veteran had been entitled to receive 100 -percent service-connected compensation for at least 8 years immediately preceding death. The amounts payable to eligible parents are lower and depend on: (1) The number of parents eligible, (2) their income, and (3) their marital status.

Pensions fornon-serviceconnected death.-Pensions are paid based on need to surviving spouses and dependent children (under age 18, disabled, or students) of deceased veterans of the wartime periods specified in the disability pension program. For a pension to be payable, the veteran generally must have met the same service requirements established for the non-service-connected disability pension program, and the surviving spouse must meet the same marriage requirements as under the dependency and indemnity compensation program.

The pension amount depends on the composition of the surviving family and the physical condition of the surviving spouse. Pensions range in 1999 from $\$ 490$ a month for a surviving spouse without dependent children to $\$ 935$ a month for a spouse who is in need of regular aid and attendance and who has a dependent child. The pension is raised by $\$ 124$ a month for each additional dependent child.

## Hospitalization <br> and Other Medical Care

The Department of Veterans Affairs provides a nationwide system of
hospital and other medical care for veterans. Eligibility for any particular medical program is based on a variety of factors. Care is furnished to eligible veterans at these facilities according to two categories: "Mandatory" and "discretionary". Within these two categories, veterans with non-serviceconnected disabilities must also have limited income and resources to be eligible for cost-free medical care from the Department.

Care for dependents and survi-vors.-The dependents and survivors of certain veterans may be eligible for medical care under the Civilian Health and Medical Program of the Department of Veterans Affairs (CHAMPVA) if not eligible for medical care under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) or Medicare. CHAMPUS is the health program administered by the Department of Defense for dependents of active duty personnel and military retirees and their dependents.

Beneficiaries covered by CHAMPVA may be treated at Department facilities when space is available. Usually, however, the person with CHAMPVA coverage is treated at a community hospital of his or her choice: The Department of Veterans Affairs pays for a part of the bill and the beneficiary is responsible for any required copayment.

Nursing home care.-Eligibility for admission to a Department of Veterans Affairs nursing home is the same as that for hospitalization in a Department facility. Admission is based on a priority system-with the highest priority given to veterans requiring nursing home care for a service-connected condition. The Department of Veterans Affairs also contracts with community nursing homes to provide care at Department expense to certain veterans.

Outpatient medical treatment.Extensive outpatient medical treatment is available to veterans: rehabilitation, consultation, training, and mental health services in connection with the treatment of physical and mental
disabilities. Outpatient care is furnished according to priority groups within the resources available to the facility.

Other medical benefits.-Other department of Veterans Affairs programs and medical benefits are available to certain eligible veterans: Domiciliary care for veterans with limited income who have permanent disabilities but who are ambulatory and able to care for themselves; alcohol and drug dependence treatment; prosthetic appliances; modifications in the veteran's home required by his or her physical condition, subject to prescribed cost limitations; and, for Vietnam-era veterans, readjustment counseling services. Under limited circumstances, the Department may authorize hospital care or other medical services in the community at Department expense.

## Educational Assistance

The post-Vietnam Veterans' Educational Assistance program (VEAP) is a voluntary contributory matching program for persons entering service after December 31, 1976. The servicemember must have initially contributed to VEAP before April 1, 1987, to be eligible. The Montgomery GI Bill-Active Duty program provides education benefits for individuals entering military service after June 30, 1985, and for certain other individuals. Servicemembers entering active duty have their basic pay reduced $\$ 100$ a month for the first 12 months of their service unless they specifically elect not to participate. An educational assistance program is also available for individuals who enter the Selected Reserve after June 30, 1985.

The Department of Veterans Affairs also pays educational assistance for dependents if a veteran is permanently and totally disabled from a servicerelated cause, or dies as a result of service or while completely disabled from service-related causes.

Income support programs are designed to provide benefits for persons with limited income and resources. The Supplemental Security Income (SSI) program discussed earlier and Temporary Assistance for Needy Families (TANF) are the major programs providing monthly payments. In addition, a number of programs provide money payments or in-kind benefits for special needs or purposes. Several programs offer food and nutritional services. The largest in terms of expenditures is the Food Stamp program. In addition, various federal-state programs provide energy assistance, public housing, and subsidized housing to individuals and families with low incomes. General assistance may also be available at the state or local level.

Public Law 104-193 (The Personal Responsibility and Work Opportunities Reconciliation Act of 1996, enacted on August 22, 1996) contained provisions that replaced the Aid to Families with Dependent Children (AFDC), Job Opportunities and Basic Skills (JOBS), and Emergency Assistance (EA) programs with the Temporary Assistance for Needy Families block grant program. The TANF became effective as soon as each state submitted a complete plan implementing TANF, but no later than July 1, 1997.

## Temporary Assistance for Needy Families

Temporary Assistance for Needy Families (TANF) provides assistance and work opportunities for participants. The TANF program was created by The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193). The law contains strong work requirements, a performance bonus to reward states for moving welfare recipients into jobs, state maintenance of effort requirements, comprehensive child support enforcement, and support for families moving from welfare to work, including increased funding for child care and guaranteed medical coverage.

States receive block grant allocations based on previous expenditures in AFDC, EA, and JOBS. States have broad flexibility to determine eligibility, methods of assistance, and benefit levels. The law includes a state maintenance of effort provision that requires states to spend on TANF-related activities, 80 percent of the amount of non-federal funds they spent in FY 1994 on AFDC and related programs.

Nearly all recipients must work after 2 years of assistance. Each state is required to have 35 percent of the families working or off the rolls by September 30, 1997, and half by 2002. Parents must work a prescribed number of hours per week: single parents, 25 hours in 1999 and 30 hours by the year 2000; couples, 35 hours. Work can be unsubsidized or subsidized employment, on-the-job training, work experience, community service, 12 months of vocational training, or child care provided to individuals participating in community service. Exceptions are allowed for 6 weeks of job search time, parents with a child under age 6 who cannot find child care, and single parents with children under age one.

States must make an initial assessment of recipients' skills and can develop personal responsibility plans that identify needed education, training, and job placement services. Various incentives are provided to states to encourage maintaining program spending levels.

Families cannot spend more than 5 cumulative years on TANF. States can specify a shorter period, and exempt up to 20 percent of the caseload from
the time limit. After the time limit is exceeded, they can elect to provide noncash assistance and vouchers to families using Social Services Block Grant or state funds.

Child care funding is provided to help more mothers move into jobs. Women on welfare continue to receive health coverage for their families, including a year or more of transitional Medicaid when they leave welfare for work.

To be eligible for TANF block grants, states must operate a child-support enforcement program meeting federal requirements. The Federal Case Registry and National Directory of New Hires will be used to track delinquent parents across state lines. Child support can be withheld directly from wages and paternity establishment is streamlined; cash assistance will be reduced by at least 25 percent in cases of failure to cooperate with paternity establishment. The law establishes uniform interstate child support laws, central registries of child support orders and collections, and toughened enforcement of child support.

Unmarried minor parents are required to live with a responsible adult or in an adult-supervised setting and participate in educational and training activities in order to receive assistance. Efforts are also to be undertaken to prevent nonmarital teen pregnancy.

## Food Stamps

The Food Stamp program was designed to provide a means for persons with no or little income to obtain a nutritionally adequate diet. Under this program, single persons and individuals living in households meeting nationwide standards for income and assets may receive coupons redeemable for food for human consumption and garden seeds and plants. The benefits, which are in the form of coupons or Electronic Benefit Transfer (EBT) payments, are accepted at most retail food stores.

The value of the benefits that a unit receives each month is determined by household size, income, and deductible expenses. Households without income receive an amount equal to 100 percent of the June monthly cost of the Thrifty Food Plan (TFP-a nutritionally adequate diet) for a reference family of four adjusted for household size and economies of scale. This amount is updated every October for the new fiscal year to account for food price increases. As of October 1998, an eligible four-person household in the continental United States with no income receives $\$ 419$ per month in food stamps. Households with income receive food stamps valued at the difference between the maximum allotment and 30 percent of their income, after certain allowable deductions.

To qualify for the program, a household must have (1) less than $\$ 2,000$ in disposable assets ( $\$ 3,000$, if one member is aged 60 or older), (2) gross income below 130 percent of the poverty guidelines for the household size, and (3) net income, after subtracting the six deductions listed below, of less than 100 percent of the poverty guidelines. Households with a person aged 60 or older or a disabled person receiving either Supplemental Security Income (SSI), Social Security (OASDI), state general assistance, or veterans' disability benefits (or interim disability assistance pending approval of any of the above programs) may have gross income exceeding 130
percent of the poverty guidelines, if, after subtracting the deductions listed below, the income is lower than 100 percent of the poverty guidelines. Oneand two-person households that meet the applicable standard receive at least $\$ 10$ a month in food stamps. All households in which all members receive Temporary Assistance to Needy Families (TANF) or SSI are categorically eligible for food stamps without meeting these income or resource criteria.

Net income is computed by deducting the following from monthly gross income:
(1) Twenty percent of earned income.
(2) A standard deduction of $\$ 134$ for fiscal year 1999.
(3) The amount paid for dependent care (up to \$200 a month per child under age 2 and $\$ 175$ for all other dependents) while the dependent's caretaker is working or looking for work.
(4) Any out-of-pocket medical expenses in excess of a $\$ 35$ deductible for a person aged 60 or older or a disabled person. If more than one person in the household is aged or disabled, $\$ 35$ is subtracted once before deducting combined medical expenses.
(5) A child-support deduction for legally obligated child support paid for a nonhousehold member.
(6) An excess shelter deduction, which is total shelter costs including utilities minus 50 percent of income after all the above deductions have been subtracted. Effective October 1, 1998 , the monthly limit is $\$ 275$ for households without aged or disabled persons. Households with an aged or disabled person do not have a limit on this deduction.

Households are certified to receive food stamps for varying lengths of time, depending on their income sources and
individual circumstances. Recertification is required at least annually. Households whose sole income is from SSI payments or Social Security benefits are certified for a 1-year period. Moreover, households must report monthly income or expense changes of $\$ 25$ or more or other changes in circumstances that would affect eligibility. Families with income or food loss resulting from disaster situations such as tornadoes or floods may be eligible for food stamps for up to 1 month if they meet the special disaster income and asset limits.

Special provisions allow the homeless, drug addicts, alcoholics, blind, or disabled residents in certain group living arrangements, residents of shelters for battered spouses and children, and persons aged 60 or older to use their coupons for meals prepared at a nonprofit facility. The elderly and homeless may also use their coupons to purchase concessionpriced meals from authorized restaurants. Households with members who are elderly (aged 60 or older), disabled, or lack transportation to the food stamp office may be certified for food stamps through a telephone interview or a home visit.

Initiated on a pilot basis in 1961, the Food Stamp program was formally established by the Food Stamp Act of 1964, with 22 states operating 43 projects, serving 350,000 people. The Food Stamp Act of 1977, as amended (P.L. 95-113), has been extended to all 50 states, the District of Columbia, Guam, and the Virgin Islands. Authorization for this program extends through September 30, 2002. (Since July 1982, Puerto Rico receives a block grant for nutrition assistance rather than participating in the Food Stamp program.)

The Food Stamp program is administered nationally by the Food and Nutrition Service of the Department of Agriculture (USDA) and operates through local welfare offices and the nation's food marketing and banking systems. Since August 1, 1980, persons receiving or applying for SSI payments have been permitted to
apply for food stamps through local Social Security district offices. The federal government, through general revenues, pays the entire cost of the food stamp benefits, but federal and state agencies share administrative costs.

## History of Provisions

Originally, food stamp coupons were purchased by participants. The difference between the face value of the coupons and the amount the participant paid was known as the "bonus value." The amount paid for coupons varied according to household income.

Legislation in 1971 established uniform national eligibility standards and uniform national benefit levels, required family allotments large enough to purchase a nutritionally adequate diet, provided free food stamps to the poorest recipients, required automatic cost-of-living increases in food stamp allotments, and established workregistration requirements for ablebodied adult household members up to age 65 (except students and those needed at home to care for children under age 18). Legislation in 1973 expanded the program (while phasing out the family food distribution program), provided for semi-annual allotments of coupon adjustments, and broadened the categories of persons eligible to participate.

The 1973 legislation extended the program nationwide, requiring all states to participate in the Food Stamp program.

Major legislative changes in 1977 eliminated the purchase requirement and allowed households to receive only the bonus portion of their coupon allotments. Deductions from income were limited to a standard deduction, a 20-percent earnings deduction, and a limited combined excess shelter and child-care deduction. The poverty guidelines became the new eligibility limits and, for the first time, households receiving Aid to Families with Dependent Children (AFDC) or SSI payments were required to meet asset
and income limits. The work registration requirements were tightened for students and for caretakers, whose children now had to be under age 12. Previously exempt, parents of children aged 12 or older were required to register for work. The age at which the registration exemption for older persons became effective was lowered from age 65 to age 60 .

Legislation in 1979 provided a medical deduction to aged and disabled persons, removed the limit on their shelter deduction, and tightened fraud provisions.

The 1980 legislation provided for an annual, rather than semi-annual, adjustment to benefit levels and the amount of the standard deduction. This legislation also restricted student eligibility.

The Omnibus Budget Reconciliation Act and the Food Stamp and Commodity Distribution Amendments of 1981 mandated further changes in the Food Stamp program. For the first time, a "gross income" eligibility standard was applied to all households not containing an aged or disabled person. The earnings deduction was lowered to 18 percent. The updates to the TFP to account for inflation were postponed until October 1982 and the deduction limits were postponed until July 1983. For new participants, benefits for the first month were prorated from the day the application was filed. Boarders and persons who take part in strikes were excluded from the program and the definition of what constitutes a household was tightened. Provisions facilitating claims and overpayment collection and fraud recovery were also enacted. The program in Puerto Rico was replaced by a block grant and monthly reporting/retrospective accounting systems were made mandatory for all states, effective October 1983. However, households composed solely of all aged or disabled persons, as defined above, were exempted from the monthly reporting requirements, and migrant households were exempted from both requirements.

Further revisions were made by the

Food Stamp Amendments of 1982. Among changes, the maximum allotments were reduced from 100 percent to 99 percent of the TFP and adjustments to the standard and shelter deductions were delayed until October 1, 1983. (Public Law 98-473 restored maximum food stamp allotments to the full cost of the TFP beginning November 1, 1984.) A net income limit for nonelderly and nondisabled households was added to the existing gross income limit. Benefit computations and adjustments were rounded down to the nearest dollar, and new restrictions were placed on the use of the Standard Utility Allowance for the excess shelter expense deduction. At the same time, the definition of disability for food stamp purposes was expanded to include those persons receiving certain veterans' payments, and annual cost-of-living adjustments to SSI payments and Social Security benefits were not counted in determining food stamp amounts for 3 months.

The Food Stamp program authorization was extended for 5 years by the Food Security Act of 1985 (P.L. 99198). Among the revisions enacted, the definition of disability for food stamp purposes was again extended to include recipients of State supplementary SSI payments, government disability benefits, and Railroad Retirement disability payments. Households in which all members receive AFDC or SSI were made categorically eligible for food stamps. The earned income, child care, excess shelter cost deductions, and asset limits were increased as of May 1986. Portions of the income received under the Job Training Partnership Act were now considered countable income. Further, all states were required to implement an employment and training program for food stamp recipients by April 1987.

The Hunger Prevention Act of 1988 (P.L. 100-435) made several changes in the program. It raised the maximum food stamp allotments and established allotments as specified percents of the TFP as of the preceding June. For
fiscal year 1989, the allotments were 100.65 percent of the TFP for June 1988; for fiscal year 1990, they were 102.05 percent of the TFP for June 1989; and for fiscal years 1991 and on, they are to be 103.00 percent of the TFP.

Other provisions of the 1988 legislation required states to institute prospective budgeting for households not required to report monthly and retrospective budgeting for households reporting monthly. It extended disability status to individuals who receive interim assistance pending the receipt of SSI, Social Security, or state disability payments, and allowed the elderly, disabled, and those without transportation to apply for food stamps via telephone interviews. It required states to process food stamp applications jointly with AFDC and general assistance applications. It raised the dependent-care deduction from $\$ 160$ per household to $\$ 160$ per dependent. It made permanent an amendment in the Homeless Eligibility Clarification Act that exempts residents of shelters from ineligibility as residents of institutions.

Several provisions of the 1988 legislation also affect persons in farming. Households with farm income and expenses were given the option of averaging irregular farm-related expenses and farm income over 12 months and excluding as resources the value of farm land, equipment, and supplies for a period of 1 year after a household member ceases to be selfemployed in farming.

The Mickey Leland Memorial Domestic Hunger Relief Act of 1990 reauthorized the Food Stamp program and the Nutrition Assistance Program in Puerto Rico with no major changes through fiscal year 1995.

Legislation enacted in 1992 prevented a one-time decrease of food stamp allotments for the year beginning October 1, 1992, even though the cost of the TFP had declined slightly.

The Omnibus Budget Reconciliation Act of 1993 (Mickey Leland Childhood Hunger Relief Act) made a number
of program revisions including the following.

- The earnings of elementary or high school students who are aged 21 or younger are disregarded.
- Households that have breaks in participation of less than a month are allowed to receive a full month's benefit for the period of the break.
- The children of drug addicts and alcoholics living in treatment centers are permitted to qualify for food stamps.
- Food stamp households participating in demonstration projects are permitted to accumulate up to $\$ 10,000$ in resources.
- The shelter cap was raised to \$231 beginning July 1, 1994, $\$ 247$ beginning October 1995, and will be eliminated entirely on January 1, 1997.
- The deduction for care of a child or other dependent was raised to $\$ 200$ per month for a child under age 2, and $\$ 175$ per month for all other dependents, effective September 1, 1994.
- State agencies were given the option to provide deductions for legally binding child-support payments made to persons outside the household, effective September 1, 1994. This deduction became mandatory October 1, 1995.
- The definition of a food stamp household has been simplified to allow adult siblings who live together and adult children who live with their parents to form separate households if they purchase or prepare food separately.
- The amount of the Fair Market Value of a household's first vehicle that is excluded from the asset test was increased from $\$ 4,500$ to $\$ 4,550$, effective

September 1, 1995. The limit was to have been raised to $\$ 5,000$, effective October 1, 1996, and indexed thereafter.

Legislation enacted in 1994 primarily provided means to combat fraud in the coupon redemption process. Legislation enacted in 1995, prevented a onetime decrease of food stamp allotments in Alaska for the year beginning October 1, 1994, even though the cost of the TFP for Alaska had deciined slightly.

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 made sweeping changes to the Food Stamp program. Additional restrictions were placed on the eligibility of certain low-income persons.

- Legal immigrants became ineligible for benefits, unless they met one of the following criteria: were naturalized citizens, had worked and paid taxes in the country for 40 quarters (or were the spouse or minor child of someone who had met the work requirement), had served in the United States Armed Forces (or were the spouse or child or a veteran) or were refugees, asylees, or persons granted a stay of deportation when admitted and have lived in the United States for less than 5 years. Legal immigrants currently receiving benefits were allowed to receive benefits until their first recertification after April 1, 1997, or until August 22, 1997, whichever date came first.
- Time limits were imposed for childless unemployed adults aged 18-50. Those who are not disabled are limited to receiving 3 months of benefits in any 36 -month period, unless they are working 20 hours per week, participating in a work training program for at least 20 hours per week, or participating in work fare. states may request waivers for areas with at least 10-percent
unemployment or insufficient jobs.

Other key provisions include the following:

- The maximum allotment is set at 100 percent of the Thrifty Food Plan, effective October 1, 1996.
- The standard deduction is frozen at \$134.
- The excess shelter deduction cap was set at $\$ 250$, effective January 1, 1997 (instead of being lifted), to be raised to $\$ 275$ on October 1, 1998, and \$300 on October 1, 2000.
- The earnings of elementary or high school students aged 18-21 are counted again.
- Households with breaks in participation of less than a month receive prorated benefits for the period of the break.
- Adult children under age 22 living with their parents must be counted in the same household as their parents.
- The amount of Fair Market Value for a household's first vehicle that is excluded from the asset test is frozen at $\$ 4,650$, effective October 1, 1996.
- State and local energy assistance is counted as income. Recipients can be disqualified or given sanctions for a variety of reasons, such as failure to pay child support, receipt of multiple benefits, or failure to meet work requirements.
- States are permitted to operate a simplified Food Stamp program for households in which all household members participate in the state's Temporary Assistance for Needy Families program. In the simplified Food Stamp program, states may utilize their TANF rules to determine Food Stamp program benefits provided the TANF rules do not increase
the aggregate cost of the Food Stamp program.
- States are required to implement Electronic Benefit Transfer (EBT) systems for issuing benefits before October 1,2002 , unless USDA granted a waiver.

The Balanced Budget Act of 1997 increased funds for the Food Stamp Employment and Training program, restricted the use of these funds, and made them available until spent. States were required to earmark 80 percent of these funds to provide work or training programs to childless, unemployed, able-bodied 18-50 year olds. The Act also allowed states to grant discretionary exemptions from the time limits for up to 15 percent of a state's unwaived caseload of childless, unemployed, able-bodied 18-50 year olds.

The Agricultural Research, Extension, and Education Reform Act of 1998 partially restored benefits to legal immigrants. Those who were lawfully residing in the United States on August 22, 1996, and are either: (1) blind or disabled (using the Food Stamp Act definition of "disability"), (2) aged 65 or older on August 22, 1996, or (3) under the age of 18 were eligible for benefits effective November 1, 1998. In addition, refugees and asylees were made eligible for the first 7 years after admittance into the United States (extended from 5 years). Members of Hmong or Highland Laotian tribes aiding U.S. personnel during the Vietnam War, and their spouses or unmarried dependent children were made eligible. Cross-border Native Americans were also made eligible.

Other provisions reduced the funding for Employment and Training Programs by $\$ 100$ million in 1999 and by $\$ 45$ million in 2000 and reduced payments for Food Stamp program administrative costs.

An estimated 19.8 million persons per month participated in the Food Stamp program during fiscal year 1998. The average monthly value of food stamps per person was about $\$ 71.09$
and the total value of benefits issued during the year was $\$ 16.9$ billion. Total federal government costs for this program were $\$ 18.9$ billion.

## Low-Income Home

## Energy Assistance Program

The Omnibus Budget Reconciliation Act of 1981 (P.L. 97-35), signed into law by the President on August 13, 1981, authorized seven block grants to be administered by the Department of Health and Human Services (HHS). ${ }^{1}$ Since its authorization, LIHEAP has been reauthorized as follows:
(1) Title XXVI of the Act authorized the Low-Income Home Energy Assistance Program (LIHEAP) for fiscal years 1982-84.
(2) Title VI of the Human Services Reauthorization Act of 1984 (P.L. 98-88) reauthorized and amended LIHEAP for fiscal years 1985-86.
(3) Title V of the Human Services Reauthorization Act of 1986 (P.L. 99-425) reauthorized and amended LIHEAP for fiscal years 1987-90.
(4) Title VII of the Augustus F. Hawkins Human Services Reauthorization Act of 1990 (P.L. 101-501) reauthorized and amended LIHEAP for fiscal years 1991-94.
(5) Title $X X$ of the National Institutes of Health Revitalization Act of 1993 (P.L. 103-43) reauthorized LIHEAP for fiscal year 1995.
(6) Title III of the Human Services Amendments of 1994 (P.L. 103-252) reauthorized and amended LIHEAP for fiscal years 1995-99.
(7) Title $V$ of the Coats Human Service Reauthorization Act of 1988 (P.L. 105-285) reauthorized and amended LIHEAP for fiscal years 2000-04.

[^30]Reauthorizing the LIHEAP program for fiscal year 1995 through fiscal year 1999, the Human Services Amendments of 1994, P.L. 103-252, made a number of revisions to the LIHEAP statute. The following changes became effective in fiscal year 1996:
(1) Residential Energy Assistance Challenge Option (REACH) program. A new section 2607B was added to provide for the REACH program, which was funded for the first time in fiscal year 1996. REACH is designed to make competitive grants for implementation through local community based agencies of innovative plans to heip LIHEAP eligibile households reduce their energy vulnerability. REACH funds are available on a competitive basis only to LIHEAP grantees (states and the District of Columbia, Indian tribes/tribal organizations, and insular areas.
(2) Assurance 16 activities. A new section 2605(b)(16) was added to provide for Assurance 16 activities. This provision gives grantees the authority "to use up to 5 percent of their LIHEAP funds, at their option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for emergency assistance, including needs assessments, counseling and assistance with energy vendors. .. ."

Under LIHEAP, grants are provided to grantees to assist eligible households to meet the costs of home energy. In addition to the 50 states and the District of Columbia, grants were provided in fiscal year 1996 to the Commonwealth of Puerto Rico, five insular areas, and 123 Indian tribes or tribal organizations. Fiscal year 1996 represents the seventeenth
year that an energy assistance program has been administered at the federal level by HHS.

In accordance with the Act, the Secretary of HHS has left maximum policy discretion to the states. Many requirements applicable to the predecessor program in fiscal year 1981, LIEAP (P.L. 96-223), were removed, including HHS approval of state plans. The federal information collection and reporting requirements for states were substantially reduced to require only information essential to federal administration and congressional oversight. State decisions, directed by public participation in the development of grant applications, largely replaced federal regulations in shaping the program for fiscal years 1982-96.

## Funding

For fiscal year 1996, $\$ 1$ billion were appropriated for LIHEAP as advanced funding under P.L. 103-333. The Health and Human Services appropriations act for fiscal year 1996 (P.L. 104-134) rescinded $\$ 100$ of the advance appropriation, leaving a total of $\$ 900$ million. The $\$ 900$ million appropriation included $\$ 22.5$ million for the LIHEAP leveraging incentive fund. Twenty-five percent of the leveraging incentive grants (\$5.9 million) were awarded as REACH funds to six states and four tribes and tribal organizations. In response to the extraordinary cold wave during the winter 1995-96, LIHEAP grantees received $\$ 180$ million in emergency contingency funds authorized under P.L. 104-19. Fiscal year 1996 funds were distributed approximately as follows to LIHEAP grantees: ${ }^{2}$
(1) $\$ 1.07$ billion to the states and the District of Columbia,
(2) $\$ 8.3$ million in direct grants to 123 Indian tribes and tribal organizations, and

[^31](3) $\$ 1.4$ million to the Commonwealth of Puerto Rico, Virgin Islands, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands/Palau.

The funds appropriated for LIHEAP provide payments to eligible households for heating or cooling costs and for home energy crises. Up to 15 percent of the available funds may be used for low-cost residential weatherization or other energy-related home repairs. Grantees can request from HHS a waiver to allow up to 25 percent of available funds to be spent for low-cost residential weatherization or other energy-related home repairs.

To receive grants in fiscal year 1996, each grantee had to submit an application consisting of assurances by its chief executive officer and a plan describing how the state would carry out those assurances. In the assurances, the state agreed to:
(1) use funds only for the purposes of the statute;
(2) make payments only to eligible low-income households;
(3) conduct outreach activities;
(4) coordinate LIHEAP activities with similar and related programs;
(5) provide, in a timely manner, that the highest level of assistance will be furnished to those households with the lowest incomes and highest energy costs in relation to income, taking into account family size, except that the state may not differentiate between categorically eligible and income eligible households;
(6) give consideration to agencies that have previously managed the program when designating local agencies to carry out the purposes of the program;
(7) assure that energy suppliers receiving benefits directly on
behalf of eligible households not treat assisted households adversely;
(8) treat owners and renters equitably;
(9) use not more than 10 percent of its allotment for planning and administration;
(10) establish fiscal control and accounting procedures for proper disbursal of and accounting for federal funds, establish procedures for monitoring assistance provided, and prepare an annual audit;
(11) permit and cooperate with federal investigations;
(12) provide for public participation in the development of its plan;
(13) provide an opportunity for a fair administrative hearing to individuals whose claims for assistance are denied or not acted on with reasonable promptness;
(14) cooperate with HHS in collecting and reporting data under section 2610 of the statute;
(15) provide outreach and intake through additional state and local government entities or community-based organizations under certain circumstances; and
(16) use no more than 5 percent of funds to encourage and enable households to reduce their home energy needs.

## Eligibility

The unit of eligibility for energy assistance is the household, defined as any individual or group of individuals who are living together as one economic unit for which residential energy is customarily purchased in common, either directly or through rent. The Act limits payments to those households with incomes under the greater of 150 percent of the
income guidelines or 60 percent of the state's median income; or to those households with members receiving Aid to Families with Dependent Children (AFDC) (replaced by the Temporary Assistance for Needy Families (TANF) program), Supplemental Security Income (SSI), food stamps, or need-tested veterans' benefits. No household may be excluded from eligibility on the basis of income alone if household income is less than 110 percent of the poverty guidelines. States are permitted to set more restrictive criteria as well.

## Payments

States make fuel assistance payments directly to eligible households or to home energy suppliers on behalf of eligible households. Payments can be provided in cash, fuel, prepaid utility bills, or as vouchers, stamps, or coupons that can be used in exchange for energy supplies.
Payments are to vary in such a way that the highest level of assistance is furnished to households with the lowest income and highest energy costs in relation to income, taking into account family size.

CONTACT: Leon Litow (202) 401-5304 for further information.

## Adult Assistance

The adult assistance programs include Old-Age Assistance (OAA), Aid to the Blind (AB), and Aid to the Permanently and Totally Disabled (APTD). These programs of federal grants to atates were in effect in the 50 states and the District of Columbia until January 1974, when they were replaced by the federally administered Supplemental Security Income (SSI) program. The 1972 Amendments to the Social Security Act, which established the SSI program, provided for the continuation of OAA, AB, and APTD in Puerto Rico, Guam and the Virgin Islands.

## General Assistance

General assistance refers to money payments or payments to vendors to or on behalf of needy persons who do not qualify for federally financed assistance programs or who require additional assistance. It is provided by state and local government jurisdictions, and is not financed in whole or in part by federal funds.

Eligibility requirements and payment levels of general assistance programs vary from state to state and often within a state. Payment levels are usually lower than those provided by federally financed programs and may be of limited duration. Recipients include unemployed persons and persons whose disabilities are not of sufficient severity to qualify for Supplemental Security Income (SSI).

General assistance may be administered by the state welfare agency, a local agency, or a local agency under state supervision.

## Administrative Data

This section contains 11 tables presenting statistical data on administrative aspects of the operations of the Social Security Administration. These tables include information on the number of field offices and service centers; staff size and employment of minorities; women and persons with disabilities; claims workloads; service delivery; and hearings and appeals.

Data for years since 1994 appear in the 1995 and subsequent issues of the Annual Statistical Supplement to the Social Security Bulletin. Comparable data for previous years were published yearly in the Social Security Administration's Annual Report to the Congress.

## 2.F Administrative Data: Offices and Staff

## SSA Offices and Staff

Table 2.F1.-Number of SSA offices, 1998

${ }^{1}$ Regional offices are located in: Boston, MA; New York, NY; Philadelphia, PA; Atlanta, GA; Chicago, IL; Dallas, TX; Kansas City, MO; Denver, CO; San Francisco, CA; and Seattle, WA.
${ }^{2}$ In December 1997, the field office structure was revised. All SSA field offices were redesignated as Level 1, 2, or resident stations depending on the characteristics of the facility and the service area, and other conditions.
${ }^{3}$ Program service centers are located in: Jamaica, NY; Philadelphia, PA; Birmingham, AL; Chicago, IL; Kansas City, MO; and Richmond, CA.
${ }^{4}$ The data operations center is located in Wilkes-Barre, PA.
${ }^{5}$ Includes one satellite and eight temporary offices.

## Social Welfare and the Economy

## Tables

| $3 A$ | Social Welfare Expenditures |
| :--- | :--- |
| $3 B$ | Employment and Earnings |
| $3 C$ | Interprogram Data |
| $3 E$ | Poverty |

## Social Welfare and the Economy Highlights

- Social welfare expenditures under public programs were $\$ 1,505.1$ billion in fiscal year 1995. These expenditures were equal to 20.9 percent of gross domestic product (GDP), virtually unchanged from 21.0 percent in 1994. Between 1994 and 1995, GDP grew by 5.1 percent while social welfare expenditures rose by 4.8 percent.
- In calendar year 1994, private social welfare expenditures were $\$ 925.0$ billion or 13.5 percent of GDP, as compared with 13.7 percent in 1993.
- The poverty income threshold in 1998 was $\$ 7,818$ for an individual aged 65 or older, $\$ 9,863$ for a couple where the householder was aged 65 or older, and $\$ 16,655$ for a four-person family.
- In 1997, 13.3 percent of the U.S. population had income below the poverty level. The comparable 1996 figure was 13.7 percent. The poverty rate for children under age 18 living in families was 19.2 percent in 1997, down from 20.2 percent in 1996. The proportion of persons aged 65 or older with below poverty-level income in 1997 was 10.5 percent, down from 10.8 percent in 1996.

${ }^{1}$ For OASDI-HI contribution rates and wage base, see table 2.A3. Beginning in 1952 ( 1959 for DI, 1968 for HI) employer and employee contributions differ by estimated amount of refunds of employee tax overpayments and, beginning in 1966, by employee tax on tips. For SMI premium rates, see table 2.C1.
${ }^{2}$ Represents cost of gratuitous military service wage credits and, for OASI only, federal payments for special age-72 benefits. Beginning in 1984, includes tax credits on 1984 wages and 1984-89 self-employment income and subsequent minor adjustments. For HI only, also represents transfers of appropriations for HI benefits of persons not insured for cash benefits under OASI, DI, or Railroad Retirement and, beginning in 1978, transfers for Professional Standards Review Organization review expenditures. Beginning in 1983, includes taxes on deemed wage credits for military service performed after 1956, in lieu of reimbursements for the costs of such credits. For Railroad Retirement, represents transfers from appropriations for cost of military service credits and, beginning in 1976, cost of phasing out dual benefits exclusive of income tax transfers.
${ }^{3}$ Beginning in July 1973, aged ineligibles may voluntarily enroll for HI.
${ }^{4}$ Includes premiums paid on behalf of eligibles by state govemments under "buy-in" arrangements.
${ }^{5}$ Beginning in 1966, excludes HI contributions and includes employer contributions to supplemental benefit account.
${ }^{6}$ Data not available.
7 Employer share represents federal and District of Columbia govemment contributions; employee share includes voluntary contributions to purchase additional annuity. Beginning in 1980, estimated by the Social Security Administration from fiscal year data.
${ }^{8}$ Estimated by Social Security Administration from Bureau of the Census fiscal year data. Employer share represents government contribution.

1 Includes persons receiving OASDI, SSI, or both.
2 The number of OASDI disabled adult child beneficiaries aged 18-64 also receiving SSI was estimated based on the number of such beneficiaries aged 18 or older for the same year and on the comparative size of the two groups at the end of 1988.
${ }^{3}$ December data for OA.SDI disabled beneficiaries also receiving SSI not available. Instead the average of the September 1989 and March 1990 numbers was used.
Note: For more recent data, see table 1.E2 in the Social Security Bulletin.

## 3.C Interprogram Data

Table 3.C7.-Number and percentage distribution of persons aged 15 or older with Social Security benefits or with Supplemental Security Income, by age, sex, race, March 1998, and median amount, 19971

Separate figures for Alaska and Hawaii reflect Office of Economic Opportunity administrative practice beginning in the 1966-70 period. The U.S.Census Bureau, producer of the primary version of the poverty measure, does not produce separate figures for Alaska and Hawaii.

2 Before 1983, guidelines are for nonfarm families only.
${ }^{3}$ Guidelines shown are effective from date of issuance.
${ }^{4}$ Add this amount for each additional family member. Before 1973, increments between some of the smaller family sizes differed from the increment shown in the table. Beginning in 1973, the increment has been the same between all family sizes in each year's set of guidelines.

OASDI
Program Highlights, 1998

## Program Changes

Social Security benefits for December 1998, were increased by a 1.3 percent cost-of-living adjustment (COLA), reflecting the continued downward trend in the national inflation rate that began in 1991. The benefit increase for December 1997 was 2.1 percent.

The maximum amount of earnings subject to OASDI taxes increased from $\$ 68,400$ in 1998 to $\$ 72,600$ in 1999. The amount of earnings needed to earn a quarter of coverage increased from $\$ 700$ in 1998 to $\$ 740$ in 1999.

The amount beneficiaries aged 65-69 may earn without having benefits withheld under the earnings test increased from \$14,500 in 1998 to $\$ 15,500$ in 1999. Corresponding amounts for beneficiaries under age 65 are $\$ 9,120$ and $\$ 9,600$, respectively. For beneficiaries aged 65-69, benefits are reduced by $\$ 1$ for each $\$ 3$ of earnings. For those under age 65 the reduction in benefits is $\$ 1$ for each $\$ 2$ of earnings. The earnings test does not apply to beneficiaries aged 70 or older.

## Program Trends

- In December 1998, 44,245,700 persons received Social Security benefits, an increase of 274,600 ( 0.6 percent) since December 1997. Sixty-two percent were retired workers $(27,510,500)$, and 10.8 percent were nondisabled widows and widowers $(4,795,700)$.
- Seventy-two percent of the 27.5 million retired worker beneficiaries received reduced benefits because of retirement prior to age 65. Relatively more women ( 75 percent) than men ( 69 percent) received reduced benefits.
- The number of persons aged 65 or older receiving Social Security benefits rose from 30.8 million in 1993 to 32.0 million in 1998 ( 3.7 percent). Beneficiaries aged 85 or older increased at a greater rate during the 5 -year period- 14.8 percent-from 3,374,000 in 1993 to $3,873,000$ in 1998. In 1998, 39,200 centenarians were receiving Social Security.
- Almost 3 million children under age 18 were receiving benefits, including 1,363,400 surviving children, 1,360,800 children of disabled workers, and 238,500 children of retired workers.
- In December 1998, 5,605,300 beneficiaries were receiving payments on the basis of disability-4,698,300 disabled workers, 712,800 disabled adult children, and 194,200 disabled widows and widowers. In addition 189,800 spouses and 1,392,000 minor and student children of disabled workers were receiving benefits.
- The leading causes of disability for the 4.7 million disabled workers were mental disorders (other than mental retardation)27 percent and musculoskeletal conditions-22 percent. About 12 percent had circulatory conditions and an additional 10 percent had diseases of the nervous system and sense organs.
- Average monthly benefits for December 1998, including the 1.3 percent COLA increase, were $\$ 780$ for retired workers, $\$ 733$ for disabled workers, and $\$ 749$ for nondisabled widows and widowers. Among retired workers, benefits averaged $\$ 877$ for men and $\$ 676$ for women. For disabled workers, average benefits were $\$ 823$ for men and $\$ 608$ for women.
- Average monthly family benefits for December 1998 were $\$ 1,380$ for a widowed mother or father and children; $\$ 1,233$ for a disabled worker wife and children; and $\$ 1,493$ for a retired worker, wife and children.
- Total OASDI benefit payments for calendar year 1998 were $\$ 375$ billion. Payments from the Old-Age and Survivors Insurance Trust Fund were $\$ 326.8$ billion-an increase of 3.3 percent from the $\$ 316.3$ billion paid in 1997.
- Benefit payments from the Disability Insurance Trust Fund, from which benefits are paid to disabled workers, their spouses and children, increased by 5.5 percent from $\$ 45.7$ billion in 1997 to $\$ 48.2$ billion in 1998.
- OASDI benefit awards in calendar year 1998 totaled $3,800,300$ including $1,631,500$ to retired workers, 360,600 to their spouses and children, and 781,100 to survivors. In 1998, benefits were awarded to 608,100 disabled workers and 419,000 to their spouses and children. Awards to disabled workers were 587,400 in 1997 and 624,300 in 1996.

1 The term "full benefit" applies to benefits not subject to actuarial reduction and the term "reduced benefit" applies to benefits subject to actuanal reduction.
2 Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.
3 Includes 160,900 families with reduced retired-worker benefits.
4 Includes 28,200 families with reduced retired-worker benefits.
5 Where the disabled worker's spouse is dually entitled as a retired worker, the benefit amount shown for the spouse represents the difference between the entitlement amount as a spouse and as a retired worker.

Table 5.H3.-Number and percentage distribution of retired-worker and disabled-worker families, by monthly benefit for selected family groups, December $1998{ }^{1}$

${ }^{1}$ Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficianies, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.
2 Includes persons of unknown race.
${ }^{3}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
4 Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.
${ }^{5}$ Average benefits not shown for fewer than 500 beneficianies.

${ }^{1}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
${ }^{2}$ Base figure too small to meet statistical standards for reliability of derived figure.
${ }^{3}$ Average benefit not shown for groups with fewer than 500 beneficiaries.

SSI<br>Program Highlights, 1998

## Benefit Rate Change

Effective January 1999, the monthly federal SSI benefit rate was raised by a cost-of-living adjustment of 1.3 percent. The rate for an eligible individual living in his or her own household and with no other countable income increased from $\$ 494$ in 1998 to $\$ 500$ in 1999. For a couple where both members are eligible, the rate went to $\$ 751$.

## Program Trends

- In December 1998, 6,566,100 persons received federally administered SSI payments-an increase of 71,000 (1.1 percent) over the previous year. Of the total, 2,033,000 ( 31 percent) were aged 65 or older; $3,646,000$ ( 56 percent) were blind or disabled aged 18-64; and 887,100 ( 14 percent) were blind or disabled under age 18.
- The number of blind or disabled aged 18 - 64 rose by 84,400 ( 2.4 percent) between December 1997 and December 1998, and blind or disabled under age 18 increased by 7,200 ( 0.8 percent). In comparison, between December 1996 and December 1997, blind or disabled aged $18-64$ dropped by 0.2 percent and blind or disabled under age 18 by 7.9 percent.
- During 1998, 739,700 persons were awarded federally administered payments, an increase of 9.8 percent from the 1997 award total. Of the 1998 awards, 114,100 went to recipients aged 65 or older, 490,000 to blind or disabled aged 18-64, and 136,000 to blind or disabled under age 18.
- Total SSI payments were $\$ 30.2$ billion in 1998, up 4.0 percent from 1997. The 1997 increase over 1996 was 2.8 percent. Federal SSI payments in 1998 were $\$ 26.4$ billion (an increase of 3.7 percent over the previous year). Federally administered state supplementation was $\$ 3.0$ billion in 1998. State-administered supplementation rose to $\$ 808$ million in 1998, an increase of 18.6 percent from the previous year's total.
- In 1998, the leading causes of disability among blind or disabled recipients aged 18-64 and those under age 18 were mental disorders and mental retardation. Among disabled recipients aged 18-64, 24.6 percent were mentally retarded and 34.0 percent were diagnosed with another mental disorder. These conditions were also the most frequent diagnoses for blind or disabled under age 18, accounting for 37.9 percent and 23.5 percent, respectively.

Table 7.A1.-Number of persons receiving federally administered payments, total amount and average monthly amount, by source of payment, category, and age, December 1998

${ }^{1}$ Includes approximately 19,400 blind and 681,800 disabled persons aged 65 or older.
${ }^{2}$ Includes retroactive payments.
${ }^{3}$ Excludes retroactive payments.
Note: For more recent data, see table 2.A2 in the Social Security Bulletin.
Table 7.A2.-Number of persons ${ }^{1}$ receiving federally administered payments, total amount and average monthly amount, by source of payment and category, December 1998

${ }^{1}$ See Eligible Couple (SSI) and Eligible Individual (SSI) in the Glossary of Program Terms.

${ }^{1}$ Includes 19,400 blind persons aged 65 or older.
${ }^{2}$ Includes 681,609 disabled persons aged 65 or older.
Note: For more recent data, see tables 2.A4 and 2.A5 in the Social Security Bulletin.

Table 7.B2.-Number of persons receiving state-administered supplementation and total amount of payments, by category, $1998{ }^{1}$

${ }^{1}$ Data reported to the Social Security Administration by individual states. All data subject to revision. Excludes optional supplementation data for Missouri and North Dakota.
2 Includes data not distributed by category.
${ }^{3}$ Data estimated.
4 Data not available.
5 Includes data for the blind.
${ }^{6}$ Less then $\$ 500$.

## Medicare

 Program HighlightsEffective January 1, 1999, the inpatient hospital deductible was increased to $\$ 768$ from $\$ 764$ for 1998 . The daily coinsurance amount paid by the patient from the 61 st through the 90th day in a hospital period was raised to $\$ 192$. The daily coinsurance rate for qualifying care in a skilled-nursing facility, which is applicable for days 21 through 100, is $\$ 96.00$ for 1999. The monthly Supplementary Medical Insurance (SMI) premium is $\$ 45.50$ for 1999 (it was $\$ 43.80$ for 1998).

The following trends were seen in 1998:

- Hospital Insurance (HI—Part A) enrollment in July 1998 was 38.4 million. The aged accounted for 33.4 million, and the disabled for 5.0 million.
- Total HI benefit payments in 1998 were $\$ 134.0$ billion, a decrease of 2.7 percent over the 1997 amount ( $\$ 137.8$ billion).
- Supplementary Medical Insurance (SMI—Part B) enrollment in July 1998 was 36.8 million. The aged accounted for 32.3 million, and the disabled for 4.5 million.
- SMI benefit payments in 1998 were $\$ 76.1$ billion, an increase of 4.6 percent over 1997 ( $\$ 72.8$ billion).
- As a percentage of 1998 Medicare benefit payments, administrative costs were 1.3 percent for the HI program, and 2.0 percent for the SMI program.

## Medicaid Program Highlights

- In fiscal year 1997, 34.9 million persons received health care services under the Medicaid program, down 3.4 percent from 36.1 recipients for the preceding fiscal year.
- Medicaid expenditures for medical services were $\$ 124.4$ billion in fiscal year 1997, an increase of 2.3 percent from $\$ 121.7$ billion in fiscal year 1996.
- The 1997 average payment per recipient served was $\$ 3,568$, compared with $\$ 3,369$ in 1996 . For persons aged 65 or older, the average was $\$ 9,538$; for the disabled it was $\$ 8,832$; and for children it was $\$ 1,026$.
- The average 1997 payment for inpatient general hospital care was $\$ 4,877$; for physicians' services it was $\$ 333$; for prescribed drugs it was $\$ 571$; and for nursing facility services it was $\$ 19,029$.

1 The financial status of the program depends on both the assets and the liabilities of the program.
2 Includes general fund matching payments, plus certain interest-adjustment items.
${ }^{3}$ Other income includes recoveries of amounts reimbursed from the trust fund that are not obligations of the trust fund, and other miscellaneous income.
${ }^{4}$ Section 708 of Title VII of the Social Security Act modified the provisions for the delivery of Social Security benefit checks when the regularly designated delivery day falls on a Saturday, Sunday, or legal public holiday. Delivery of benefit checks normally due January 1982 occurred on Dec. 31, 1981. Consequently, the SMI premiums withheld from the checks ( $\$ 264$ million) and the associated general revenue matching contributions ( $\$ 883$ million) were added to the general SMI Trust Fund on Dec. 31, 1981. These amounts are excluded from the premium income and general revenue income for calendar year 1982.

5 Delivery of benefit checks normally due January 1988 occurred on Dec. 31, 1987. Consequently, the SMI premiums withheld from the checks (\$692 million) and the associated general revenue contributions ( $\$ 2,178$ million) were added to the SMI Trust Fund on Dec. 31, 1987. These amounts are excluded from the premium income and general revenue income for calendar year 1988; see footnote 4.

6 Includes the impact of the Medicare Catastrophic Coverage Act of 1988 (P.L. 100-360).
${ }^{7}$ Catastrophic coverage premiums- $\$ 1.5$ billion-not distributed between aged and disabled enrollees are included in total.
8 Delivery of benefit checks normally due January 1993 occurred on Dec. 31, 1992. Consequently, the SMI premiums withheld from the checks ( $\$ 1,089$ million) and the associated general revenue contributions ( $\$ 3,175$ million) were added to the SMI Trust Fund on Dec. 31, 1992. These amounts are excluded from the premium income and general revenue income for calendar year 1993; see footnote 4.

9 Includes the impact of the transfer to the HI Trust Fund of the SMI catastrophic coverage reserve fund on Mar. 31, 1993 as specified in P.L. 102-394. Actual benefit payments for FY 1993 were $\$ 53,979$ million and the amount transferred was $\$ 1,805$ million.

10 Delivery of benefit checks normally due January 1999 occurred on Dec. 31, 1998. Consequently, the SMI premiums withheld from the checks ( $\$ 1,512$ million) and the associated general revenue contributions ( $\$ 4,711$ million) were added to the SMI trust fund on December 31, 1998. These amounts are excluded from the premium income and general revenue income for 1999; see footnote 4.
${ }^{11}$ Benefit payments less monies transferred from the HI trust fund for home health agency costs, as provided for by the Balanced Budget Act of 1997.
Note: Totals do not necessarily equal the sums of rounded components.

${ }^{1}$ Data on approved bills for hospice services are included in total after 1986.
2 The Social Security Amendments of 1983 (P.L. 98-21) replace (for most hospitals) the retrospective cost reimbursement system and the cost-per-case limits and rate of increase ceiling created by the Tax Equity and Fiscal Responsibility Act of 1982. Effective with hospital cost-reporting periods beginning on or after Oct. 1, 1983, Medicare payments for inpatient operating costs are to be based on a fixed amount, determined in advance, for each case, according to one of 511 diagnosis related groups (DRGs) into which a case is classified. The prospective payment is considered payment in full; hospitals are prohibited from charging beneficiaries more than the statutory deductible and coinsurance. Additional payments, determined by nondiagnostic criteria, are made to hospitals by the program for various "pass-through" costs and additional adjustments.
These additional payments are not included in the inpatient hospital billing amounts reimbursed shown in this table.
${ }^{3}$ Coverage began Jan. 1, 1967.
${ }^{4}$ Beginning Oct. 1, 1978, includes a relatively small number of persons entitled to benefits solely because of 'end-stage renal disease.
5 Includes a relatively small number of persons under age 65 entitled to benefits solely because of end-stage renal disease.
${ }^{6}$ Data for 1998 are incomplete due to bill processing lags. Due to BBA provisions, Part A now has a 100 visit limit and additional Home Health services will be billed under Part B.

CONTACT: Maria Diacogiannis (410) 786-0178 for further information.

1 Social Security Amendments of 1983 (P.L. 98-21) replace (for most hospitals) the retrospective cost reimbursement system and the cost-per-case limits and rate of increase ceiling created by the Tax Equity and Fiscal Responsibility Act of 1982. Effective with hospital cost-reporting periods beginning on or after Oct 1, 1983. Medicare payments for inpatient operating costs are to be based on a fixed amount, determined in advance for each case, according to one of 511 diagnosis related groups (DRGs) into which a case is classified. The prospective payment is considered payment in full; hospitals are prohibited from charging beneficiaries more than the statutory deductible and coninsurance. Additional payments, determined by nondiagnostic criteria, are made to hospitals by the program for various "pass-through" costs and additional adjustments. These additional payments are not included in the patient hospital billing amounts reimbursed shown in this table.

2 Data for 1998 are incomplete due to bill processing lags.

Table 8.B8—Hospital Insurance: Average covered charge per covered day of care in short-stay hospitals and skillednursing facilities, by state, selected years 1975-981 -Continued

${ }^{1}$ Data for 1975 and 1980 are based on bills approved in each year and recorded in the Health Care Financing Administration before Dec. 29, 1995. Data from 1990-97 are based on bills incurred in each year and recorded in the Health Care Financing Administration before Dec. 26, 1997. Includes data for services rendered to both aged and disabled persons.
${ }^{2}$ Geographic distribution reflects the beneficiaries' area of residence.
${ }^{3}$ Preliminary data.
4 Excludes claims for persons residing in foreign countries
5 Includes claims for persons whose place of residence is unknown.

Table 8.B9.-Supplementary Medical Insurance: Number of reimbursed bills, charges, and amount reimbursed, by type of service and type of beneficiary, 1966-98
[In thousands. Includes only bills for which reimbursements were made by carriers or intermediaries and
recorded in Health Care Financing Administration records before March 26, 1999]

| Period claim approved ${ }^{1}$ | All services ${ }^{2}$ | Physicians' services |  |  | Outpatient hospital services | Independent laboratory services | Home health services ${ }^{3}$ |  |

## Unemployment Insurance Program Highlights

Total unemployment insurance program benefit payments in 1998 were $\$ 19.9$ billion, a decrease of $\$ 400$ million from the expenditures for 1997- $\$ 20.3$ billion.

Regular state program payments in 1998 were $\$ 19.4$ billion, and regular payments to federal employees and ex-servicemembers, about $\$ 400$ million.

The average weekly benefit amount under the regular state programs was $\$ 200$ in 1998 and the average duration of benefits was 13.8 weeks.

Average weekly insured unemployment in 1998 was 2.3 million persons (unchanged from 1997).

Covered employment rose to 122.4 million in 1998, as shown below:

| 1990. | 106,330,000 |
| :---: | :---: |
| 1991. | 104,644,000 |
| 1992. | 105,185,000 |
| 1993. | 107,304,000 |
| 1994. | 110,538,000 |
| 1995. | 113,498,000 |
| 1996. | 116,125,000 |
| 1997. | 119,159,000 |
| 1998. | 122,417,000 |

## Temporary <br> Disability Insurance Program Highlights

Temporary Disability Insurance (TDI) programs are in effect in 7 jurisdic-tions-5 states (California, Hawaii, New Jersey, New York, and Rhode Island), Puerto Rico, and the railroad industry.

Average weekly benefits in 1996 varied by jurisdiction and plan type. The average weekly payment was $\$ 308$ in Hawaii. In Puerto Rico it was $\$ 80$ for state fund plans and $\$ 110$ for private plans. California, which accounts for half of the workers participating in TDI, paid an average weekly benefit of $\$ 226$ to those covered by the state fund, and $\$ 356$ for those under private plans. New York paid an average weekly benefit of $\$ 142$ under the state fund, and \$178 under private plans.

## Black Lung Benefits Program Highlights

Black Lung benefit levels are tied to federal employee salaries. The basic benefit for a miner or widow in 1999 is $\$ 469.50$, and the maximum family benefit is $\$ 939.00$.

Effective October 1, 1997, primary responsibility for maintenance and payment of Part B (claims filed before July 1, 1973) benefit provisions of Title IV of the Federal Coal Mine Health and Safety Act of 1969 was transferred from the Social Security Administration to the Department of Labor (DOL). Significant program data under Part B in 1998 included the following:

- Between December 1997 and 1998, total Black Lung beneficiaries dropped from 119,200 to 109,300. The beneficiaries included 16,000 miners, 73,400 widows, and 19,900 dependents.
- Total annual payments declined from $\$ 614.9$ million in 1997 to $\$ 576.4$ million in 1998.
- Average monthly benefits for miners in December 1998 were $\$ 611.10$, and $\$ 463.00$ for widows.
- Ninety-six percent of miners and widows were older than age 64 in 1998.
- Seventy-two percent of all Black Lung beneficiaries resided in five states in 1998: Pennsylvania, West Virginia, Kentucky, Virginia, and Ohio.

Under the Black Lung Benefits Act of 1972, DOL was assigned jurisdiction over Part C benefits-generally claims filed July 1, 1973 and later. In September 1998, monthly benefits were being paid by DOL to 58,300 beneficiaries-miners and survivors. This figure does not include benefits to dependents of miners and widows. Disability and survivor benefits in fiscal year 1998 under Part C of the program were $\$ 377.0$ million. Medical benefits accounted for an additional $\$ 82.1$ million.

## Veterans' Benefits Program Highlights

In December 1998, the rates of compensation paid to veterans with serviceconnected disabilities and the rates of dependency and indemnity compensation (DIC) paid to survivors (spouses, children, and certain parents) were increased by about 1.3 percent. A similar cost-of-living adjustmert in non-service-connected disability and survivor pensions became effective at the same time.

In September 1998, disability compensation or pension payments were being made to $2,668,000$ veterans. Of these, $2,277,000$ represented benefits for service-connected disabilities and 391,000 for non-service-connected pensions.

The number of disabled veterans increased by 1,000 from the prior year. In addition, benefits were payable to survivors of 595,000 deceased veterans (based on service- and non-service-connected deaths) in September 1998.

Benefit payments to disabled veterans and survivors including serviceconnected compensation and non-service-connected pensions totaled about $\$ 20.2$ billion in fiscal year 1998.

Temporary Assistance for Needy Families (TANF)/ Aid to Families with Dependent Children (AFDC) and Emergency Assistance Program Highlights

Under provisions of P.L. 104-193 (the Personal Responsibility and Work Opportunity Reconciliation Act of 1966, enacted August 22, 1996), the AFDC and Emergency Assistance programs were replaced with the Temporary Assistance for Needy Families (TANF) program. TANF became effective as soon as each state submitted a plan implementing TANF, but no later than July 1, 1997.

- The average monthly family caseload for calendar year 1997 was $3,747,000$, down 15.6 percent from the preceding year. The TANF/AFDC recipient count averaged 10,375,300 in 1997.
- Payments to TANF/AFDC recipients totaled $\$ 22.0$ billion, a 70 percent increase of about 1.5 billion from the 1996 figure.
- The average monthly payment per family was up $\$ 103.91$ (26.9 percent) to $\$ 490.01$ for 1997 from the 1996 level of $\$ 386.10$
- Emergency assistance payments totaled $\$ 403$ million to an average of 81,792 families monthly during 1997.

## Food Stamps Program Highlights

As of October 1998, an eligible four-person household with no income receives $\$ 419$ monthly in food stamps (up from $\$ 408$ for the prior $12-\mathrm{month}$ period). For a one-person household, the monthly amount is $\$ 125$, and for a two-person household, the amount is $\$ 230$.

- The average number of persons participating in the Food Stamp program in fiscal year 1998 was 19,787,000, a decrease of 13.4 percent from 1997.
- Food Stamp expenditures of $\$ 16.9$ billion in 1998 represented a 13.7-percent decrease from 1997.

## Low-Income Home Energy Assistance Program Highlights

- In fiscal year 1996, HHS issued $\$ 1.08$ billion in LIHEAP block grants to the 50 states and the District of Columbia, 123 Indian tribes and tribal organizations, and 6 insular areas (American Samoa, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Trust Territory of the Pacific Islands/Palau, and the Virgin Islands).
- HHS issued $\$ 16.9$ million in fiscal year 1996 incentive awards to 43 states and 26 tribes and tribal organizations that had leveraged $\$ 640$ million in private or non-federal public resources in fiscal year 1995 to provide energy benefits to low-income households.
- HHS issued over $\$ 5$ million in fiscal year 1996 Residential Energy Assistance Challenge Option (REACH) awards. This was the first year in which REACH was funded.REACH is designed to make competitive grants for implementation through local communitybased agencies of innovative plans to help LIHEAP eligible households reduce their energy vulnerability.
- With the enactment of the Human Services Amendments of 1994, LIHEAP was reauthorized through fiscal year 1999. The Coats Human Services Reauthorization Act of 1998 has since reauthorized LIHEAP through fiscal year 2004.

## Adult Assistance Program Highlights

The adult assistance programs-Old-Age Assistance (OAA), Aid to the Blind (AB) and Aid to the Permanently and Totally Disabled (APTD)-were replaced by the Supplemental Security Income (SSI) program in the 50 States and the District of Columbia in January 1974. The former programs continue in effect in Puerto Rico, Guam, and the Virgin Islands.

- OAA payments totaling $\$ 8.1$ million were made to 15,000 persons per month, for an average monthly payment of $\$ 43.58$ in 1996.
- $A B$ was provided to 200 persons monthly, totaling $\$ 99,000$ in 1996, for a monthly average benefit of $\$ 37.57$.
- APTD benefits averaging $\$ 40.36$ monthly were paid to 25,000 persons per month for a 1996 total of $\$ 12.2$ million.

## General Assistance Program Highlights

General Assistance payments were provided monthly to 628,000 cases, or 744,000 recipients in 1996 .

1 Statutory programs providing short-term cash benefits to employees unable to work because of nonoccupational illness or injury.
2 State cost of administering state program and of supervising private plans.
3 Benefits and beneficiary data are for periods terminated in 1996.
4 Data not available.
5 Includes data not shown separately for special fund for workers whose disability begins duning unemployment. In 1996, the fund paid $\$ 49,546$ in benefits.
6 Fiscal year data.
7 For workers whose disability begins during unemployment.
8 Includes State Insurance Fund of $\$ 13.6$ million.
9 Includes medical, surgical, and hospital benefits amounting to $\$ 69.6$ million paid under approved plans.
10 For 14-day registration period.
11 Includes $\$ 22.8$ million for regular benefits and $\$ 3.9$ million for Extended Benefits.
12 Includes administrative costs for railroad unemployment insurance.

| 1996. | 3,974,152 | 128,538 | 804,560 | 59,992 | 91,503 |

1 An unduplicated total of households assisted cannot be derived from these data because the same households may be included under more than one type of assistance.
2 Totals include households that received combined heating and cooling assistance in Arizona, California, and Florida; households that received energy assistance in Hawaii with no differentiation made between heating and cooling assistance.
${ }^{3}$ Heating assistance data include 608 households that received expedited heating assistance payments for home energy crises.
${ }^{4}$ State served 2,654 crisis households with private fuel funds.
5 Crisis assistance data include 146 single family households which received emergency furnace replacements or repairs.
${ }^{6}$ Households needing crisis fuel assistance received expedited heating assistance.
${ }^{7}$ Heating assistance data include one or two-person households assisted by oil overcharge funds.
8 Crisis assistance data include 3,120 households that received energy intervention unit services, and may have received a benefit under other crisis assistance components.
9 Weatherization data include 2,856 households which received regular weatherization services, and may have received also energy-related home repair services.
10 Households needing crisis fuel assistance received expedited heating assistance. Households with deposit requests were referred to Energy Shares of Wyoming. Heating system crisis cases and related repairs were referred directly to weatherization subgrantees.

2 Data not available.
${ }^{3}$ As of December of each year.
4 Monthly averages are based on number of months states continued to report General Assistance data. For most states, reporting stopped June 30, 1997; others continued to submit reports for an additional one or two quarters.

## Table

10A Sampling Variability

## Sampling Variability

A substantial number of tables in sections 5 and 6 present OASDI award and current-pay benefit data based on 1-percent and 10-percent sample files drawn from the Social Security Administration's administrative records. In addition, tables 4.B1-4.B11 on the taxable earnings of OASDI workers are based on 1-percent administrative record samples, and tables 7.A8, 7.B9, and 7.E2 on SSI awards are based on 10-percent administrative record samples.

Because of sampling variability, estimates based on sample data may differ from the figures that would have been obtained had all, rather than specified samples, of the records been used. The standard error is a measure of the sampling variability. About 68 percent of all possible probability samples selected with the same specifications will give estimates within one standard error of the figure obtained from a compilation of all records. Similarly, approximately 90 percent will give estimates within 1.645 standard errors, about 95 percent will give estimates within two standard errors, and about 99 percent will give estimates within two and onehalf standard errors. The standard error of an estimate depends on the design elements such as the method of sampling, sample size, and the estimation process.

Because of the large number of data cells tabulated from the sample files, it is not practical to calculate the standard error for every possible cell.

However, standard errors for a large number of cells were estimated. These estimates were used to fit regression curves to provide estimates of approximate standard errors associated with tabulated counts and proportions.

The tables showing the sampling variability provide a general order of magnitude for similar estimates from the various sample files. Table 10.A1 presents approximate standard errors for the estimated number of persons from the 1-percent and the 10-percent files. The reliability of an estimated percentage depends on both the size of the percentage and on the size of the total on which the percentage is based. Data in tables 10.A2 and 10.A3 provide approximations of the standard errors of the estimated percentage of persons in the 1percent and 10-percent files. The standard errors are expressed in percentage points and the bases shown are in terms of inflated data.

Table 10.A1.-Approximations of standard errors of estimated number of persons

## OASDI Benefit

Award Data

OASDI benefit award data in the Annual Statistical Supplement are derived mainly from two sources:
(1) 100-percent award data. The Master Beneficiary Record (MBR) is the major administrative data base for the Social Security program. It is used for the calculation of benefits and the maintenance of information about beneficiaries. Each month, when the MBR is updated, a record of award actions is created. This record is used to prepare award data on a 100 -percent basis. Data available each month include types of benefits awarded, sex of beneficiary, and the monthly benefit amounts payable. These data are used to update the time-series tables.
(2) Award data from the OASDI 1- percent Sample. This source provides monthly award data based on a 1-percent sample derived from the MBR. The 12 monthly files are combined to produce an annual file. The 1-percent sample is used to prepare award tables, which show detailed data by age, sex, and type of benefit, and distributions by benefit amount. Award data from the1percent sample are similar to the data described above. An important difference, however, is the treatment of dual entitlement.

When a retired-worker beneficiary subsequently becomes dually entitled to a secondary benefit as a wife,
husband, or widow or widower, the secondary benefit is counted as an award in the 100-percent data. In contrast, award data based on the OASDI 1-percent sample do not count the secondary benefit as an award when both benefits are paid from the same trust fund.

When dual entitlements are counted as awards, the number of awardees is increased and the monthly amount awarded is lowered. The person has already been counted as having received an award when he or she became entitled to the retiredworker benefit, and is counted again upon entitlement to the secondary benefit. The average benefit amount is lowered because the amount recorded for the award for the dually entitled person is only the difference between the amount of the retiredworker benefit and the amount of the secondary benefit.

Table 3.E1 presents the weighted average poverty thresholds for families in the United States for 1959-98. Table 3.E2 presents data on the number and percent of persons in poverty in the United States for 1959-97. Tables 3.E3, 3.E4, and $3 . E 6$ present more detailed data on persons and families in poverty in the United States during 1997. Table 3.E8 presents poverty guidelines by family size for the contiguous United States, Alaska, and Hawaii for 1965-99, issued (since 1982) by the Department of Health and Human Services. Poverty thresholds are used primarily for statistical purposes, while poverty guidelines are used for administrative purposesfor example, to determine whether a person or family is financially eligible for assistance or services under certain federal government programs (not including cash public assistance).

The procedure for calculating the poverty thresholds, originally developed in 1963-64 by Mollie Orshansky of the Social Security Administration, was modified by federal interagency committees in 1969 and 1981. The poverty thresholds consist of a set of dollar figures that vary by family size and composition. The thresholds are a statistical measure based on incomefood expenditure patterns (from the Department of Agriculture's 1955 Household Food Consumption Survey) and cost of the Department of Agriculture's economy food plan. (See Joseph Dalaker and Mary Naifeh, U.S. Census Bureau, "Poverty in the United States, 1997," Current Population

Reports: Consumer Income, Series P60-201, AppendixA, for an explanation of the poverty definition.)

These income criteria for determining the extent of poverty in the United States have become the basis for the official statistics issued annually by the Census Bureau in the Current Population Reports series.
The poverty thresholds are adjusted to reflect changes in the annual average Consumer Price Index (CPI-U). (See U.S. Bureau of the Census, "Revision in Poverty Statistics, 1959 to 1968," Current Population Reports: Special Studies, Series P-23, No. 28; and Directive No. 14, "Definition of Poverty for Statistical purposes," Statistical Policy Handbook, 1978, Office of Federal Statistical Policy and Standards, Department of Commerce.)

The poverty guidelines, a simplified version of the poverty thresholds, vary by family size; there are separate sets of guidelines for the two noncontiguous states (Hawaii and Alaska). The guidelines are used for determining whether a person or family is financially eligible for assistance or services under certain federal programs. Authorizing legislation or regulations for specific programs indicate whether a program uses the poverty guidelines as one of several eligibility criteria, uses a modification of the guidelines (for example, 130 percent or 185 percent of the guidelines), or uses them for the purpose of setting priorities in providing assistance or services.

Since 1973, the guidelines have been computed from the official poverty

Technical Note: Poverty Data
thresholds by increasing the weighted average poverty thresholds by the percentage change in the CPI-U during the preceding year and rounding the value for a family of four up to the next higher $\$ 50$. All family sizes over and under four persons are computed by adding or subtracting equal dollar amounts derived from the average difference between poverty lines; for families with one to eight persons, the value is rounded to the nearest multiple of $\$ 20$.

The thresholds were calculated using data (the 1955 Household Food Consumption Survey) that defined income as after-tax money income and were intended to be applied (as a measure of income inadequacy) to data on money income. The National Research Council's Panel on Poverty and Family Assistance put great emphasis on the principle of consistency in poverty measurement-that the definition of family resources (income) used should be consistent with the concept underlying the poverty thresholds. (For a discussion of this principle, see Measuring Poverty: A New Approach, Constance F. Citro and Robert T. Michael (eds.), Washington, DC, National Academy Press, 1995, pp. 4, 9-10, 37-40, 65-66, 98, 203206 , and 227-231. This important report proposed a new approach for developing an official poverty measure for the United States.) According to the Panel's principle of consistency, it would be inappropriate to apply the current poverty thresholds (calculated using an income definition of after-tax money income) to an income distribution using an income definition of money income plus selected noncash benefits.

Before 1980, for statistical classification of families as poor, the Census Bureau used a matrix of 124 detailed poverty thresholds based on the total number of family members, the number of family members who were children, the sex of the family householder, the age of the individual or family householder (for one- and two-person units only), and whether the family lived on
a farm. The current matrix of poverty thresholds used by the Census Bureau to determine the poverty status of families and unrelated individuals consists of a set of 48 thresholds arranged in a two-dimensional matrix by family size (from one person, that is, an unrelated individual, to a family of nine or more persons) crossclassified by the presence and number of family members under age 18 (from no children to eight or more children present). Unrelated individuals and two-person families are further differentiated by the age of the individual or family householder (under age 65 and aged 65 or older).

The total money income of each family in the CPS sample is tested against the appropriate (detailed) poverty threshold to determine the poverty status of that family. If the family's total money income is less than its corresponding threshold, the family is classified as being in poverty. The poverty thresholds generally cited for specific family sizes represent the weighted average of individual thresholds for families of different composition at that size. The weighted average threshold for a given family size is obtained by multiplying the threshold for each family size subcategory by the number of families in that subcategory. These products are then aggregated across the entire range of family-size categories, and the total aggregate is divided by the total number of families in the group to yield the weighted average poverty threshold for that family size.

From 1969 to 1980, families living on farms were assumed to need 85 percent of the cash income of corresponding nonfarm families. (Figures for prior years were retabulated retrospectively on this basis.) Several changes were implemented with the 1980 Census and the March 1982 CPS: (1) elimination of separate thresholds for farm families, (2) elimination (through appropriate averaging) of separate thresholds for female-householder and "all other" families, and (3) extension of the poverty matrix to make the largest
family size category "nine persons or more" rather than "seven or more persons" (see U.S. Bureau of the Census, "Characteristics of the Population Below the Poverty Level: 1980," Current Population Reports, Series P-60, No. 133, pp. 2-5, 9, and 186).

The current official definition of poverty dates back more than 30 years to the 1960s. In 1990, Congress requested a study of the official U.S. poverty measure by the National Research Council (NRC) to provide a basis for a possible revision of the poverty measure. In 1992, the NRC's Committee on National Statistics appointed a Panel on Poverty and Family Assistance to conduct this study. In 1995, the Panel published its report of the study, Measuring Poverty: A New Approach, Constance F. Citro and Robert T. Michael (eds.), Washington, DC, National Academy Press, 1995. In the report, the Panel proposed a new approach for developing an official poverty measure for the United States-although it did not propose a specific set of dollar figures. The Panel's proposed approach focused on three major areas: new poverty thresholds, a new definition of family resources (income), and data sources.

The Census Bureau, in collaboration with the Bureau of Labor Statistics, is currently preparing a report that will examine the effects of different resource definitions and thresholds on poverty.

Data on the poverty population and on family and personal income are collected in the March Current Population Survey (CPS). Data from the March survey are also known as the Annual Demographic File. Following the standard Census Bureau definition, the family is defined as two or more persons related by birth, marriage, or adoption and residing together. "Income" refers to money income from all sources, including public income transfers, but before federal, state, or local personal income taxes. Money income does not reflect the fact that many families receive part of their income in kind-in the form of nonmoney transfers such as employee
use of business transportation and facilities, employer-paid health insurance and other employer-supported fringe benefits, Medicare, Medicaid, food stamps, and housing assistance. Many farm families receive part of their income in the form of rent-free housing or goods produced and consumed by the family.

Once a year, in March, the sample of U.S. households interviewed in the monthly CPS is asked to provide information on household members' incomes during the preceding calendar year. Survey experience indicates that respondents tend to underreport their income in household surveys. Underreporting is most pronounced for dividends, interest and workers' compensation; less pronounced for veterans' payments, public assistance, and private pensions; and modest for Social Security and federal retirement programs. The proportion of nonresponses to CPS income questions is greater among middle income and higher income families than among lower income families.

It should be noted that changes have occurred in the sample size, content, and procedures of the CPS over the years. Since 1959-the first year for which poverty statistics using the current official definition are avail-able-the number of households interviewed has changed, the definition of farm residence was altered, the number of income types separately identified has been increased, and more sophisticated allocation procedures have been developed for income items respondents failed to report. Medians computed by the of the Census Bureau for 1979 through 1987 were calculated using Pareto interpolation if the median estimate contained high-income persons, families, and households. All median incomes for 1975 and earlier and those for years after 1987 were computed using linear interpolation. Because of these changes, the income and poverty data and medians as reported yearly by the Census Bureau do not in the strictest sense form a continuous series.

The major modifications introduced in March 1980 rendered interpretation of change from 1978 to 1979 particularly difficult. In March 1980, the sample size was expanded considerably. The number and type of questions relating to income received in 1979 changed, as did the procedure for allocating the reported income among family members. The description of family structure was changedeliminating secondary families and replacing the concept of "family head" with that of "householder" or "reference person." Such modifications result in adding to the number of households designated as having a female head some husband-wife families that formerly would have been classified as having a male head. Another consequence is the sharp rise in the number of households-poor and nonpoor alike-credited with income received from dividends, interest, and rent, or from pensions other than Social Security. The 1978-79 increase in these characteristics is much greater than one would normally expect for a single year and should not be attributed to economic and social factors alone. Comparison of data for 1979 (obtained in March 1980) with those for 1978 and earlier years should make allowance for the differences in survey techniques. Moreover, data for 1980 (collected in March 1981) have been adjusted to new controls introduced in the 1980 Census, and data for 1992 and following have been adjusted to 1990 Census population controls.

## List of Abbreviations

| $A B$ | Aid to the Blind |
| :---: | :---: |
| ACF | Administration for Children and Families |
| AFDC | Aid to Families with Dependent Children |
| AFDC-UP | Aid to Families with Dependent Children-Unemployed Parents |
| AIME | Average Indexed Monthly Earnings |
| AMW | Average Monthly Wage |
| APTD | Aid to the Permanently and Totally Disabled |
| COBRA | Consolidated Omnibus Budget Reconciliation Act |
| CPI-U | Consumer Price Index for All Urban Consumers |
| CPI-W | Consumer Price Index for Urban Wage Earners and Clerical Workers |
| CPS | Current Population Survey |
| CWEP | Community Work Experience Program |
| D1 | Disability Insurance |
| DRG | Diagnosis-Related Group |
| ESRD | End-Stage Renal Disease |
| FICA | Federal Insurance Contributions Act |
| FMAP | Federal Medical Assistance Percentage |
| FY | Fiscal Year |
| GA | General Assistance |
| GDP | Gross Domestic Product |
| GNP | Gross National Product |
| HCFA | Health Care Financing Administration |
| HHS | Department of Health and Human Services |

## Glossary of Program Terms

## Actuarial reduction (OASDI)

Administrative Law Judge
(OASDI and SSI)

Administrative review process
(OASDI and SSI)
ult

Age
(OASDI)

Aged beneficiary
(OASDI)
Aged enrollee (Medicare)

See "Benefit reduction."

An Administrative Law Judge (ALJ) is an employee of SSA and is specially qualified by education and experience to hold hearings and make independent decisions based on all the evidence, including any testimony. See "Administrative review process."

The procedures followed by the Social Security Administration (SSA) in determining one's right under title II and title XVI of the Social Security Act. The administrative review process consists of several steps, which usually must be requested within certain time periods and in the following order:
(1) Initial determination: A determination SSA makes about an individual's entitlement to benefits or about any other matter that gives that person a right to further administrative and/or judicial review.
(2) Reconsideration: The first step in the administrative review process. When an individual disagrees with the initial determination, the individual may, within 60 days of receiving notice of the initial determination, ask SSA to reconsider it.
(3) Hearing before an Administrative Law Judge (ALJ): When an individual disagrees with the reconsidered determination, he or she may, within 60 days of receiving notice of the determination, request a hearing before an ALJ. The hearing is informal and nonadversarial.
(4) Appeals Council review: When an individual disagrees with the decision or dismissal of the ALJ, he or she may, within 60 days of receiving the hearing decision, request that the Appeals Council review that decision. The Appeals Council, within the Office of Hearings and Appeals, may deny or dismiss the request for review, or it may grant the request and either issue a decision or remand (return) the case to an ALJ. The Appeals Council may also review any ALJ action on its own motion within 60 days after the ALJ's action. The Appeals Council's decision or the hearing decision if the Council denies the request for review, represents SSA's final decision in the administrative review process. See "Expedited appeals process" and "Federal court review."

A person older than age 21, a person aged 18-21 who is not regularly attending school, or a person under 21 who is married or the head of a household. See "Child (SSI)."

In current-pay benefit data tables, the age classification is based on the age of the person at his or her last birthday. In award data, age is either age in month of award or age in year of award, as specified in tables.

A person who qualifies for benefits on the basis of age rather than on the basis of child care or disability.

A person aged 65 or older enrolled in the Medicare program.

Aged person

Aid to Families with
Dependent Children (AFDC)

Allowance
(DI)

Amount reimbursed (Medicare-physicians and and suppliers under SMI)

Annual maximum taxable limit

Annual maximum taxable limit (OASDI)

Appeals Council review (OASDI and SSI)

Approved bill
(Medicare-HI and institutional billing under SMI)

Assignment rate
(Medicare, SMI)
Auxiliary benefit (OASDI)
Average
Average indexed monthly earnings-AIME (OASDI)

A person whose SSI eligibility began at age 65. Persons whose SSI eligibility is based on blindness or disability and began before age 65 continue to be classified as blind or disabled even if they are aged 65 or older.

Money payments with respect to a dependent child or children; includes money payments to meet the needs of the parent(s) or needy relative with whom the child is living and the needs of any other individual living in the same home who is considered essential to the well-being of the child if the resources and the needs of such individual are taken into account in determining the amount of the money payment. See "Dependent child."

A determination that a worker is entitled to a cash disability benefit award or to the establishment of a period of disability because of an inability to work by reason of any physical or mental impairment.

The amount recorded on an individual bill paid by an intermediary to a provider for covered services. The amount reimbursed excludes the applicable deductible and coinsurance, which are the responsibility of the Medicare enrollees served. For hospitals paid under the prospective payment system, which began to be phased in Oct. 1, 1983, and has been fully implemented since Oct. 1, 1987, the billing reimbursement shown on an individual bill represents the amount paid for the particular diagnosis related group (DRG) into which the patient was classified. Excluded are reimbursements for non-DRG related pass-through costs such as direct medical education, kidney acquisitions, certain bad debts, and for the indirect medical education adjustment. Hospitals and other institutions were paid under the reasonable cost method prior to October 1983.

The amount reimbursed on an individual claim is the amount paid by a carrier to a physician or supplier (for an assigned claim) or a beneficiary (for an unassigned claim).

The Omnibus Reconciliation Act of 1993 repealed the dollar limit on wages and selfemployment income subject to the Medicare Hospital Insurance tax, effective January 1, 1994. Prior to 1994, HI covered earnings above certain annual amounts were not taxable. See table 2.A3 for maximum amounts for previous years.

Annual dollar amount above which earnings in employment covered under the OASDI program are neither taxable nor creditable for benefit computation purposes. See table 2.A3 for annual maximum taxable amounts for years 1937 to present. (Also referred to as "contribution and benefit base," "annual creditable maximum," "taxable maximum, " and "maximum taxable.")

See "Administrative review process."

A bill submitted by a provider of services to an intermediary and approved for payment by the intermediary.

See "Total assignment rate."

See "Dependent's benefit."
See "Mean."
The amount of earnings used in determining the primary insurance amount (PIA) for most workers who attain age 62, become disabled, or die after 1978. Indexing creates an earnings record that reflects the value of the individual's previous earnings relative to national average earnings in the indexing year.

## Average monthly wage--AMW

 (OASDI)The indexing year is the second year before the year in which the worker attains age 62, becomes disabled, or dies. Taxable earnings after the indexing year are counted at their nominal value. For widow(er)'s first eligible after December 1984, the indexing year applicable to the deceased worker's earnings may alternatively be the second year before the widow(er)'s date of eligibility for survivors benefits if a higher benefit results.

Earnings are indexed by multiplying the worker's taxable earnings for each year after 1950 through the indexing year by the average wages of all workers for the indexing year, and dividing by the average wages of all workers for the year being indexed. Once the earnings record has been indexed, the AIME is computed by-
(1) determining the number of computation years-the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62, becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2 );
(2) selecting the actual computation years, based on highest earnings after indexing, from any years after 1950; and
(3) dividing the sum of earnings in the computation years by the total number of months in the computation years.

For workers becoming entitled to disability benefits after June 1980, the number of dropout years varies by the age attained in year of disability onset. The number is $0,1,2,3,4$, and 5 for workers aged 26 or younger, 27-31,32-36,37-41, 42-46, and 47 or older, respectively. Effective for months after June 1981, however, disabled workers under age 37 may obtain up to 3 additional dropout years ( 3,2 , and 1 , respectively, for those aged 26 or younger, 27-31, and 32-36) for years otherwise included as computation years in which the worker had no earnings and was living with a child (of the worker or his or her spouse) under age 3.

The amount of earnings used as the basis for determining the primary insurance amount (PIA) for workers who attained age 62, became disabled, or died before 1979, and also under a transitional guarantee computation for workers who attained age 62 in 1979-83. The AMW is computed by-
(1) determining the number of computation years-the number of years after 1950 (or the year of attainment of age 21, if later) and up to the year in which the worker attains age 62 (age 65 for men born before January 2, 1911, and the later of age 62 or the year 1975 for men born after January 1, 1911), becomes disabled, or dies, minus dropout years, generally 5 (minimum number of computation years is 2 );
(2) selecting the actual computation years, based on highest earnings (up to the amount of the annual maximum taxable earnings in each year), from any years after 1950; and
(3) dividing the sum of earnings in the computation years by the total number of months in the computation years.

See the last paragraph under AIME for special dropout rules for disabled workers.
An alternative computation method takes into account the worker's earnings after 1936. The method yielding the highest PIA is used.

The transitional guarantee computation is applicable to workers who attained age 62 in 1979-83, and to survivors of such workers (if the PIA under the transitional guarantee computation is higher than under the AIME method). It excludes earnings beginning with the year of attainment of age 62 .

Award
(OASDI)

An action following a determination that an individual is entitled to a specified type of benefit. The action adds the individual to the Social Security benefit rolls maintained
for that type of benefit and is counted as an award in a particular month. Award actions are processed not only for new entrants to the benefit rolls but also for persons already on the rolls whose benefits in one category are terminated but who become entitled to another type of benefit. These actions are called conversions. Two frequent events causing conversions are the attainment of age 65 by a disabled worker and the death of a retired or disabled worker. When a disabled worker attains age 65, the worker benefit and the benefits of spouses and children are converted to the retirement category. Upon the death of a disabled worker, benefits for children are converted to the survivor child category and benefits for spouses caring for these children are converted to widowed mothers and fathers benefits. Benefits for spouses of retired and disabled workers who are entitled be cause of age are converted to nondisabled widows and widowers benefits upon the death of the worker. The above conversions are counted in the award data. The benefits for children of retired workers that are converted to benefits for children of deceased workers upon the death of the worker are not counted in the award data.

Awards may result in the immediate payment of benefits (currently payable awards). If an individual does not qualify for payable benefits due to any of the reasons listed under "withholding," conditional or deferred awards are processed. Deferred awards are those in which benefits are scheduled to begin in a specified month. If benefits are withheld for an indefinite period, a conditional award is prepared. Since September 1965, most conditional and deferred awards for beneficiaries aged 65 or older have been for individuals who apply for Social Security benefits in order to become eligible for Medicare but have benefits offset due to the earnings test. Legislation enacted in 1980 permits individuals aged 65 or older to file for Medicare without applying for Social Security benefits. These individuals are not counted in the award data until they actually apply for Social Security.

Bend points (OASDI)

Beneficiary (OASDI)

## Benefit-family group (OASDI)

Benefit period (Medicare-HI)

Benefit reduction
(OASDI)

The dollar amounts defining the average monthly earnings or AIME brackets in the benefit formulas. See table 2.A11.

A person who has been awarded benefits on the basis of his or her own or another's earnings record. The benefits may be either in current-payment status or withheld.

See "Family classification."
A period of time for measuring the availability and use of inpatient services in a hospital or skilled-nursing facility. Also known as a "spell of illness," it begins with the first day not included in a previous benefit period and ends when the individual has not been in any hospital or skilled-nursing facility for 60 consecutive days.

Reduction in monthly benefit amount payable (1) on entitlement at ages 62-64 if the beneficiary is a retired worker, a wife or husband of a retired or disabled worker (with entitlement not based on caring for a child beneficiary), or a divorced spouse; (2) on entitlement at ages 60-64 if the beneficiary is a widow, widower, or a surviving divorced spouse; or (3) on entitlement, in case of disability, at ages 50-59 if the beneficiary is a widow, widower, or surviving divorced spouse. At the time of award, the following reductions in benefit amount are made for a-
retired-worker beneficiary: 5/9 of 1 percent for each month of entitlement before age 65 (maximum reduction of 20 percent);
wife or husband beneficiary. 25/36 of 1 percent for each month of entitlement before age 65 (maximum reduction of 25 percent);
a nondisabled widow or widower or surviving divorced spouse: 19/40 of 1 percent for each month of entitlement before age 65 (maximum reduction of 28.5 percent); and
disabled widow or widower or surviving divorced spouse under age 60: 28.5 percent.

Childhood disability benefit
(OASDI)
Child's benefit
(OASDI)

The benefit continues to be paid at a reduced rate even after age 65, except that the reduced rate is refigured at age 65 for all beneficiaries and also at age 62 for a widow, widower, or a surviving divorced spouse to omit months for which the reduced benefit was not paid and to take into account any additional earnings.

A disabled-worker benefit may also be reduced if it is payable to a beneficiary already entitled to a reduced retired-worker, widow's, or widower's benefit, with the reduction related to the number of months before age 65 in which a reduced benefit was actually drawn.

The sum of the number of persons with benefits in current-payment status and persons with benefits withheld.

The amounts disbursed for benefits by the Department of the Treasury in specified periods, including the amount of SMI premiums deducted from the checks.

See "Termination."
See "Withholding."
A request for payment from or on behalf of a patient for services provided by a physician or supplier. Each bill may include one or more covered services provided by a single physician or supplier on the same or different days. Only bills for which some payment is made under SMI are included in the data.

A person with 20/200 or less vision in the better eye with the use of correcting lenses, or with tunnel vision of 20 degrees or less, or who met the October 1972 state definition of blindness and received payments under the state's program of Aid to the Blind in December 1973. Persons aged 65 or older who receive SSI because they are blind are classified as blind rather than aged.

Nongovernment organization authorized to determine amounts of payments due noninstitutional providers and to make payments for covered services provided SMI enrollees. (For HI/SMI institutional providers, see "Intermediary.")

Amounts allowed by carriers for specific services and procedures, determined on the basis of a physician's or supplier's customary charges for the services and on the prevailing charges in the locality for similar services. The amount allowed, also known as the "reasonable charge," cannot be higher than that applicable for the carrier's own policyholders for similar services under comparable circumstances.

An unmarried blind or disabled person who is not the head of a household and who is either under age 18 or aged 18-21 and regularly attending school.

Each dependent child meeting the criteria for payments. See "Dependent child (AFDC)."

See "Disabled child's benefit."

A monthly benefit for a child of a retired or disabled worker or of a deceased worker who died fully or currently insured, if the child is under age 18, or an elementary or secondary student aged 18-19 (before May 1985 benefits were payable to certain post-secondary students), or a disabled person aged 18 or older whose disability began before age 22. Child beneficiaries under age 18 and student beneficiaries must be unmarried. Benefits for disabled adult children (also referred to as childhood disability beneficiaries) may be continued if they marry certain other Social Security beneficiaries.

Benefits may be payable to stepchildren or grandchildren of workers under certain conditions. Prior to June 1996, a child may have become entitled to benefits on a

stepparent's earnings record if either living with or receiving at least one-half support from the stepparent. For those becoming entitled after June 1996, the stepchild must receive at least one-half of support from the stepparent. A grandchild may become entitled to benefits on the earnings record of a grandparent (or the grandparent's spouse) if the child's parents are either deceased or disabled, or the child was legally adopted by the worker's surviving spouse after the worker's death. The child must receive at least one-half support from the grandparent and live with the grandparent in the United States.

The person on whose behalf an application for benefits is filed.
Services furnished to outpatients by a facility not part of a hospital but organized and operated to provide services to outpatients.

Share paid by the patient for covered services above the deductible amount. See table 2.C1 for patient costs per day for inpatient hospital services and for skillednursing services.

Share paid by the patient for covered services above the deductible for the calendar year. The program pays 80 percent of costs or charges allowed for covered services after the deductible is met. The individual is responsible for 20 percent of allowed charges on assigned claims. On unassigned claims the individual is responsible for the remainder of all charges; however, in 1993 and thereafter doctors who do not accept assignment may charge no more than 115 percent of Medicare approved fees. (See table 2.C1.)

December 31 of either 1936 or 1950. Taxable earnings after the applicable starting date are counted in computing average monthly earnings (only starting date of Dec. 31, 1950 is applicable in computing average indexed monthly earnings).

For persons who engage in substantial gainful activity but continue to have a disabling condition, Medicare coverage is continued for 39 months following the completion of a trial work period.

An evaluation of a disabled person's impairments to determine if the person is still disabled within the meaning of the law.

See "Taxes."
See "Award."

See "Eligible couple (SSI)."
Amount billed by providers for covered services.
The number of days of care for which claims have been approved for payment. Because of interim claims for part of a hospital stay, the number of covered days of care per claim may not represent the number of covered days of care per discharge.

All employment and self-employment creditable for Social Security purposes.
Services and supplies specified as covered by law (including those for which no payment was made because the deductible was not met).

Benefit being paid for a given month with or without deductions, provided the deductions are less than a full month's benefit. The amount shown is prior to deduction for the SMI premium. A benefit incurrent-payment status at the end of a month is usually payable in the first week of the following month.

The probability that a person will die sometime between the tabulated birthday and the succeeding birthday. See "Life table (period)."

Specified amount to be paid by the patient for covered services before reimbursement begins. For inpatient hospital expenses in benefit periods 1966 to present, see table 2.C1.

The expenses for covered services in each calendar year that must be paid by the patient before reimbursement begins. For deductibles 1966 to present, see table 2.C1.

Taking into account the income and resources of certain persons who live with an SSI recipient when determining the amount of the payment. These persons include the ineligible spouses of adult recipients, the ineligible parents of child recipients under age 18, and the immigration sponsor for certain noncitizens.

A credit due a worker for delaying retirement after attainment of age 65 provided the worker (1) was fully insured, (2) had attained age 65 but was not yet age 70 (age 72 before January 1984), and (3) did not receive benefits because he or she had not filed an application or was working. Each monthly credit serves as a basis for increasing the monthly benefit (unless the benefit is based on a special minimum PIA) by specified percentages that depend on the year the worker attains age 62. The monthly credit was $1 / 12$ of 1 percent for workers who attained age 62 before 1979 and 1/4 of 1 percent for workers who attained age 62 from 1979 through 1986. The corresponding monthly credits for workers who attain age 62 after 1986 are shown in table 2.A20. The increase is applicable to the worker's monthly benefit amount but not to his or her PIA. Hence, auxiliary benefits are generally not affected. The exception is that a surviving (including divorced) spouse receiving widow(er)'s benefits may be entitled, for months after May 1978, to an increase based on the increase that had been applied to the benefit of the deceased worker or for which the worker was eligible at the time of death.

For benefits payable for months before 1979, beneficiaries could not receive delayed retirement credits if they had received a reduced benefit because of entitlement before age 65. Benefits for these individuals were recomputed effective January 1979 to give them the $1 / 12$ of 1 percent credit for any increment month.

Services, including ancillary services, provided by a dentist in the practice of his or her profession.

A needy child who has been deprived of parental support or care by reason of the death, continued absence from the home, or physical or mental incapacity of a parent or, at the option of the states, who is deprived of such support or care because the parent is unemployed as defined in federal regulations. The needy child must be living with his or her father, mother, grandfather, grandmother, brother, sister, stepfather, stepmother, stepbrother, stepsister, uncle, aunt, first cousin, nephew, or niece (including such relatives of half-blood; preceding generations as denoted by prefixes of grand, great, or great-great; and persons who have legally adopted the child or the child's parent) in a place of residence maintained by one or more of such relatives as his or her or their own home.

Monthly benefit payable to a spouse or child of a retired or disabled worker.
A procedure by which beneficiaries elect to have their monthly benefit checks sent directly to financial institutions they designate.

The inability to engage in substantial gainful activity by reason of any medically determinable physical or mental impairment that can be expected to result in death or to last for a continuous period of not less than 12 months. This means-

(DI)

Divorced husband's benefit
(OASDI)
(1) for a nonblind disabled worker, a blind worker under age 55, a disabled adult child, or a disabled widow, widower or surviving divorced spouse, the inability to engage in substantial gainful activity. A person must not only be unable to do his or her previous work but cannot, considering age, education, and work experience, engage in any other kind of substantial gainful work which exists in the national economy. Before 1991, a stricter disability definition applied to disabled widow(er)s. A widow(er) needed to have a disability severe enough to prevent him or her from engaging in "any gainful activity;" and
(2) for a blind worker aged 55 or older, the inability because of blindness (that is, central visual acuity of $20 / 200$ or less in the better eye with the use of a correcting lens, or tunnel vision of 20 degrees or less) to engage in any substantial gainful activity requiring skills comparable with those in any gainful activity in which he or she previously engaged with some regularity and over a substantial period of time.

The 36-month period after the completion of a trial work period for beneficiaries who continue to have a disabling condition and continue to work. Monthly benefits are continued for 3 months after the trial work period and are then suspended. If substantial gainful activity is discontinued during the reentitlement period, monthly benefits may be resumed without a new application and disability determination.

A monthly benefit payable to a disabled person aged 18 or older-a son or daughter or eligible grandson or granddaughter of a retired, deceased, or disabled worker-whose disability began before age 22. (Also referred to as disabled adult child).

A person under age 65 who is enrolled in the Medicare program by virtue of having been entitled or deemed entitled to cash disability benefits for at least 24 months. For statistical purposes, when not accounted for separately, this designation is also used for persons under age 65 enrolled solely on the basis of end-stage renal disease.

A person unable to engage in any substantial gainful activity due to a medically determinable physical or mental impairment expected to result in death or that has lasted or can be expected to last for a continuous period of at least 12 months. Persons aged 65 or older who receive SSI because they are disabled are classified as disabled rather than aged.

Entitlement
(OASDI)

Legislation enacted in 1996 eliminated drug addiction and alcoholism (DA\&A) as a basis for entitlement to Social Security and SSI disability benefits, effective Jan. 1, 1997. Individuals for whom drugs and/or alcohol is deemed a contributing factor material to the determination of disability will not be entitled to disability benefits. Individuals already receiving disability benefits as of the effective date would cease receiving them (although they could request a new medical determination) unless they are found to be disabled due to a medical impairment other than DA\&A.

See "Entitlement."
See "Benefit reduction."
Unless otherwise qualified, this term includes all wages from employment and net earnings from self-employment, whether or not taxable or covered.

The provision requiring the withholding of benefits if beneficiaries under age 70 have earnings in excess of certain exempt amounts. See "Earnings test," table 2.A29.

Two persons, living together as married, both of whom are eligible for SSI. An eligible couple is classified as aged, blind, or disabled according to the classification of the eligible individual.

An aged, blind, or disabled person eligible for payments.
For retirement insurance benefits, an individual who meets the insured status and age requirements for benefits whether or not he or she has filed an application; for Disability Insurance benefits, an individual who meets the insured status requirements and has established a period of disability.

Payments available at initial application for individuals who need cash assistance before the first SSI check arrives. The applicant must present strong evidence that he or she meets the qualifications for eligibility. This advance is withheld from the first check.

Aid offered for a period of 30 days in any 12-month period to needy families with children who are living with specified relatives in a place of residence maintained by one or more of such relatives as his or her or their own home.

Coverage available to (1) disability beneficiaries under age 65 with end-stage renal disease (ESRD), (2) persons eligible solely on the basis of ESRD, and (3) persons aged 65 or older with ESRD.

Persons aged 65 or older, disabled persons under age 65, and persons with endstage renal disease who are automatically eligible for Hospital Insurance. Also, persons aged 65 or older who are not automatically eligible for HI , either as beneficia ries who receivemonthly cash payments or under the transitional provisions, but enroll voluntarily in the HI program and pay a monthly premium.

Persons eligible for Supplementary Medical Insurance who elect to enroll in the SMI program and agree to pay the monthly premium or have it paid on their behalf by a relative, friend, or organization, and persons enrolled by a state welfare agency as part of a coverage group under a federal-state agreement.

The state of meeting the applicable requirements for receipt of benefits, including the filing of an application. Entitlement can be retroactive and thus precede the date of award. A person may be eligible for retroactive benefits before the month of application for benefits. The retroactive period can be 12 months for disabled workers, their spouses and children, and disabled widows and widowers. The maximum retroactive period for other types of beneficiaries is 6 months.

Retroactive benefits for months before attainment of age 65 are not payable to a retired worker, a spouse or a widow(er) if a permanent reduction of the monthly benefit amount would result. However, persons filing for a widow's or widower's benefit in the month immediately following the month of the worker's death may elect a 1-month retroactivity, even if reduced benefits would result.

A person can become entitled to only one benefit, to two benefits simultaneously (dual entitlement), or, in a few cases, to three benefits simultaneously. A person may, for example, be entitled to payments both as a retired worker and as a spouse. Entitlement to a retired-worker or disabled-worker benefit and to a secondary benefit results in dual entitlement only if the secondary benefit is larger. When there is dual entitlement, the beneficiary receives the smaller benefit in full, but the larger benefit is paid only in the amount by which it exceeds the smaller benefit. Three distinguishable dual entitlement categories are:
(1) entitlement to a retired-worker or disabled-worker benefit and to a larger auxiliary benefit. If the two benefits are financed from the same trust fund, the beneficiary is usually represented only once in the statistics, as a retired-worker or a disabled-worker beneficiary, and the benefit amount recorded is the larger amount associated with the auxiliary benefit. If the two benefits are paid from different trust funds, the beneficiary is represented twice, as a retired-worker or disabled-worker beneficiary and also as an auxiliary beneficiary; the retired-worker or disabled-worker benefit amount recorded is the actual amount for that benefit, and the amount recorded for the auxiliary benefit is the actual amount for that benefit reduced by the amount of the retired-worker or disabled-worker benefit;
(2) entitlement to a wife's benefit and to a smaller widow's benefit based on a previous marriage; and
(3) entitlement to an auxiliary benefit and to a larger special age- 72 benefit.

Technical entitlement occurs when a beneficiary is entitled to benefits on more than one earnings record but is eligible to receive benefits on only one earnings record. There are two types of technical entitlement:
(1) Simultaneous technical entitlement: beneficiary is entitled to the same type of benefit on more than one earnings record;
(2) Potential dual entitlement: beneficiary is entitled to different types of benefits and the secondary benefit amount exceeds the primary benefit, but reduction for age or family maximum causes the primary benefit to exceed the secondary benefit amount. This includes entitlement to a wife (husband)'s benefit and to a larger widow(er)'s benefit based on a previous marriage. In this case, the beneficiary is technically entitled to the wife (husband)'s benefit.

## Expedited appeals process (OASDI and SSI)

## Family benefit

 (OASDI)Family classification
(OASDI)

Family planning services
(Medicaid)

This permits an individual to go directly to a federal district court after review of the initial determination without first completing the administrative review process, if the only dispute is whether an applicable provision of the Social Security Act is constitutional. See "Administrative review process."

The sum of the individual monthly benefits payable to all the beneficiaries entitled on the basis of a single earnings record. See "Maximum family benefit."

As used in statistical tables, the number and types of beneficiaries entitled to benefits on a single earnings record. Since the family classification is determined by the types of beneficiaries entitled, it can differ from actual family status. For example, a married couple is classified as a worker and spouse family if both persons are entitled on the earnings record of one of them. If both persons are entitled on their own earnings record they would be designated as two worker-only families.

Any medically approved means, including diagnosis, treatment, drugs, supplies, devices, and related counseling, furnished or prescribed by or under the supervi-

A monthly benefit payable to a widower or surviving divorced father if (1) the deceased worker on whose account the benefit is paid was either fully or currently insured at the time of death and (2) an entitled child of the worker in his care is under age 16 or is disabled.

The basic benefit standards used in computing the amount of federal SSI payments. Benefit levels differ for individuals and couples living in households and for persons in Medicaid institutions. Individuals or couples living in their own households receive the full federal benefit. If an individual or couple is living in another person's household and receiving support and maintenance there, the federal benefit is reduced by one-third. The federal benefit rates for persons in households are increased annually to reflect increases in the cost of living. For federal benefits rates, see table 2.B1.

When an individual disagrees with SSA's final decision he or she may request judicial review by filing a civil action in a federal district court. See "Administrative review process."

Monthly payments made out of federal general revenue funds after reducing the federal benefit rate by the amount of countable income, if any.

Federal SSI payments and state supplementation payments issued by the Social Security Administration on behalf of States.

Cash payments provided by a state and issued by the Social Security Administration, which is also responsible for the maintenance of payment records. See "State supplementation."

Public financial assistance to persons in need who cannot qualify for help under one of the federally assisted programs.

See "Offset for spouses with other government pensions."

See "Child's benefit."
See "Administrative review process."
Services furnished a patient in his or her home by an agency engaged primarily in providing skilled-nursing and other therapeutic services under a plan established and supervised by a physician. Covered services may include part-time or intermittent nursing care; physical, occupational, and speech therapy; part-time or intermittent services of a home health aide; medical supplies (other than drugs and biologicals) and the use of medical appliances and, in certain cases, services of an intern or resident-in-training of a teaching hospital. The services must be furnished by or under arrangement with an approved home health agency.

Hospice (Medicare)

Hospital
(Medicare)
A public or private organization, or part of either, that is primarily engaged in providing specific services to the terminally ill on an as-needed 24-hour basis. Medicare covers four categories of hospice care (general inpatient care, inpatient respite care, routine home care, and continuous home care).

- Long-stay hospital. General and special hospitals with average stays greater than 25 days. Includes all pediatric, rehabilitation, and psychiatric hospitals, and alcohol and drug treatment facilities.
- Participating hospital. See "Provider of services."

- Short-stay hospital. General and special hospitals (other than pediatric, rehabilitation, and psychiatric hospitals, and alcohol and drug treatment facilities) reporting average stays of 25 days or less.

Any individual or group of individuals who are living together as one economic unit and for whom residential energy is customarily purchased in common, or who make designated payments for energy in the form of rent.

Monthly benefit payable to a husband or a divorced husband of a retired or disabled worker under one of the following conditions:
(1) the husband is aged 62 or older or has an entitled child of the worker in his care who is under age 16 or is disabled; or
(2) the divorced husband is aged 62 or older and was married to the worker for 10 years before the divorce became final. Effective with benefits payable after December 1984, a divorced husband of an eligible worker can be entitled to benefits if he meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefits or has benefits withheld due to the earnings test. Effective with benefits payable beginning January 1991, the 2 -year period is waived if the worker was entitled to benefits before the divorce. The earnings test will continue to apply to the divorced husband's own earnings; or
(3) a transitionally insured worker's husband born before Jan. 2, 1897; or
(4) effective with benefits payable beginning January 1991, a deemed spouse (including a divorced deemed spouse), regardless of whether the legal spouse is entitled to benefits on the same earnings record. A deemed spouse is a person who entered into an invalid ceremonial marriage in good faith.

Earned or unearned income received by an SSI beneficiary. Earned income includes wages and net earnings from self-employment. Unearned income includes income not defined as earned, such as Social Security benefits, public or private pensions, interest, as well as certain in-kind income.

Diagnostic laboratory tests ordered by a physician and performed in a laboratory independent of a physician's office or a hospital.

See "Eligible individual (SSI)."
The husband or wife of an eligible individual who is not eligible for SSI benefits.
See "Administrative review process."

All services furnished to an inpatient and covered by the hospital's bills.

- General hospital. A hospital maintained primarily for acute illness or injury and for obstetrical or tuberculosis care.
- Mental hospital. A hospital primarily engaged in providing psychiatric services for the diagnosis and treatment of mentally ill persons.

Covered services include room and board in accommodations containing from two to four beds, nursing services (except for private-duty nursing), drugs and biologicals, and other ancillary services and supplies ordinarily furnished by a hospital to its patients. Inpatient services furnished by a hospital outside the United States are covered if the foreign hospital is closer to or more accessible to the beneficiary's residence than the nearest suitable U.S. hospital.

Institutionalization under Medicaid (SSI) Insured status (OASDI)

Intermediate-care facility services for the mentally retarded
(ICF-MR)
Intermediary
(Medicare)

Living arrangements for persons in public or private institutions when more than 50 percent of the cost of their care is met by the Medicaid program under Title XIX of the Social Security Act. See "Federal benefit rates."

The state of having sufficient quarters of coverage to meet the eligibility requirements for retired-worker or disabled-worker benefits or to permit the worker'sspouse and/or children or survivors to establish eligibility for spouse's and children's or survivor's benefits in the event of his or her disability, retirement, or death. See "Quarters of coverage."

- Currently insured. With at least 6 quarters of coverage during the 13-quarter period ending with the calendar quarter in which the worker (1) died, (2) became entitled to retired-worker benefits, or (3) most recently became entitled to disabled-worker benefits. If any part of a quarter has been included in a period of disability, that quarter is not counted in the 13 -quarter period unless it was a quarter of coverage.
- Fully insured. With at least 1 quarter of coverage (whenever acquired) for each year elapsing after 1950 (or the year in which the worker attained age 21, if later) and before the year in which he or she reaches age 62, dies, or becomes disabled. For a man born before Jan. 2, 1911, the elapsed period ends with the year he reaches age 65. For a man born after Jan. 1, 1911, the elapsed period ends with the later of the year he reaches age 62 or 1975. If any part of a year has been included in a period of disability, that year is not counted as an elapsed year. The number of required quarters of coverage ranges from a minimum of 6 to a maximum of 40 .
- Insured in event of disability. Having fully insured status and at least 20 quarters of coverage during the 40-quarter period ending with the quarter in which the worker became disabled. A worker disabled before the quarter in which he or she attains age 31 is insured for disability if half the quarters in the period beginning with the quarter after the one in which the worker reached age 21 and ending with the quarter in which the worker became disabled are quarters of coverage. A worker disabled before the quarter in which he or she attains age 24 is insured if he or she has 6 quarters of coverage in the 12-quarter period ending with the quarter of disablement. A worker disabled by blindness needs only fully insured status to be insured in event of disability.
- Permanently insured. Having at least the number of quarters of coverage that is needed to become eligible for a retired-worker benefit. The maximum number of quarters of coverage required is 40 .
- Transitionally insured. Not fully insured but meeting the quarters-of-coverage requirement for receipt of a benefit under the transitional insured status provision by certain persons born before Jan. 2, 1897:
(1) as a retired worker-has 1 quarter of coverage (whenever acquired) for each year elapsing after 1950 and up to the year of attainment of age 65 for men or age 62 for women. A minimum of 3 quarters of coverage is required;
(2) as a wife or husband-the spouse must be transitionally insured; or
(3) as a widow or widower-the deceased spouse must have had a specific number of quarters, depending on his or her date of birth or death and on the widow(er)'s date of birth. A minimum of 3 quarters of coverage is required.

Intermediate-care facility services for persons with mental retardation (ICF-MR) under active treatment in certified institutions for the mentally retarded or for persons with related conditions.

A public or private organization authorized to determine the amount of payment due for covered services provided beneficiaries and to make such payments to institutional providers of services. (For noninstitutional providers under SMI, see "Carrier.")

(OASDI)

Payments made by a state or local government to SSI applicants while their claims are being adjudicated. Repayment is made from any payments due when the first SSI payment is made.

Professional and technical laboratory and radiological services provided in an office or similar facility (other than a hospital outpatient department or clinic) or by a qualified laboratory.

The average number of years of life remaining at each tabulated birthday. See "Life table (period)."

The reduction of the widow(er')s benefit due to the early retirement of the deceased spouse. The benefit for a nondisabled widow(er) is limited to the larger of 82 1/2 percent of the deceased spouse's primary insurance amount, or the amount to which the deceased spouse would have been entitled if he or she were still alive. Thus, receipt of benefilts by a worker before the normal retirement age will result in a reduction of benefits for a widow(er), even if the widow(er) became entitled after his or her own normal retirement age. Tables showing data on reduction for early retirement for nondisabled widows and widowers do not include those with limited benefits unless they became entitled before their own normal retirement age. See also "Widow's benefit (OASDI)."

A period life table represents the mortality experience of an entire population during a relatively short period of time, usually 1-3 years. Such tables are useful for analyzing changes in the mortality experienced by a population through time. The table refers to a cohort of 100,000 people with the same birthday who experience the rate of mortality, or probability of death within 1 year, shown in the table, throughout their lives.

Federal program to assist low-income households with heating and cooling costs.

Households with income under the greater of 150 percent of the poverty guideline for their state or 60 percent of the state median income, or households with members receiving Aid to Families with Dependent Children (replaced by Temporary Assistance for Needy Families), Supplemental Security Income, Food Stamps, or certain needs-tested veterans' benefits.

A lump sum of $\$ 255$ payable on the death of a fully or currently insured worker. The lump sum is payable to:
(1) a spouse who was living with the worker at the time of death or, if thereis no such spouse, to
(2) a spouse eligible for monthly benefits for the month of death or, if there is no such spouse, to
(3) a child(ren) eligible for monthly benefits for the month of death.

State supplementation payments required by law to maintain the December 1973 income levels of persons transferred to the federal SSI program in 1974.

The maximum monthly amount that can be paid on a worker's earnings record. For benefits payable on the earnings records of retired and deceased workers, and of disabled workers entitled before July 1980, the maximum usually varies between 150 percent and 188 percent of the PIA. For disabled workers entitled after June 1980, the maximum represents the smaller of (1) 85 percent of the worker's AIME (or 100 percent of the PIA, if larger), or (2) 150 percent of the PIA. See tables 2.A13, 2.A14, 2.A17.

Whenever the total of the individual monthly benefits payable to all beneficiaries entitled on one earnings record exceeds the family maximum, each dependent's or

Monthly benefit (OASDI)
Monthly benefit amount (OASDI)
survivor's benefit is proportionately reduced to bring the total within the maximum. Benefits payable to divorced spouses or surviving divorced spouses are not reduced under the family maximum provision. Where both a legal spouse and deemed spouse are receiving benefits, the deemed spouse would be paid within the family maximum, but benefits for the legal spouse would not be reduced.

See "Annual maximum taxable limit (HI) and (OASDI)."
The arithmetic mean, often referred to simply as "average," is the most widely used measure of central value. The mean is calculated by dividing the sum of all of the values of a variable by the number of cases. A distribution that is completely symmetrical yields an identical mean and median. The mean exceeds the median when the distribution is skewed to the right; the mean is less than the median if the distribution is skewed to the left. The term "average" used in the statistical tables in this document refers to the arithmetic mean. See also "Median."

The median is a measure of central value which identifies that value that divides a distribution in half such that an equal number of cases fall below it as there are above it. There are just as many cases with values below the median as there are cases with values above the median. See also "Mean."

Noncontributory wage credits of $\$ 160$ are provided for each month of active military service from Sept. 16, 1940, through Dec. 31, 1956. For years after 1956, the basic pay of military personnel is covered under the Social Security program on a contribu tory basis. Noncontributory wage credits of $\$ 300$ for each calendar quarter in which a person receives pay for military service from January 1957 through December 1977 are granted in addition to contributory credits for basic pay. Deemed wage credits of $\$ 100$ are granted for each $\$ 300$ of military wages in years after 1977. (The maximum credits allowed in any calendar year are $\$ 1,200$.) These credits take into account that military personnel receive other cash payments and wages in kind (such as food and shelter) in addition to their basic pay.

The lowest benefit (before actuarial reduction) payable under the regular insurance programs to a retired worker, a disabled worker, or a sole survivor of a deceased worker. The minimum benefit was eliminated for most workers who attain age 62, become disabled, or die after 1981. For these persons, benefits will be derived from applicable computation methods without a minimum floor. See tables 2.A13, 2.A14, 2.A17.

A cash benefit payable each month.
The amount payable after reduction, if necessary, for age, family maximum, and other reasons but before any deduction for SMI premiums. Effective June 1982, the final benefit payment is rounded to the next lowest $\$ 1$ (if not already a multiple of \$1) after reduction for age, family maximum, and other reasons and after any deduction for SMI premiums. The Annual Statistical Supplement tables with monthly benefits reflect the Monthly Benefit Credited (MBC). The amount is derived as follows:
(1) subtract the SMI premium from the monthly benefit amount;
(2) round the above result down to the nearest whole dollar; and
(3) add back the SMI premium to the rounded result from 2 above. The result is the MBC.

For example, if a monthly benefit amount is $\$ 678.20$, and an SMI premium of $\$ 43.80$ is deducted, the MBC is $\$ 677.80$ (calculated as follows: $\$ 678.20$ $\$ 43.80=\$ 634.40$ rounded down to $\$ 634.00+\$ 43.80=\$ 677.80$ ).

Mother's benefit (OASDI)
A monthly benefit payable to a widow or surviving divorced mother if (1) the deceased worker on whose account the benefit is paid was either fully or

| Nursing services facility (NF) (Medicaid) | An inpatient facility providing services for individuals aged 21 or older, who do not require the degree of care provided by hospitals. These do not include services in an intermediate-care facility for the mentally retarded (ICF-MR). Prior to 1991, nursing facilities were classified separately as intermediate-care facilities (ICF), and all other skilled-nursing facilities (SNF). Beginning in 1991, the distinctions were removed and these services were renamed nursing facilities. |
| Offset for spouses with other government pensions <br> (OASDI) | Spouse's and surviving spouse's benefits, based on applications filed after November 1977, are subject to reduction by any government (federal, state, or local) pensions payable to the spouse on the basis of his or her own earnings in noncovered employment. After November 1984, the amount of the reduction is equal to two-thirds of any such pension. Persons in either of the following categories are entirely exempt from the offset: (1) all women first eligible for a government pension before December 1982, except those divorced from the worker after fewer than 20 years of marriage, and (2) men and women first eligible for their pensions before July 1983 who received one-half or more of their support from the worker. |
| Old-age benefit (OASI) | See "Retired-worker benefit." |
| Other practitioners services (Medicaid) | Services of licensed practitioners other than physicians and dentists. |
| Outpatient hospital services (Medicaid and Medicare-SMI) | Services provided by outpatient departments of hospitals. Examples of therapeutic services are X-ray and radiation therapy; treatment of fractures, cuts, and abrasions; and the supplying of surgical dressings, splints, and casts. Diagnostic services include X-rays, electrocardiograms, blood tests, urinalysis, and pulmonary function tests. |
| Own household (SSI) | A definition used to determine federal benefit rate. Applies to adults who own their living quarters; are liable for the rent; pay their pro rata shares of household expenses; are living in households composed only of recipients of public incomemaintenance payments; are placed by agencies in private households; and children living in their parent's household. See "Federal benefit rates." |
| Parent's benefit (OASDI) | Monthly benefit payable to a dependent parent aged 62 or older of a deceased fully insured worker. |
| Payment status (OASDI) | The state or condition of a benefit with respect to actual receipt by the beneficiarythat is, whether the benefit is in current-payment status or withheld. |
| Period of disability <br> (DI) | A continuous period of at least 5 months of disability, within the meaning of the law, established for a disabled worker who also meets the prescribed work restrictions. |
| Person served (Medicare) | An enrollee who used covered services, incurred expenses greater than the deductible amount, and for whom Medicare paid benefits. Persons are counted |

currently insured at the time of death and (2) an entitled child of the worker is in her care and is under age 16 or is disabled.

once for each type of covered service used, but are not double counted in aggregate totals. A person receiving services two or more times during the year is counted as one person served. An exception to this rule occurs when an individual has incurred services both as an aged and disabled beneficiary during the same year. In this case, reimbursements are aggregated in accordance with the status of the beneficiary at the time medical services were rendered.

Medical and surgical services by a physician, wherever furnished, and services usually connected with a physician's treatment and included in his or her bill such as diagnostic tests, medical supplies, services of physician's nurse, drugs and biologicals that cannot be self-administered, and similar services. Other covered services and supplies grouped in this category include $X$-ray, radium, and radioactive isotope therapy; prosthetic devices; ambulance service; and purchase or rental of durable medical equipment. Also covered are hospital services incident to physician's services, services of a physical therapist in independent practice, and limited services of a licensed chiropractor.

Drugs dispensed by a licensed pharmacist on the prescription of a practitioner licensed by law to prescribe such drugs, and drugs dispensed by a licensed practitioner to his or her own patients.

For certain diagnoses, where there is high probability of a favorable medical determination of disability or blindness, payments may be made for up to 6 months before the formal determination if the applicant meets the other eligibility qualifications.

The monthly amount payable to a retired worker who begins to receive benefits at age 65 or to a disabled worker who has never received a retirement benefit reduced for age. This amount, which is related to the worker's average monthly wage or average indexed monthly earnings, is also the amount used as a base for computing all types of benefits payable on the basis of one individual's earnings record. See tables 2.A11, 2.A15, 2.A16, for the derivation of the PIA from the worker's average monthly wage or average indexed monthly earnings, as applicable, and the section on "Benefit Types and Levels" for the relationship (percent) of other benefit amounts to the PIA.

Public Law 98-21 established a prospective payment system for Medicare payment of inpatient hospital services effective for the hospital fiscal year beginning on or after Oct. 1, 1983. Under this system, Medicare payment for operating expenses at a predetermined, specific rate for each discharge. The payment is made rate is related to the cost of treating that illness. All discharges are classified according to a list of diagnosis-related groups (DRGs). There are 475 specific DRGs under which a beneficiary may be discharged. The law, as amended in 1985, provided for a 4 -year transition period during which a declining portion of the totalprospective payment rate was based on hospitals' historical costs in a given base year, and a gradually increasing portion was based on a regional or national rate per discharge or both. Beginning Oct. 1, 1987, Medicare payment for inpatient hospital services is determined fully under a national DRG payment methodology.

Capital-related costs and the costs of direct medical education, kidney acquisition by renal transplant centers, and nonphysician anesthetists are excluded from operat ing expenses and reimbursed on a reasonable cost basis. (Beginning in October 1987, capital-related costs were incorporated into the prospectively determined payment.) Additional payments are made for the indirect costs of medical education and for hospitals serving a disproportionately large share of low-income patients.

See "Special age-72 benefit."

A hospital, skilled-nursing facility, home health agency, independent laboratory, or other certified provider. A provider of services is eligible for participation and payment if it meets the requirements for certification and has entered into an

agreement with the Health Care Financing Administration to (1) provide services on a nondiscriminatory basis in compliance with Title VI of the Civil Rights Act of 1964 and (2) not charge any patient more than prescribed deductibles and coinsurance amounts for covered items and services.

The crediting of coverage needed for insured status. A worker receives 1 quarter of coverage (up to a total of 4) for a designated amount of annual earnings reported from employment or self-employment. This dollar amount is subject to annual automatic increases in proportion to increases in average earnings. For amounts in years 1939 to present, see table 2.A7. No more than 4 quarters of coverage may be credited for any calendar year, and no quarter of coverage is credited after the quarter in which death occurred or for a quarter entirely included in a period of disability.

See "Administrative review process."

A periodic review of eligibility for SSI beneficiaries to assure that requirements for eligibility continue to be met and that payments are in the proper amount. Income, resources, living arrangements, and other factors are reviewed. The redetermination process does not review the determination of disability.

See "Benefit reduction."

Represents 80 percent of allowed charges for covered services each year after the individual has paid the deductible.

A person designated by the Social Security Administration to receive monthly benefits on behalf of a beneficiary when such action appears to be in the beneficiary's best interest. A representative payee is appointed for an adult beneficiary when the beneficiary is physically or mentally incapable of managing his or her own funds. In addition, a payee is usually appointed to receive benefits on behalf of a child under age 18.

Monthly benefit payable to a fully insured retired worker aged 62 or older, or to a person entitled under the transitionally insured status provision in the law. Retiredworker benefit data do not include special age-72 benefits unless so indicated.

## See "Earnings test."

Monthly benefit payable to a spouse or child of a retired or disabled worker, or to a survivor of a deceased worker.

See "Special SSI benefits."
See "Special SSI recipient status."
Operation of a trade or business by an individual or by a partnership in which an individual is a member.

An institution primarily engaged in providing skilled-nursing care and related services for patients who require post-hospital medical or nursing care or rehabilitation services. Excludes institutions that are primarily for care and treatment with respect to mental diseases or tuberculosis. Covered skilled-nursing facility services include nursing care; room and board; physical, occupational, and speech therapy; drugs and biologicals; medical services of an intern or resident-in-training of a hospital having a transfer agreement with the skilled-nursing facility; and other necessary health care services generally provided by such facilities. See "Provider of services."

Surviving divorced father's benefit (OASI)

Number issued to a person by the Social Security Administration, used to keep a record of earnings and of benefits based on these earnings. Taxable wages and self-employment income are reported by employers and self-employed individuals and credited to the worker's record under his or her Social Security number.

Monthly benefit payable to men who attained age 72 before 1972 and to women who attained age 72 before 1970 and who do not have sufficient quarters of coverage to qualify for a retired-worker benefit under either the fully or the transitionally insured status provisions. The benefit is payable only for months in which the individual is a resident of one of the 50 States or the District of Columbia and receives no public assistance or SSI payments. It is reduced by the amount of any government pension (except workers' compensation and veterans' serviceconnected compensation) that the individual or the individual's spouse is receiving or is eligible to receive. Most of these benefits are financed from general revenues rather than Social Security contributions. (Also known as Prouty benefits).

An alternative PIA based not on the worker's average monthly wage or average indexed monthly earnings but on his or her length (years) of covered employment. It is designed to help those who worked in covered employment for many years but had low earnings. The amount of the special minimum PIA is computed by multiplying the number of years of coverage in excess of 10 (with a maximum of 20) by $\$ 11.50$ and increasing the resulting amount by all cost-of-living increases after 1978. The special minimum PIA cannot be increased by delayed retirement credits. To earn special minimum coverage a worker must have earnings above specified levels. See table 2.A12 for additional information on the computation of the special minimum PIA.

Continuing cash benefits for disabled recipients who earn above the amount that reflects substantial gainful activity. These payments may continue until income (earned or unearned) reaches the amount where the monthly payment is reduced to zero.

A person who is ineligible for SSI cash benefits because of earnings but qualifies for SSI recipient status for Medicaid eligibility purposes under Section 1619(b) of the Social Security Act.

State supplementation payments administered by the states. See "State supplementation."

One income standard used by states to determine a household's income eligibility for LIHEAP. Estimates of the median income for four-person families for each state are calculated by the Census Bureau. The Department of Health and Human Services publishes state median income estimates in the Federal Register, which are used to determine eligibility for several social services programs.

Payments to eligible persons made under state provisions. These payments may vary by the living situation of the recipient as well as by geographic area within the State and include federally administered and state-administered payments.

Child's benefit payable to a full-time unmarried elementary or secondary school student aged 18-19. Student's benefits end at age 19 or at the end of the current semester or quarter, whichever is later. Before May 1985, student's benefits were payable to certain post-secondary students aged 18-22.

Remunerative work that is substantial, as determined from consideration of the amount of money earned, and/or the number of hours worked, and the nature of the work. See table 2.A30 for money amounts.

See "Mother's benefit."

See "Widower's benefit" and "Widow's benefit."

Benefit payable to a survivor of a deceased worker.
A benefit not in current-payment status for any of the reasons listed under "Withholding."
Taxable wages and/or self-employment income under the prevailing annual maximum taxable limit. See table 2.A3 for the maximum in effect since the beginning of program.

See "Annual maximum taxable limit (HI) and (OASDI)."

Net earnings from self-employment, generally above $\$ 400$ and below the annual taxable and creditable maximum amount for a calendar or other taxable year, less any taxable wages in the same taxable year.

Wages paid for services rendered in covered employment up to the annual taxable maximum for OASDI and on all earnings for HI . In some cases, wages must also be above a specified amount to be taxed and credited (for example, $\$ 100$ or more in a calendar year for employment in certain nonprofit organizations or for services not in the course of an employer's trade or business). The threshold for coverage of a domestic employee's wages was raised from $\$ 50$ per calendar quarter to $\$ 1,000$ per calendar year effective in 1994. For years after 1995, this amount will increase in $\$ 100$ increments as average wages rise.

The amount based on a percent of earnings, up to an annual maximum for OASDI and on all earnings for HI , that must be paid by-
(1) employers and employees on wages from employment under the Federal Insurance Contributions Act (FICA),
(2) the self-employed on net earnings from self-employment under the SelfEmployment Contributions Act (SECA), and
(3) State or local governments on the wages of state and local government employees covered under the Social Security Act.

## See "Entitlement."

Cessation of payment of a specific type of benefit because the beneficiary is no longer entitled to receive it. In some cases, the individual may become immediately entitled to another type of benefit. These actions are called conversions; see "Award." The major reasons for termination are:
(1) death of beneficiary;
(2) for spouse and child beneficiaries, termination of the benefit of the retired or disabled worker on whose earnings record their auxiliary entitlement is based;
(3) for spouse beneficiaries under age 62 and widowed mother or father beneficiaries, termination of the benefit of the youngest or disabled child, or attainment of age 16 by the youngest child;
(4) attainment of the statutory age limit for certain types of benefits, for example, age 65 for disabled workers and age 18 for minor children;
(5) for certain types of auxiliary benefits, marriage, divorce, remarriage, or adoption;
(6) beneficiary no longer meets the definition of disability (termination data

do not include disabled persons whose monthly benefits have been suspended because of their ability to engage in substantial gainful activity; see "Disability reentitlement period");
(7) entitlement to another equal or larger Social Security benefit; and
(8) student beneficiary no longer attending school.

The proportion of all SMI claims received by SMI carriers in which the physician or supplier agrees to accept the carrier's determination of "allowable" charges. In unassigned claims, the beneficiary is liable to the physician or supplier for all charges and is reimbursed by the carrier only for that portion deemed allowable by the carrier, subject to deductible and coinsurance provisions.

- HI. Sum of charges for noncovered services and covered services before application of deductible and coinsurance.
- SMI. Total covered charges allowed by the carriers, including deductible and coinsurance amounts.
The process by which persons having at least 6 U.S. quarters of coverage, but other wise ineligible for Social Security benefits, may meet eligibility requirements by combining their U.S. periods of coverage with periods of coverage earned in a foreign country with which the United States has signed a Social Security agreement. The total period of coverage must still meet normal eligibility requirements. A partial benefit is computed based on the proportion of total covered work completed in the United States. See section "2A OASDI: Coverage, Financing, and Insured Status."

Monthly benefit payable to certain persons before Jan. 2, 1897, under the transitionally insured status provisions.

Persons receiving Social Security disability benefits are generally entitled to a 9 -month trial work period during which monthly benefits continue. If the beneficiary's disability has ended after completion of the trial work period, monthly benefits are continued for an additional 3 months and then entitlement is terminated. Effective January 1992, a disabled beneficiary would exhaust the trial work period only if services were performed in any 9 months within a period of 60 consecutive months. For a discussion of procedures when the disabling condition continues, see "Disability reentitlement period."

Four separate accounts in the U.S. Treasury in which are deposited the equivalent of taxes received under the Federal Insurance Contributions Act, the Self-Employment Contributions Act, contributions dealing with coverage of state and local government employees, any sums received under the financial interchange with the railroad retirement account, voluntary hospital and medical insurance premiums, and transfers of federal general revenues. Funds not withdrawn for current monthly or service benefits, the financial interchange, and administrative expenses are invested in interest-bearing federal securities, as required by law. The interest earned is also deposited in the trust funds.

- Old-Age and Survivors Insurance (OASI). The trust fund used for paying monthly benefits to retired-worker (old-age) beneficiaries and their spouses and children and to survivors of insured workers.
- Disability Insurance (DI). The trust fund used for paying monthly benefits to disabled-worker beneficiaries and their spouses and children and for providing rehabilitation services to the disabled.
- Hospital Insurance (HI). The trust fund used for paying part of the costs of inpatient hospital services and related post-hospital care for aged and disabled individuals who meet the eligibility requirements.
- Supplementary Medical Insurance (SMI): The trust fund used for paying part of the costs of physicians' services, outpatient hospital services, and other related medical and health services for voluntarily insured aged and disabled individuals.

## Widowed father's benefit (OASI)

## Widowed mother's benefit

(OASDI)

Widow's benefit
(OASDI)

See "Father's benefit."

See "Mother's benefit."

Monthly benefit payable to: (1) a widower or surviving divorced husband of a worker fully insured at the time of death if he is (a) aged 60 or older or (b) aged 50-59 and has been disabled throughout a waiting period of 5 consecutive calendar months that began no later than 7 years after the month in which the worker died or after the end of his entitlement to benefits as a widowed father, or (2) a widower of a transitionally insured worker if he was born before Jan. 2, 1897.

A surviving divorced husband's marriage to a worker must have lasted 10 years before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widowers and surviving divorced husbands who remarry after the age of first eligibility for benefits.

Effective January 1991, benefits may be payable to a deemed widower, including a divorced deemed widower. A deemed widower is a person who entered into an invalid ceremonial marriage in good faith. See also "Limitation of widow(er)'s benefit (OASDI)."

Monthly benefit payable to: (1) a widow or surviving divorced wife of a worker fully insured at time of death if she is (a) aged 60 or older or (b) aged 50-59 and has been disabled throughout a waiting period of 5 consecutive calendar months that began no later than 7 years after the month in which the worker died or after the end of her entitlement to benefits as a widowed mother, or (2) a widow of a transi tionally insured worker if she was born before Jan. 2, 1897.

A surviving divorced wife's marriage to a worker must have lasted 10 years before the divorce became final. Effective for benefits payable after December 1983, benefits are continued for disabled widows and surviving divorced wives who remarry after the age of first eligibility for benefits. See also "Limitation of widow(er)'s benefit (OASDI)."

Effective January 1991, benefits may be payable to a deemed widow, including a divorced deemed widow. A deemed widow is a person who entered into an invalid ceremonial marriage in good faith.

Monthly benefit payable to a wife or a divorced wife of a retired or disabled worker under one of the following conditions:
(1) the wife is aged 62 or older or has an entitled child of the worker in her care who is under age 16 or is disabled; or
(2) the divorced wife is aged 62 or older and was married to the worker for 10 years before the divorce became final. Effective with benefits payable after December 1984, a divorced wife of an eligible worker can be entitled to benefits if she meets the requirements for entitlement and has been divorced for at least 2 years, regardless of whether the worker has filed for benefits or has benefits withheld due to the earnings test. Effective with benefits payable beginning January 1991, the 2-year period is waived if the worker was entitled to benefits before the divorce. The earnings test will continue to apply to the divorced wife's own earnings; or
(3) a transitionally insured worker's wife born before Jan. 2, 1897; or
(4) effective with benefits payable beginning January 1991, a deemed spouse (including a divorced deemed spouse) regardless of whether the legal spouse is entitled to benefits on the same earnings record. A deemed spouse is a person who entered into an invalid ceremonial marriage in good faith.

## Windfali elimination provision

(OASDI)

Withholding
(OASDI)

Worker (OASDI)

Workers' compensation (and public (and public disability benefits) offset
(DI)

Benefit computation for retired and disabled-worker beneficiaries first eligible for OASDI benefits after 1985, who become eligible for a periodic pension payment after 1985, based on noncovered employment. See table 2.A11.

Suspension of benefit payments until the condition(s) causing deductions are known to have ended. Suspension of monthly benefit payments does not affect eligibility for hospital insurance benefits. The major reasons for withholding benefits are:
(1) Earnings in excess of exempt amounts under provisions of the annual earnings test;
(2) for spouses and surviving spouses, receipt of offsetting government pensions;
(3) failure of a wife or husband under age 62 or mother or father beneficiary to have an entitled child in her or his care;
(4) refusal of a disabled person to accept rehabilitation services;
(5) spending determination of continuing disability;
(6) for special age-72 beneficiaries, receipt of public assistance, Supplemental Security Income payments, or offsetting government pensions;
(7) workers' compensation and/or public disability benefit offset for disabled workers and dependents;
(8) payee not determined;
(9) for beneficiaries confined to a jail, prison, or other penal institution or correctional facility, who are convicted of a crime punishable by imprisonment for more than 1 year (regardless of actual sentence imposed), and for criminally insane individuals confined to institutions for an offense punishable by imprisonment for more than 1 year;
(10) administrative reasons such as (a) the inability to locate the beneficiary, (b) the beneficiary's residence is in certain foreign countries, and under certain conditions, an alien beneficiary's residence outside the United States for more than 6 full consecutive calendar months;
(11) for disabled beneficiaries, engaging in substantial gainful activity in the disability reentitlement period following a trial work period; benefits for spouses and children of disabled workers are also suspended;
(12) technical entitlement where a beneficiary is entitled to benefits on more than one earnings record but is eligible to receive benefits on only one earnings record. See "Entitlement (OASDI)."

A person who has earnings creditable for Social Security purposes on the basis of services for wages in covered employment or on the basis of income from covered self-employment. Data on covered self-employment exclude self-employed persons who had no self-employment income taxable or creditable under Social Security because they had wages or salaries reaching the annual taxable maximum reported for the same year.

The total amount of benefits received under workers' compensation programs and the Social Security Disability Insurance program is limited by a Social Security Act offset provision. Under this provision, a reduction in the disabled-workers' benefit (and in family benefits based on the worker's earnings record) may be made for any month to fully or partially offset workers' compensation benefits or certain other federal, state, or local disability benefits received for the same month. This reduction is made only if the total Social Security benefits payable to the worker (and dependents), plus those paid the worker as workers' compensation, exceed the higher of 80 percent of his or her "average current earnings" before the onset of disability, or the family's total Social Security benefit before the reduction. The disabled-workers' benefit will not be reduced if the workers' compensation law provides for the reduction of that benefit when he or she is entitled to disabledworkers' benefits, if such provision was in effect in February 1981.

## Social Security Bulletin

 This quarterly journal has been a mainstay in the income secunty research arena for more than 60 years. Its analytical articles contribute to the discussion on how we as a nation can provide the best system of economic security for the aged, disabled, and survivors of deceased workers, and how we can protect our vulnerable poor. Each issue also contains the latest available data on benefits and beneficiaries under Social Security (retirement, survivors, and disability programs) and the Supplemental Security Income program.
## Fast Facts \& Figures

About Social Security
Your frequently asked questions are answered in this easy to-to-understand chartbook. Most of the data are from the detailed statistical tables published in the Annual Statistical Supplement. This booklet highlights the role of Social Security and SSI in helping to reduce poverty, especially among children. Data are also presented on the economic status of our older population.

## Income of the Population

55 or Older
Detailed information can be found in the more than 70 statistical tables in this biennial report. They focus on the major sources of income-Social Security benefits, assets, pensions, earnings, and public assistance-and amounts of income, with special emphasis on some aspects of the income of those 65 or older. The data are shown by age, sex, marital status, and Hispanic origin.

## Income the Aged Chartbook

This quick reference with easy to understand graphics highlight selected data from the detailed tabular report Income of the Population 55 or Older described above. The charts also include tabulations to show you the extent to which aged persons rely on vanious sources of income.

## Social Security Programs

Throughout the World
The edition gives a cross-national comparison of the social secunity systems in 172 countries. From Afghanistan to Zimbabwe, this report summarizes country-by-county the five main social insurance programs: Old-age, disability, and survivors; sickness and maternity; work injury; unemployment; and family allowances.

For 1973-77, frorn data collected on all taxable wages reported to SSA; for 1957-72, based on 1\% statistical sarnple; for 1951-56, based on $1 / 10$ of $1 \%$ statistical sarnple. For 1978-84, from wage data collected by the Internal Revenue Service during processing of annual tax returns. For years after 1984, from W-2 data processed by SSA. For years after 1977, the average wage amounts have been adjusted to be consistent with the pre-1978 series.

[^6]:    ${ }^{1}$ Altemative PIA applicable when it exceeds the regularly computed PIA. The usual rates of actuanal reduction apply for retirement before age 65. No delayed retirement credits are applicable to the benefit derived from the special minimum PIA (but the resulting Old-Age Insurance benefit will be raised if necessary to equal the benefit derived from the regularly computed PIA plus any delayed retirement credits).

[^7]:    ${ }^{2}$ The amount effective for a given month applies, as of that month, to all workers from the date of entitlement to benefits.
    ${ }^{3}$ Provision for future automatic cost-of-living increases of amount per year of coverage (and maximum amount), beginning with the June 1979 increase.
    ${ }^{4}$ Amounts are approximate.

[^8]:    ${ }^{1}$ The 1977 amendments provided for annual automatic adjustments of bend points (PIA brackets) in maximum family benefit formula in proportion to increases in average wage level. As a result, separate formulas are applicable to workers first eligible in successive calendar years.
    ${ }_{2}$ Applicability of formula limited to workers with initial entitlement before July 1980, as a result of 1980 amendments.
    ${ }^{3}$ Calculated amount subject to cost-of-living adjustments beginning with the one

[^9]:    ${ }^{1}$ Old-age benefit under 1935 Act and primary insurance benefit (PIB) under 1939 Act. Effective for September 1950, the PIB became an intermediate step in benefit computations based on creditable eamings after 1936; a conversion table was introduced into the law for determining the PIA from the PIB. Each time a benefit increase becomes effective (see table 2.A16 for benefit increases since 1950), a new conversion table incorporating the increase takes effect.
    ${ }^{2}$ Under this computation method, a period of disability that began before 1951 is not taken into account. Earlier provisions remained in effect for workers who

[^10]:    ${ }^{2}$ Subject to reduction if claimed before age 65.
    ${ }^{2}$ For AMW of $\$ 628$ or more, $175 \%$ of PIA.
    ${ }^{3}$ Superseded by $1973 b$ legislation.
    ${ }^{4}$ Beginning in 1975, minimum PIA and percentages in maximum family benefit formula subject to automatic cost-of-living increases. (Superseded 1972a legisla-

[^11]:    ${ }^{1}$ The increase on the effective date is shown in boldface.

[^12]:    Example 1 - AIME of $\$ 300$
    PIA is $\$ 270$
    Based on: 90 percent of $\$ 300$
    Example 2 - AIME of $\$ 952$
    PIA is $\$ 597.54$ rounded to \$597.50
    Based on: 90 percent of $\$ 505$
    (\$454.50); plus
    32 percent of $\$ 447$
    (\$143.04)
    Example 3 - AIME of $\$ 3,300$
    PIA is $\$ 1,305.21$ rounded to \$1,305.20
    Based on: 90 percent of $\$ 505$
    (\$454.50); plus
    32 percent of $\$ 2,538$
    (\$812.16); plus
    15 percent of $\$ 257$
    (\$38.55)

[^14]:    ${ }^{1}$ Under 1939 Act, generally not available to child of marnied female worker. Under 1950 Act, available if female worker is fully and currently insured; currently insured requirement eliminated by 1967 Act.
    ${ }^{2}$ Northem District of Califomia Distnict Court decision in Oliver v. Califano,

[^15]:    ${ }^{1}$ Under 1939 Act, generally not available to child of marnied female worker. Under 1950 Act, available if female worker is fully and currently insured; currently insured requirement eliminated by 1967 Act.
    ${ }_{2}^{2}$ Oregon District Court decision in Ambrose v. Harris, July 17, 1980. Statutory change enacted in 1983.

[^16]:    ${ }^{1}$ Reduced by amount of any govemment pension excluding workers' compensation benefits and veterans' compensation for service-connected disability or death. Not available for persons receiving assistance.
    ${ }^{2}$ Provision for future automatic cost-of-living adjustments.
    ${ }^{3}$ Suspended by 1973 b legislation.
    ${ }^{4}$ Beginning June 1975 , subject to automatic cost-of-living adjustments. Benefits

[^17]:    ${ }^{1}$ Annual earnings are calculated by multiplying the federal minimum wage by 2,080 hours (see table 3.B3). Increases in the minimum wage during the year are prorated.
    ${ }^{2}$ See table 2.A8, column 2.
    ${ }_{4}^{3}$ See table 2.A9, column 1.
    4 Assumes the worker began to work at age 22, retired at age 62 in 1998 with maximum reduction, and had no prior period of disability.
    ${ }_{5}$ Assumes the deceased worker began to work at age 22, died in 1998 at age

[^18]:    ${ }^{1}$ Benefit first available at age 62 to female workers effective November 1956 and to male workers effective August 1961.
    ${ }^{2}$ Assumes the worker began to work at age 22, retired at the beginning of the year, had no earnings after retirement and had no prior period of disability.
    ${ }^{3}$ Final benefit amount payable after SMI premium or any other deduction is rounded to next lower \$1.

[^19]:    © Effective for February 1968
    ${ }^{5}$ Derived from transitional guarantee computation based on 1978 PIA table
    ${ }^{6}$ Minimum PIA eliminated by 1981 legislation for workers who attain age 62 in 1982 or later. (The minimum is retained until 1991 for members of religious orders who are under a vow of poverty, provided that the order had elected Social Secunty coverage before Dec. 29, 1981.)

[^20]:    ${ }^{1}$ Monthly test for self-employment income is defined in terms of substantial services. For taxable years beginning after Dec 31, 1977, monthly test eliminated for both wage and self-employment income except that each individual may use monthly test for 1 grace year, usually the year of retirement.
    ${ }^{2}$ Eamings of retired-worker beneficiary affect total monthly family benefit. Eamings of dependent or survivor beneficiary affect only his or her benefit. However, effective January 1985, eamings of retired-worker beneficiary do not affect benefit to divorced spouse who has been divorced at least 2 years. Effective for benefits after December 1990, the 2 -year requirement is waived, if the worker was entitled to benefits before the divorce.
    ${ }_{4}^{3}$ Applied to self-employment income only.
    ${ }^{4}$ Special provisions for earnings in noncovered employment outside the United States.

[^21]:    ${ }^{5}$ Became effective due to automatic adjustment provisions mandated by the 1972b Act (as modified by the 1973a and 1973b Acts).
    ${ }^{6}$ Age 65 for beneficiaries who attain age 62 (age 60 for widows and widowers) before 2000 , gradually increasing to age 67 for beneficiaries who attain age 62 in 2022 or later.
    ${ }^{7}$ Discretionary increase included in 1977 legislation.
    ${ }^{8}$ Actual amount is $\$ 1,041.662 / 3$.
    ${ }^{9}$ Actual amount is $\$ 1,208.331 / 3$.
    ${ }^{10}$ Actual amount is $\$ 1,291.662 / 3$.
    ${ }_{11}$ Actual amount is $\$ 1,416.662 / 3$.
    ${ }^{12}$ Actual amount is $\$ 2,083.331 / 3$.

[^22]:    ${ }^{1}$ Eamings are net of any wage subsidies and impairment-related expenses. SGA guidelines for self-employed individuals differ from the guidelines for wage earners. Self employment activity is generally examined in terms of time spent and degree of effort, as compared to that of non-disabled self-employed individuals.
    ${ }^{2}$ Eamings above the maximum amount ordinarily demonstrate substantial gainful activity (SGA); eamings below the minimum amount show that SGA has not occurred. When eamings are between the maximum and minimum, other factors are considered.
    ${ }^{3}$ The 1977 amendments provided that, effective 1978, eamings of blind

[^23]:    ${ }^{1}$ Adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population.
    ${ }^{2}$ Includes workers' compensation benefits to the extent they cause a

[^24]:    ${ }^{1}$ Adjusted gross income (before Social Security or Railroad Retirement benefits are considered), plus tax-exempt interest income, with further modification of adjusted gross income in some cases involving certain tax provisions of limited applicability among the beneficiary population.
    ${ }^{2}$ Social Security and Tier 1 Railroad Retirement benefits, including workers' compensation benefits to the extent they cause a reduction in either of these two types of benefits.
    ${ }^{3}$ For married couples filing joint retums, up to 50 percent of benefits are subject to income tax if gross income is over $\$ 32,000$ but less than $\$ 44,000$. If gross income is less than $\$ 32,000$, none of the Social Security benefits will be taxable.

[^25]:    * The word "Act" represents legislation enacted in the year shown.

[^26]:    ${ }^{1}$ Beginning in 1990, the law allowed (1) a reduction in net self-employment earnings to which the OASDI and HI tax applies and (2) an income tax deduction of one-half the OASDI and HI taxes paid.

[^27]:    *"Act" refers to legislation enacted in the year shown; the Social Security: History of Provisions section provides additional details.
    **See the subsection Coverage, Financing, and Insured Status in the Social Security: History of Provisions section for Employment Covered and Maximum Taxable Earnings and Taxes.

[^28]:    ${ }^{1}$ Section 1905 (b) of the Social Security Act specifies the method to be used to compute the Federal medical assistance percentage. From this section the following formula is derived:
    $N=3$ year average national per capita personal income
    $S=3$ year average State per capita personal income
    Federal medical assistance percentage:
    State share $=\left(S^{2} / N^{2}\right) \times 45$ or $\left(45 / N^{2}\right) \times S^{2}$
    Federal share $=100$. State share with $50-83$ percent limits
    ${ }^{2}$ Effective Oct. 1, 1997, through Sept. 30, 1998.
    ${ }^{3}$ Effective Oct. 1, 1998, through Sept. 30, 1999.

[^29]:    ${ }^{4}$ Effective Oct. 1, 1999, through Sept. 30, 2000.
    ${ }_{5}$ This is the Title XXI enhanced Federal medical assistance percentage rate specified in Section 2105(b) of the Act. The enhanced Federal medical assistance percentage is limited to no more than 85 percent.
    ${ }^{6}$ For 1998, 1999, and 2000, the values in the table were set for State plans under Titles XIX and XXI and for capitation payments and DSH allotments under those titles. For other purposes, the percentage for Alaska is 52.26 and for the District of Columbia 50 percent.
    ${ }^{7}$ For purposes of Section 1118 of the Social Secunty Act, the Federal medical assistance percentage used under Titles I, X, XIV, and XVI, and Part A of Title IV will be 75 percent.

[^30]:    ${ }^{1}$ Effective in fiscal year 1987, the Primary Care Block Grant was repealed by the Health Services Amendment Act of 1985 (P.L. 99-80) enacted April 26, 1986.

[^31]:    ${ }^{2}$ Funds include regular and emergency LIHEAP block grants, leveraging incentive fund awards, and REACH awards.

[^32]:    ${ }^{1}$ On duty at end of fiscal year.
    ${ }^{2}$ Includes full-time, part-time, and temporary employees; employees in special programs; and overtime hours worked.
    ${ }^{3}$ Includes 1,055 positions that were transferred from the Departmenit of Health and Human Services to SSA when SSA became an independent agency (under P.L. 103296, effective Mar. 31, 1995).

[^33]:    ${ }^{1}$ Includes persons aged 65 or older who are eligible for a blind or disabled SSI payment.

[^34]:    ${ }^{1}$ Data not available.
    ${ }^{2}$ Represents calendar year data.
    ${ }^{3}$ Excludes determinations of disability.

[^35]:    ${ }^{4}$ Percentages exclude errors of less than $\$ 5$. Any payments to ineligible beneficiaries are included regardless of the dollar amount of the error.
    ${ }^{5}$ Represents cases free of decisional and documentation errors.

[^36]:    ${ }^{1}$ Estimated data.

[^37]:    1 Through 1976, fiscal year ended June 30 for federal government, most states, and some localities. Beginning in 1977, federal fiscal year ended Sept. 30.
    2 Revised data.
    ${ }^{3}$ Represents program and administrative expenditures from federal, state and local public revenues and trust funds under public law. Includes workers' compensation and temporary disability insurance payments made through private carriers and self-insurers. Includes capital outlay and some expenditures abroad.
    ${ }^{4}$ Combines "health and medical programs" with medical services provided in connection with social insurance, public aid, veterans', and "other social welfare" categones.

    5 Less than 0.05 percent.

[^38]:    ${ }^{1}$ Expenditures from federal, state, and local revenues and trust funds under public law; includes capital outlays and administrative expenditures unless otherwise noted. Includes some payments abroad. Through 1976, fiscal year ended June 30 for federal government, most states, and some localities; for federal government, beginning in 1977 , fiscal year ends Sept. 30 . 2 Revised data.
    ${ }^{3}$ Excludes financial interchange between OASDI and Railroad Retirement.
    ${ }^{4}$ Hospital Insurance and Supplementary Medical Insurance. Included in total shown directly above.
    ${ }^{5}$ Excludes refunds of employee contributions; includes payments to retired military personnel and survivors. Administrative expenses for federal noncontributory retirement not available.
    ${ }^{6}$ Includes unemployment compensation under state programs, programs for federal military and civilian employees and trade adjustment and cash training allowances, and payments under extended, emergency, disaster, and special unemployment insurance programs.
    ${ }^{7}$ Cash and medical benefits in five areas; includes private plans where applicable and state costs of administering state plans and supervising private plans. Administrative expenses of private plans and all data for Hawaii not available.
    ${ }^{8}$ Cash and medical benefits paid under federal and state laws by private insurance carriers, state funds, and self-insurers. Beginning in 1959-60, includes Alaska and Hawaii. Administrative costs of private carriers and self-insurers not available. Beginning in 1969-70, includes federal "black lung" benefit program.
    ${ }^{9}$ Categorical cash and medical payments under the Social Security Act, and general assistance from state and local funds. Beginning in 1968-69, includes work-incentive activities.
    ${ }^{10}$ Income-maintenance payments began in Jan. 1974.
    11 Work relief, other emergency aid, surplus food for the needy, repatriate and refugee assistance, and work-experience training programs. Beginning 1974 includes WIC program. Beginning in 1981, includes Low-Income Home Energy Assistance.
    ${ }^{12}$ Excludes state and local expenditures for domicilliary care in institutions other than mental and tuberculosis, and services in connection with OASDI, state temporary disability insurance, workers' compensation, public assistance, vocational rehabilitation, and veterans' programs which are included in expenditures for these programs.
    ${ }^{13}$ Civilian and Department of Defense programs (including medical care provided to military dependents).
    14 Includes services for disabled children.
    15 Includes burial awards. Beginning in 1964-65, includes special allowances for survivors of veterans who did not qualify under OASDI. Beginning in 1973-74, subsistence payments to disabled veterans undergoing training shifted from the pensions and compensation to the education subgroup.
    ${ }^{16}$ Excludes the service persons' group life insurance program.
    ${ }^{17}$ Beginning in 1973-74, excludes administrative expenses.
    ${ }^{18}$ Federal expenditures represent primarily surplus food for institutions.
    19 Surplus food for schools and programs under National School Lunch and Child Nutrition Acts.
    20 Represents primarily child welfare services under the Social Security Act. Beginning in 1968-69, excludes administrative expenses.
    21 Includes domestic programs consolidated in 1971-72 under ACTION and special Office of Economic Opportunity programs. Beginning 1988, represents ACTION funds only.
    ${ }^{22}$ Federal expenditures include administrative and related expenses of the Secretary of Health and Human Services; Indian welfare and guidance, aging and juvenile delinquency, and certain manpower and human development activities. State and local expenditures include amounts for antipoverty and manpower programs, day care, child placement and adoption services, foster care, legal assistance, care of transients, and other unspecified welfare services; before 1969-70, these amounts were included with institutional care.

[^39]:    1 Includes program administration and net cost of health insurance, research, and construction of medical facilities.
    2 Includes construction.
    ${ }^{3}$ Represents sum of public and private expenditures as a percent of GDP, after adjustment for elimination of overlap. The overlap occurs when payments received under public or private income-maintenance programs are used to purchase medical care, educational services, or residential care.

    4 Represents fiscal year expenditures as a percent of federal fiscal year GDP.
    5 Represents calendar year expenditures as a percent of calendar year GDP.

[^40]:    1 Beginning in 1953, total adjusted for duplication of payrolls covered by both OASDHI and state and local govemment retirement systems. Beginning in 1984 , total adjusted for duplication of payrolls covered by both OASDHI and the federal Civil Service retirement system.

    2 Taxable plus nontaxable wages and salaries in employment covered by the programs. (For taxable eamings under OASDHI, see table 4.B1.) Beginning in 1957,
    OASDHI estimates include military wages. Beginning in 1975, OASDHI estimates include a small amount of taxable wages in Amercian business in U.S territories and possessions.
    ${ }^{3}$ Excludes railroad employees.
    ${ }^{4}$ Taxable plus nontaxable wages.
    5 Revised data.
    ${ }^{6}$ Data not available.

[^41]:    1 For year in which minimum wage rate changes were effective.
    2 The 1938 Act was applicable generally to employees engaged in interstate commerce or in the production of goods for interstate commerce.
    ${ }^{3}$ The 1961 amendments extended coverage primarily to employees in large retail and service trades as well as local transit, construction, and gasoline service station employees.

    4 The 1966 amendments extended coverage to state and local government employees of hospitals, nursing homes, and schools, and to employees of laundries, dry cleaners, large hotels and motels, restaurants, and farms. Subsequent amendments extended coverage to the remaining federal, state, and local employees not protected in 1966, to certain workers in retail and service trades previously exempted, and to certain domestic workers in private household employment.
    ${ }^{5}$ A training wage may be paid for a period of 90 days to an employee who has not attained age 20 . The training wage was $\$ 3.35$ per hour effective Apr. 1,1990 and $\$ 3.61$ per hour effective Apr. 1, 1991, through Mar. 31, 1993. Effective Oct. 1, 1996, the training wage is $\$ 4.25$ per hour.

[^42]:    ${ }^{1}$ Data from Bureau of Labor Statistics, Consumer Price Index for All Urban Consumers (CPI-U).
    ${ }^{2}$ Beginning in 1974, represents payments to the aged under the SSI program.
    3 Effective July 1, 1997, the Temporary Assistance for Needy Families (TANF) block grant program replaced the Aid to Families with Dependent Children (AFDC) program. Beginning in 1997, payments include services.

[^43]:    1 Population data for 1998 on which ratios are based furnished by Population Estimates Branch, Bureau of the Census.
    2 For 1940-73, data refer to Old-Age Assistance program. Beginning January 1974, the Supplemental Security Income program superseded the Old-Age Assistance program in the 50 states and the District of Columbia.

[^44]:    ${ }^{1}$ Includes noninstitutionalized civilian population residing in the 50 states and the District of Columbia.
    ${ }^{2}$ Persons of Hispanic origin may be of any race.

[^45]:    1 Beginning in January 1978, the Bureau of Labor Statistics introduced a new price index for all urban consumers (CPI-U) that forms a continuous series with the earlier index for urban wage earners and for clerical workers as of December 1977.
    ${ }^{2}$ Preliminary data; 1997 weighted average poverty levels raised by a factor of 1.015576 to correspond with the 1998 increase from the 1997 Consumer Price Index (CPI-U) for all uban consumers.

    Note: Three technical changes in the definition of poverty are described in "Characteristics of the Population Below the Poverty Level, 1980," U.S. Census Bureau, Current Population Reports, Series P-60, No. 133: (1) Distinctions based on the sex of the family householder will no longer be made; (2) income thresholds for farm families will be the same as for nonfarm families of the same size and composition, and (3) the increased sample size will now permit separate poverty income criteria for families of 7,8 , and 9 or more persons. Separate criteria for these family sizes by number of children have been developed by the Social Security Administration for the base year 1978 on the same basis as the original poverty matrix for smaller family sizes, and then updated by means of the all-items Consumer Price Index.) The thresholds for larger families beginning in 1980 are:

[^46]:    1 Data for 1970 and 1975 are based on the 1970 Census of Population controls.
    2 Income and poverty status refer to the calendar year shown; family status is as of March of the succeeding year.
    ${ }^{3}$ Based on revised methodology.
    ${ }^{4}$ Includes Armed Forces in the United States living off post or with families on post. Excludes unrelated individuals under age 16.
    5 Includes children in families with both spouses present and in families with male householder with no spouse present.
    ${ }^{6}$ Includes persons under age 18 listed as unrelated individual, family householder, spouse of householder, or other family member.

[^47]:    ${ }^{1}$ Household surveys tend to underestimate the number of income recipients and income sources such as interest, dividends, rents, veterans' payrnents, unemployment compensation, and workers' compensation are more underreported than others. For more detail, see U.S. Census, The Value of Noncash Benefits: 1979-82, Technical Paper No. 52, Appendix F.
    ${ }^{2}$ Poverty status based on money income of all family members after receipt of OASDI and any other cash transfer payments.
    ${ }^{3}$ Received by individuals or any family member at any time during 1997. Most individuals or families received more than one type of income during the year.
    4 Social Security may include more than one type of income during the year.
    5 Unemployment insurance, workers' compensation, or veterans' payments.
    ${ }^{6}$ Less than 0.05 percent.

[^48]:    ${ }^{1}$ Living arrangements as of March 1998. Poverty status in 1997 as reflected by income of unrelated individual or family money income for year compared with official poverty income criterion for families of approprate size and composition.
    ${ }^{2}$ Aged family members who are neither the family householder nor the spouse of the householder. Official poverty classification is based on combined income of all related persons living together. Persons in this group are classified here on the basis of official poverty criteria for family income and on a comparison of their own income with official poverty criteria for elderly persons maintaining their own hcuseholds. The hidden poor are other relatives in nonpoor households whose own income is below the official poverty line for unrelated individuals or married couples.

[^49]:    1 Payments under Old-Age, Survivors, and Disability Insurance program any time in 1997 to any family member as reported in the March 1998 Current Population Survey. For 1987, according to program records, receipt of Social Security benefits reported by survey respondents represented 92 percent of aggregate Social Security payments.
    ${ }_{2}$ Includes other races.
    ${ }^{3}$ Less than 0.05 percent.
    Source: Public use file of the March 1998 Income Supplement, Current Population Survey, U.S. Census. For a discussion of standard errors of estimated numbers and percentages, see Bureau of the Census, Current Population Reports, P-60 series.

[^50]:    See footnotes following table 4.A3

[^51]:    ${ }^{1}$ Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957 and later, if such credits were considered to be covered wages.

    2 Includes payments (1) in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; and (2) in 1971-82, for costs of deemed wage credits for military service performed after 1956.
    ${ }^{3}$ Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged currently to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in July 1974 , the figures shown include relatively small amounts of gifts to the fund. Figures for 1983-86 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983-90, interest paid from the trust fund to the general fund of the Treasury on advance tax transfers is reflected. The amount shown for 1985 includes an interest adjustment of $\$ 14.8$ million on unnegotiated checks issued before April 1985 .
    ${ }^{4}$ Beginning in 1966, includes payments for vocational rehabilitation services fumished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

    5 Less than $\$ 0.5$ million.
    ${ }^{6}$ Amount equals total receipts less total expenditures, less amounts loaned or plus amounts repaid under interfund borrowing provisions.
    ${ }^{7}$ Reflects $\$ 195$ million in transfers from the DI Trust Fund to the general fund of the Treasury to correct estimated amounts transferred for calendar years 1984 and 1985.

[^52]:    ${ }^{1}$ Beginning in 1983, includes transfers from the general fund of the Treasury representing contributions that would have been paid on deemed wage credits for military service in 1957 and later, if such credits were considered to be covered wages.

    2 Includes payments (1) in 1947-51 and in 1966 and later, for costs of noncontributory wage credits for military service performed before 1957; (2) in 1971-82, for costs of deemed wage credits for military service performed after 1956; and (3) in 1968 and later, for costs of benefits to certain uninsured persons who attained age 72 before 1968.
    ${ }^{3}$ Net interest includes net profits or losses on marketable investments. Beginning in 1967, administrative expenses are charged currently to the trust fund on an estimated basis, with a final adjustment, including interest, made in the following fiscal year. The amounts of these interest adjustments are included in net interest. Beginning in October 1973, the figures shown include relatively small amounts of gifts to the fund. Figures for 1983-86 reflect payments from a borrowing trust fund to a lending trust fund for interest on amounts owed under the interfund borrowing provisions. During 1983-90, interest paid from the trust fund to the general fund of the Treasury on advance tax transíers is reflected. For the OASI Trust Fund, the amount shown for 1985 includes an interest adjustment of $\$ 88$ million on unnegotiated checks issued before April 1985 . For the OASI and DI Trust Funds, combined, the amount shown for 1985 includes an interest adjustment of $\$ 102.8$ million on unnegotiated checks issued before April 1985.
    ${ }^{4}$ Beginning in 1966, includes payments for vocational rehabilitation services fumished to disabled persons receiving benefits because of their disabilities. Beginning in 1983, amounts are reduced by amount of reimbursement for unnegotiated benefit checks.

    5 Amount equals total receipts less total expenditures, plus amounts borrowed or less amounts repaid under interfund borrowing provisions

[^53]:    1 Unnegotiated checks not deducted.
    2 Vocational rehabilitation services to disabled workers and disabled children under the 1965 Amendments to the Social Security Act and to disabled widows and widowers under the 1967 Amendments to the Social Security Act.
    ${ }^{3}$ Data from Bureau of Economic Analysis. Figures subject to revision.
    4 For 1937-39, refunds and lump-sum death payments under the Social Security Act of 1935.
    5 Less than 0.05 percent.
    ${ }^{6}$ Less than $\$ 0.5$ million.

[^54]:    ${ }^{1}$ Type of benefit estimated. Unnegotiated checks not deducted.
    ${ }^{2}$ Less than $\$ 0.5$ million.

[^55]:    ${ }^{1}$ Type of benefit estimated. Unnegotiated checks not deducted.

[^56]:    ${ }^{1}$ Relates to wage and salary workers for 1937-50. Beginning in 1951, includes self-employment. See table 2.A3 for annual maximum taxable earnings.
    ${ }^{2}$ Excludes railroad account numbers. Since program began, 392 million Social Security numbers have been issued. (Some individuals have been issued more than one number.)
    ${ }^{3}$ Workers reported with first taxable earnings under program in specified year. During 1937-96, 285.5 million different persons reported with taxable earnings.
    ${ }^{4}$ Total wages, including estimated amounts above taxable limit, for 1937-50. Beginning in 1951, also includes reported total net earnings of self-employed persons.
    ${ }^{5}$ Preliminary data.
    ${ }^{6}$ Taxable earnings are preliminary estimates based on Social Security data; employment and total covered eamings are preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.
    ${ }^{7}$ Data not available.
    ${ }^{8}$ Preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.

[^57]:    ${ }^{1}$ Represents total number in specified type of employment. Persons with both types of covered employment during the year are included in each type.
    ${ }^{2}$ Total wages, including estimated amounts above the taxable limit.
    ${ }^{3}$ Reported self-employment net earnings.
    ${ }^{4}$ See table 2.A3 for annual maximum taxable earnings.
    ${ }^{5}$ Preliminary data.
    ${ }^{6}$ Taxable earnings are preliminary estimates based on Social Security data; employment and total covered earnings are preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.
    ${ }^{7}$ Preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.

[^58]:    ${ }^{1}$ Not covered before 1951.
    ${ }^{2}$ Preliminary data.
    ${ }^{3}$ For all workers, medians relate to combined earnings from wage and salary employment and self-employment. For all wage and salary workers, medians relate to wages and salaries only.

[^59]:    ${ }_{1}^{1}$ For 1937-50, relates to wage and salary workers. Beginning in 1951, includes self-employed workers.
    2 Preliminary data.

[^60]:    ${ }^{1}$ Represents workers attaining age 65 during the year. Workers aged 65 or clder were not covered under the program in that year.
    2 Preliminary data.

[^61]:    ${ }^{1}$ Earnings of workers attaining age 65 during the year. Workers aged 65 or older not covered under program in that year
    ${ }^{2}$ Preliminary data.

[^62]:    ${ }^{1}$ Preliminary data.

[^63]:    ${ }^{1}$ Preliminary data.

[^64]:    Preliminary data.

[^65]:    ${ }^{1}$ State designation based primarily on employee residence, obtained from employer wage reports filed via magnetic media. State designation based on location of employer for reports filed via paper.
    ${ }^{2}$ Workers with eamings reported in more than one state are counted in each state. Workers with eamings in both wage and salary employment and self-employment are counted in each type of employment. National and state totals and subtotals are unduplicated counts of workers in each type of employment.
    ${ }^{3}$ Annual maximum taxable earnings for Social Security (OASDI) from a single employer or from self-employment were $\$ 62,700$ in 1996.
    ${ }^{4}$ For 1996 earnings, paid at the rate of 7.65 percent of taxable wages by both employees and employers, 7.65 percent of taxable tips by employees, and 15.3 percent of self-employment income by self-employed workers. Additionally, for earnings above $\$ 62,700$, paid at the rate of 1.45 percent of taxable wages by both employees and employers, 1.45 percent of taxable tips by employees, and 2.9 percent of self-employment income by self-employed workers. Data are unadjusted for multi-employer tax refunds.
    ${ }^{5}$ Military personnel on full-time active duty.
    ${ }^{6}$ Persons employed in American Samoa and Guam, U.S. citizens employed abroad by American employers, and persons employed on oceanborne vessels.

[^66]:    ${ }^{1}$ Workers with eamings in both wage and salary employment and self-employment are counted in each type of employment.
    ${ }^{2}$ See table 2.A3 for annual maximum taxable eamings.
    ${ }^{3}$ See table 2.A3 for contribution rates.
    ${ }^{4}$ Unadjusted for multi-employer tax refunds. Unadjusted for tax credits. See table 2.A5 for information on tax credits.
    5 Preliminary data.
    ${ }^{6}$ Taxable eamings are preliminary estimates based on Social Security data; employment data are preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.

    7 Preliminary estimates based on data from Bureau of Labor Statistics and the National Income and Product Accounts.

[^67]:    1 Probability of dying within one year.
    2 Number of survivors out of 100,000 born alive.

[^68]:    See footnotes at end of table.

[^69]:    See footnotes at end of table.

[^70]:    ${ }^{1}$ Race and ethnic designations are collected from the form SS-5 (Application for a Social Security Card). For dependents and survivor beneficiaries, race is assumed to be the same as that shown on the SS-5 for the wage earner on whose earnings record the benefit is based.
    2 "Total" includes 194,780 persons of unknown race. In years prior to 1993, persons of unknown race were included with "White."
    ${ }^{3}$ The "Other" classification includes Asians and Pacific Islanders, American Indians and Alaskan Natives, and a subset of the total number of beneficiaries of Hispanic origin. The distribution of beneficiaries between these three groups is not available. The number of beneficiaries classified as "Black" in the 1998 data is slightly lower than in the 1996 and 1997 tables. Revised processing corrected data that were previously coded as "Black" to "Other."
    4 Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.

[^71]:    1 For a description of the race data, see footnotes 1 and 3 in table 5.A1.
    2 Includes persons of unknown race.

[^72]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.

[^73]:    ${ }^{1}$ The sum of the individual categories may not equal total because of independent rounding.
    ${ }^{2}$ Includes 39,250 persons aged 100 or older, 5,450 men and 33,800 women.
    ${ }^{3}$ Includes special age- 72 beneficiaries.
    ${ }^{4}$ Fewer than 500 beneficiaries.

[^74]:    ${ }^{1}$ Excludes parents, special age-72 beneficiaries, and adults receiving benefits because of childhood disability.

[^75]:    1 Includes parents and special age-72 beneficianies. Excludes 93,452 student beneficiaries aged 18-19.
    2 Fewer than 500 beneficiaries.
    Note: For more recent data see table 1.B3 in the Social Security Bulletin.

[^76]:    Note: For more recent data, see table 1.88 in the Social Security Bulletir.

[^77]:    1 Provisions for Railroad Retirement Beneficiaries are described in Section 2.A OASDI: Summary.
    ${ }^{2}$ Represents those entitled in specified year or later.
    ${ }^{3}$ Less then 0.05 percent.

[^78]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.
    ${ }_{3}^{2}$ Based on 10-percent sample.
    ${ }^{3}$ Less than 0.05 percent.

[^79]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.

[^80]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.

[^81]:    ${ }_{2}^{1}$ Aged 62 or older. Includes wives aged 65 or older with children.
    2 Under age 65 with entitled children in their care.

[^82]:    ${ }^{1}$ Provisions for Railroad Retirement beneficianies are described in section 2.A OASDI Summary.
    ${ }_{2}^{2}$ Represents those entitled in specified year or later.
    ${ }^{3}$ Less than 0.05 percent.

[^83]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described section 2.A OASDI: Summary.

[^84]:    ${ }^{1}$ Provisions for Railroad Retirement beneficiaries are described in section 2.A OASDI: Summary.
    ${ }^{2}$ Data not available for 1981.
    ${ }^{3}$ Based on 10 -percent sample.

[^85]:    ${ }^{1}$ AIDS/HIV records are counted in the Infectious and Parasitic Diseases group. Before 1990, these records were included in the Other group.

[^86]:    ${ }^{1}$ AIDS/HIV records are counted in the Infectious and Parasitic Diseases group. Before 1990, they were included in the Other group.

[^87]:    Note: For more recent data, see table 1.B2 in the Social Security Bulletin.

[^88]:    ${ }^{1}$ Aged 62 or older. Includes wives aged 65 or older with children.
    2 Under age 65 with entitled children in their care.
    ${ }^{3}$ Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18. For mothers and fathers caring for a child who was at least 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.
    4 Excludes wives with both disabled and nondisabled children in their care.

[^89]:    ${ }^{1}$ Represents those entitled in specified year or later.
    2 Less than 0.05 percent.

[^90]:    ${ }^{1}$ Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18 . For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.
    ${ }^{2}$ Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.
    ${ }^{3}$ Less than $\$ 500$.

[^91]:    1 Data not available for 1981.
    2 Distributions by type of secondary benefit are estimated.
    ${ }^{3}$ Based on 10-percent sample.

[^92]:    1 Includes 23,740 husbands.
    2 Includes 87,560 widowers.

[^93]:    1 Data not available for 1981.
    ${ }^{2}$ Wife's entitlement based on age.
    3 Wife's entitlement based on care of children.

[^94]:    $1 \$ 900$ or more.
    $2 \$ 1,000$ or more
    ${ }^{3} \$ 1,400$ or more.
    $4 \$ 2,100$ or more.

[^95]:    1 Unnegotiated checks not deducted. Excludes lump-sum death payments.

[^96]:    1 Includes special age- 72 beneficiaries.
    2 Total includes beneficiaries with unknown state code.

[^97]:    ${ }^{1}$ Includes special age- 72 beneficiaries.
    2 Total includes beneficiaries with unknown state code.

[^98]:    ${ }^{1}$ See table 5.A1 for description of race data.
    2 Includes persons of unknown race.
    3 Total includes beneficiaries with unknown state code.

[^99]:    ${ }^{1}$ Total includes beneficiaries with unknown state code.
    ${ }^{2}$ Less than 0.05 percent.

[^100]:    ${ }^{1}$ Total includes beneficiaries with unknown state code.
    ${ }^{2}$ Less than 0.05 percent.

[^101]:    1 Total includes beneficiaries with unknown state code.

[^102]:    1 AIDS/HIV records are counted in the Infectious and Parasitic group. Before 1990, these records were included in the Other group.
    2 Includes American Samoa, Guam, VIrgin Islands, Nothem Mariana Islands, and foreign countries.

[^103]:    ${ }^{1}$ AIDS/HIV records are counted in the Infectious and Parasitic group. Before 1990, these recurds were included in the Other group.
    2 Includes American Samoa, Guam, VIrgin Islands, Nothern Mariana Islands, and foreign countries.

[^104]:    ${ }^{1}$ Total includes beneficiaries with unknown state code.

[^105]:    1 January-November.
    ${ }^{2}$ Includes December 1958.

[^106]:    1 Some years shown in several parts to reflect amendments that change benefit rates during the year.
    2 Data for January and February not available.

[^107]:    ${ }^{1}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
    2 Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.
    ${ }^{3}$ Includes 1,100 beneficianies with awards processed after attainment of age 65.

[^108]:    ${ }^{1}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
    ${ }^{2}$ Includes 600 beneficianies with awards processed after attainment of age 65.
    ${ }^{3}$ Average benefits not shown for fewer than 500 beneficianies.

[^109]:    ${ }^{1}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
    2 Excludes beneficianies with state code unknown.
    ${ }^{3}$ Includes American Samoa, Guam, Virgin Islands, Northern Mariana Islands, and foreign countries.

[^110]:    ${ }^{1}$ Excludes persons whose benefits were converted from disabled worker to retired worker in 1998. Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.
    ${ }^{2}$ Includes 10,100 awards for which benefits were withheld for reasons other than earnings.
    ${ }^{3}$ Months of entitlement begin with the month of award and end either in December 1998 or the month before the retired-worker benefit is terminated.
    ${ }^{4}$ Includes awards to retired workers age 65 at time of award, when the first month of entitlement to benefits preceded the attainment of age 65.

[^111]:    ${ }^{1}$ Excludes persons whose benefits were converted from disabled worker to retired worker in 1998 . Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.
    ${ }^{2}$ Includes 10,100 awards for which benefits were withheld for reasons other than earnings.
    ${ }^{3}$ Months of entitlement begin with the month of award and end either in December 1998 or the month before the retired-worker benefit is terminated.
    ${ }^{4}$ Amount for December 1998 or the amount for the latest month of entitlement multiplied by the December benefit increase.
    5 Includes awards to retired workers age 65 at time of award, when the first month of entitlement to benefits preceded the attainment of age 65.

[^112]:    ${ }^{1}$ Primary insurance amounts awarded before the December increase are converted to the December rales before computation of the percentages.

[^113]:    ${ }^{1}$ Age in year of award for 1940-84. Age in month of award for 1985-98.
    2 Less than 0.05 percent.
    3 Based on 1-percent sample
    ${ }^{4}$ Includes conversions from nondisabled widow(er)'s benefits to higher retired-worker benefits.

[^114]:    ${ }^{1}$ Age in year of award for 1957-84. Age in month of award for 1985-98.
    ${ }^{2}$ Includes awards processed after attainment of age 65.
    ${ }^{3}$ Based on 1-percent sample.

[^115]:    ${ }^{1}$ Effective 1995, impairment data for awarded disabled workers are no longer based solely on cases medically allowed at the initial level.
    ${ }^{2}$ Classification based on impairment codes established by SSA.
    ${ }^{3}$ Includes AIDS/HIV awards.

[^116]:    ${ }^{1}$ September-November.
    2 Includes December 1958.

[^117]:    ${ }^{1}$ Data not available.

[^118]:    i Prior to August 1981, benefits were payable to mothers and fathers caring for a child under age 18 . For mothers and fathers caring for a child who was at least age 14 and who were entitled in August 1981, benefits were continued until the child attained age 18 or September 1983, whichever came earlier.

    2 Excludes mothers and fathers who had both disabled and nondisabled entitled children in their care.
    3 January-November.
    4 Includes December 1958.

[^119]:    ${ }^{1}$ Benefits awarded before the December increase are converted to the December rates before computation of the averages.
    ${ }^{2}$ Base figure too small to meet statistical standards for reliability of derived figure.
    ${ }^{3}$ Average benefit not shown for groups with fewer than 500 beneficiaries.

[^120]:    1 January-November.
    2 Includes December 1958.

[^121]:    1 January-November.
    2 Includes December 1958.

[^122]:    ${ }^{1}$ Excludes beneficianies with benefits withheld for reasons other than earnings.

[^123]:    ${ }^{1}$ Revised data.

[^124]:    ${ }^{1}$ Excludes disabled beneficiaries whose monthly benefits have been suspended because of their ability to engage in substantial gainful activity. These persons continue to be eligible for Medicare for a 3-year period.

[^125]:    ${ }^{1}$ Includes data not distributed by category.

[^126]:    ${ }^{1}$ Excludes retroactive payments.
    ${ }^{2}$ Includes data not distributed by category.

[^127]:    ${ }^{1}$ Includes data not distributed by state.

[^128]:    ${ }^{1}$ Includes $\$ 120,287,000$ for seven states not distributed by category (aged, blind, or disabled): $\$ 16,792,000$ for lowa; $\$ 530,000$ for Louisiana; $\$ 2,106,000$ for Maine; $\$ 4,999,000$ for Maryland; $\$ 93,672,000$ for Michigan; $\$ 255,000$ for New Mexico; and $\$ 1,933,000$ for South Dakota.
    ${ }^{2}$ Represents recovered state payments not yet credited to the states.

[^129]:    ${ }^{1}$ Couples living in their own household with no countable income are eligible for a federal SSI payment of $\$ 741$.

[^130]:    ${ }^{1}$ See section 2.B SSI: History of Provisions for discussion of income.
    ${ }^{2}$ Includes approximately 19,400 blind and 681,800 disabled persons aged 65 or older.

[^131]:    ${ }^{1}$ Includes students aged 18-21.

[^132]:    ${ }^{1}$ Includes recipients not distributed by sex.

[^133]:    ${ }^{1}$ Data not available.
    2 Persons with more than one type are shown under each type.

[^134]:    ${ }^{1}$ Other income includes recoveries of amounts reimbursed from the trust fund, which are not obligations of the trust fund, and a small amount of miscellaneous income (including amounts from the fraud and abuse control system).
    ${ }_{2}$ Includes costs of Peer Review Organizations (beginning with the implementation of the Prospective Payment System on Oct. 1, 1983).
    3 Includes costs of experiments and demonstration projects. Beginning in 1997, includes fraud and abuse control expenses, as provided for by P.L. 104-91.
    4 No transfer was made in 1976 because of the change in transfer dates from December to March. The 1977 transfer was for benefits and administrative expenses during the 15-month period beginning July 1976 and ending September 1977.

    5 No transfer was made in 1977 because of the change in transfer dates from August to June. The 1978 transfer was from contributions during the $15-m o n t h$ period beginning July 1976 and ending September 1977.

    6 Includes $\$ 2$ million in reimbursements from general revenues for costs arising from the granting of deemed wage credits to persons of Japanese ancestry who were interned during World War II.

    7 Total assets exclude $\$ 12,437$ million loaned to the OASI Trust Fund under the interfund borrowing provisions of the law in 1982 . Repayments of $\$ 1,824$ million and $\$ 10,613$ million were made in 1985 and 1986, respectively.

    8 The lump-sum general revenue transfer, as provided for by section 151 of P.L. 98-21.
    9 Includes the lump-sum general revenue adjustment of $-\$ 805$ million, as provided for by section 151 of P.L. 98-21.
    10 Includes the lump-sum general revenue adjustment of $\mathbf{- \$ 1 , 1 0 0}$ million, as provided for by section 151 of P.L. 98-21.
    11 Includes $\$ 1,805$ million transfer from the Supplementary Medical Insurance (SMI) catastrophic coverage reserve fund as provided for by P.L. 102-394.
    12 Includes the lump-sum general revenue adjustment of $\mathbf{- \$ 2 , 3 6 6}$ million, as provided for by section 151 of P.L. 98-21.
    ${ }^{13}$ Includes monies transferred to the SMI Trust Fund for home health agency costs, as provided for by P.L. 105-33.

[^135]:    ${ }^{1}$ Medicare coverage for the aged became effective July 1, 1966. Medicare coverage for the disabled was implemented under Medicare July $1,1973$.
    2 Represents those in the 50 states, District of Columbia, and with residence unknown.
    ${ }^{3}$ Data not available.

[^136]:    ${ }^{1}$ Represents beneficiaries in the 50 states, District of Columbia, and with residence unknown.

[^137]:    ${ }^{1}$ Period for which the carrier approved bills for payment.
    ${ }^{2}$ Included in total, but not shown separately, are some bills and charges for which type of service is unknown.
    ${ }^{3}$ Due to BBA provisions, beginning in 1998 Part A now has a 100 visit limit and additional Home Health services will be billed under Part $B$.
    4 Where both medical and surgical charges are included on a single bill, the highest-priced service is the determining factor in classifying the bill.
    ${ }^{5}$ Includes physician or supplier allowed charges as determined by the carrier and amounts actually billed by'providers for outpatient hospital and home health services.
    ${ }^{6}$ Amount reimbursed to or on behalf of the beneficiary-generally 80 percent of the allowed charges, once the beneficiary has satisfied the deductible in the current year. Some radiology and pathology services are reimbursed at a 100 percent rate, regardless of the beneficiary's deductible status.

[^138]:    ${ }^{1}$ Includes short-stay and other long-stay hospitals.
    2 Beginning in 1993, the data include all Clinical Laboratory Improvement Act facilities as of December of each year.
    3 Data not available.

[^139]:    ${ }^{1}$ Based on total number of persons enrolled in the Hospital Insurance program as of December 1998.

[^140]:    ${ }^{1}$ Based on total number of persons enrolled in the Hospital Insurance program as of Dec. 1, 1998.

[^141]:    1 Fiscal year 1977 began in October 1976 and was the first year of the new federal fiscal cycle. Before 1977, the fiscal year began in July.
    2 Beginning in fiscal year 1980, recipients' categories do not add to unduplicated total because of the small number of recipients that are in more than one category during the year.
    ${ }^{3}$ Beginning in fiscal year 1991, "Nursing facility services" category combines "ICF, All other" and "Skilled nursing facility services," which were previously separate. Data under "Nursing facility services" prior to 1991, reflect "Skilled nursing facility services."

[^142]:    1 Fiscal year 1977 began in October 1976 and was the first year of the new federal fiscal cycle. Before 1977, the fiscal year began in July.
    ${ }^{2}$ Beginning in fiscal year 1980, recipients' categones do not add to unduplicated total because of the small number of recipients that are in more than one category during the year.

[^143]:    1 Based on average covered employment in 12-month period.
    2 Percentages based on first payments for 12-month period.
    3 Contributions, penalties, and interest from employers and contributions from employees in states taxing workers. Adjusted to exclude refunds of contributions and dishonored checks. Excludes state and local government employees covered on reimbursable basis.
    ${ }^{4}$ Adjusted to exclude voided benefit checks and for transfers under interstate combined-wage plan. Excludes Extended Benefits and Emergency Unemployment Compensation.
    5 Estimated data. As percent of taxable payroll. Standard contribution rate for most states, 2.7 percent. Excludes state and local jurisdictions covering state and local government employees on a reimbursable basis.

    6 Total wages earned in covered employment during all pay periods ended within the year.
    7 Includes dependents' allowances for states that provide such benefits.
    ${ }^{8}$ Based on average total weekly wage in current year.
    Source: Department of Labor, Employment and Training Administration and Bureau of Labor Statistics; based on data submitted by state agencies.

[^144]:    1 Thirty-four states had converted to TANF as of Jan. 1, 1997; eight phased in over the next 5 months; the remaining 12 waited until July 1 , 1997.
    2 Reporting initiated July 1969. Number of states with program; 1969-70, 23; 1971, 24; 1972, 27; 1973-75, 29; 1976-78, 26; 1979, 24; 1980-84, 27; 1985-86, 28;
    1987, 29; 1988, 30; 1989, 31; 1990, 33; 1991, 34; 1992, 34; 1993, 35; 1994, 49; 1995, 50; 1996, 51; and 1997, 34.
    3 Excludes family count and expenditures for states providing only partial data.

[^145]:    ${ }^{1}$ Transition from AFDC to TANF reporting systems occurred July 1, 1997 or 6 months after TANF effective date, whichever was later.
    2 Some states were unable to provide a family count to correspond with expenditures.
    3 Negative amounts represent final program closeout adjustments.

[^146]:    ${ }^{1}$ Between 1974 and 1979, Supplemental Security Income (SSI) recipients were made ineligible for food stamps in Massachusetts, Wisconsin, California and selected counties in New York and Virginia because those areas supplemented SSI payments in amounts that included the value of food stamps. As of 1983 and 1992 , SSI recipients were retumed to the Food Stamp program in Massachusetts and Wisconsin, respectively, when these states chose to stop including a value for food stamps in the SSI supplement.
    ${ }_{2}$ That portion of the food stamp allotment, before the elimination of the purchase requirement, represented the government's share of total food stamps received. Since January 1979, only the bonus portion of the total food stamp allotment is received by participants.
    ${ }^{3}$ Excludes participants and benefits under the Puerto Rico Nutrition Assistance Program after July 1, 1982.
    ${ }^{4}$ Revised data.

[^147]:    ${ }^{1}$ The Department of Health and Human Services Appropriations Act for 1995 (P.L. 103-333) included $\$ 1$ billion to LIHEAP as advanced funding for FY 1996. However, the appropriations act for FY 1996 (P.L. 104-134) rescinded $\$ 100$ million of the advance appropriation, leaving a total of $\$ 900$ million. Table excludes the following funds: $\$ 8.3$ million set aside for direct grants to Indian tribes and tribal organizations; $\$ 1.2$ million set aside for the insular areas (American Samoa, Commonwealth of Puerto Rico, Commonwealth of the Northern Mariana Islands, Guam, Trust Territory of the Pacific Islands/Palau, and U.S. Virgin Islands); $\$ 16.9$ million for the leveraging incentive program that was distributed on a competitive basis. The LIHEAP leveraging incentive program rewards grantees that add private or non-federal public resources to provide home energy benefits to low income households beyond what could be provided with federal resources: $\$ 5.5$ million that was distributed on a competitive basis to LIHEAP grantees for the Residential Energy Assistance Challenge Option Program (REACH), which was funded for the first time in FY 1996. REACH is designed to help low income households reduce their energy vulnerability; $\$ 0.3$ set aside by HHS for training and technical assistance activities; $\$ 454,374$ for a prior year debt; and negative grant awards to correct errors that were made in calculating the leveraging incentive grant awards that were made in FY 1995. HHS made subsequent corrections in August 1996 to the awards, jncluding issuing negative grant awards where necessary. Many of the excess awards were for less than $\$ 500$. The major impact was on West Virginia which received $\$ 192,144$ more than it should have received, and Wisconsin which received $\$ 277,774$ less than it should have received.
    ${ }^{2}$ An amendment to P.L. 103-333 contained in the Emergency Supplemental Appropriations for Additional Disaster Assistance, for Anti-Terrorism Initiatives, for Assistance in the Recovery From the Tragedy That Occurred at Oklahoma City, and Rescissions Act, 1995 (P.L. 104-19) provided that $\$ 300$ million of the emergency contingency funds approprated for FY 1995 would remain available for FY 1996. Of that amount, $\$ 180$ million was released on Apr. 11, 1996 to all grantees on the basis of the regular LIHEAP distribution formula. The funds enabled LIHEAP grantees to take steps to mitigate the effects of the abnormally cold winter on low income households, and prevent utility shutoffs that could endanger lives during the winter of 1995-96. Excludes $\$ 1.7$ million set aside for direct grants to Indian tribes and tribal organizations, and $\$ 0.2$ million set aside for the insular areas.
    ${ }^{3}$ Excludes any funds carned by Indian tribes and tribal organizations, and insular area grantees.

[^148]:    ${ }^{1}$ Includes $\$ 4.9$ million in state funds used for weatherization.
    ${ }^{2}$ Benefits for heating and cooling assistance were combined.
    ${ }^{3}$ Crisis funds were used for energy-related crises caused by natural disasters or geopolitical events. Other types of home energy crises were processed through an expedited or fast-track emergency system as part of the state's heating assistance program.
    ${ }^{4}$ Includes $\$ 1.6$ million in private fuel funds donated by the Colorado Energy Assistance Foundation for fuel assistance.
    ${ }^{5}$ Heating assistance amount includes $\$ 600,000$ allocated for outreach and $\$ 1,251,421$ obligated for Public Service Company of Colorado for FY 1997 heating assistance benefits.
    ${ }^{6}$ Crisis assistance data include $\$ 1.8$ million in Safety-Net benefits of up to $\$ 150$ per authorization to households which exhausted their energy and regular crisis assistance benefits, were in a life-threatening situation, and were unable to secure shelter with adequate heat. In addition, Safety Net benefits were only provided to those households which did not have access to sufficient income and/or assets to enable them to purchase fuel on their own. If no such resources were determined to be available, attempts were made to relocate the household with either family, friends, or within a temporary shelter. Fuel authorizations were issued as a last resort.

    7 State provided energy crisis assistance through a state program.
    ${ }^{8}$ Households received energy assistance with no differentiation between heating and cooling assistance.
    ${ }^{9}$ Crisis assistance includes $\$ 118,000$ for no-heat situations or for health and safety situations in which a household could receive up to $\$ 2,500$ for replacement or repair of heating system.

    10 Households needing energy crisis fuel assistance received expedited heating assistance.
    ${ }^{11}$ Crisis funds were provided for Partners in Energy, Refrigerator Project, and shelters.
    12 Includes $\$ 3.3$ million for emergency furnace repairs.
    ${ }^{13}$ State received waiver from the Department of Health and Human Services to increase from $15 \%$ to up to $25 \%$ of LIHEAP funds allotted or available to provide weatherization or other energy-related home repairs.

    14 Cooling assistance was provided with funds obligated in FY 1995.
    15 Includes $\$ 780,000$ in Aid to Needy Families with Children (ANFC) funds to provide fuel assistance, to ANFC Special Needs households.
    16 Includes $\$ 6.1$ million in special needs funds administered through LIHEAP to provide fuel assistance to households receiving Temporary Assistance for Needy Families (TANF).

[^149]:    1 Beginning in 1974, represents data only for Puerto Rico, Guam, and the Virgin Islands.
    2 Beginning in January 1974, for the 50 states and the District of Columbia, superseded by Supplemental Security Income program.
    3 Program initiated October 1950 under the 1950 Social Security Amendments.

[^150]:    1 Data partly estimated. Number of states reporting: 1960-61, 53; 1962 and 1963, 52; 1964-67, 51; 1968, 48; 1969, 47; 1970, 45; 1971-72, 47; 1973-75, 45; 1976,

[^151]:    ${ }^{1}$ Less than 0.05 percent.
